1888.

RETURNS

OF THE

RAIL-BORNE TRADE OF BENGAL

During the quarter ending the 31st March, 1888.

RAILWAY FREIGHTS.

EAST INDIAN RAILWAY.

THE changes made by this Railway during the past quarter, as compared with the corresponding period in 1887, affected the following articles:—

(1) Cotton piece-goods, Indian.
(2) Cotton twist and yarn, do.
(3) Food-grains and oil-seeds.
(4) Hides and skins.
(5) Jute, raw.
(6) Metals.
(7) Salt.

Cotton piece-goods, Indian.—During the quarter ending 31st March, 1887, *Doomgree* cloth was charged as piece-goods, viz., at the rate of 50 pies per 100 maunds per mile, but in February and March, 1888, that description of cloth was carried at the rate of ½ a pie per maund per mile.

Cotton twist and yarn, Indian.—During the 4th quarter of the year 1886-87, these goods were carried from Cawnpore to Howrah at 1st class rates, viz., ⅓ of a pie per maund per mile, in full wagon loads of 270 maunds, but during the past quarter these goods were conveyed at 2nd class rates, viz., ½ a pie per maund per mile, on actual weight.

Food-grains and oil-seeds.—In March, 1888, food-grains and oil-seeds were carried to Howrah from stations Raghunathpore (in the Shahabad district) to Barharwa (in the Chumparun district) in consignments of not less than 300 maunds per wagon, against 270 maunds per wagon in March, 1887.

Hides and skins.—During the quarter ending the 31st March, 1887, hides and skins in screwed bales not exceeding 6 maunds each in weight were charged at special class B rates, *i.e.*, at 25 pies per 100 maunds per mile, when carried in minimum consignments of 200 maunds per wagon, but in the quarter under report, the charge was fixed at the minimum of three annas per wagon-load per mile.

Jute, raw.—In through-booking with the East Indian Railway and the Eastern Bengal State Railway *vid* Naihati, raw jute was carried to Howrah and Shalimar from the undermentioned stations on the latter Railway during January, 1888 at the rates given below. No comparison can be made with the charges during the corresponding period of 1887, as through-booking was not then in force:—

During February and March, jute was carried the whole distance from Mymensingh to Howrah at the rate of 7 annas 11 pies per maund, and 6 annas per maund when packed in drums and bales, respectively; and to Skalimar at 8 annas 1 pie, and 6 annas 2 pies per maund, respectively.

Metals.—During the quarter ending the 31st March, 1887, brass and copper, unwrought, and brass and copper scraps, slabs, clippings, and tiles, booked from Howrah to the undermentioned stations, were charged at the rate of half a pie per maund per mile; in February and March, 1888, the rates were as follows :—

To Howrah.	Rate per 100 maunds.	To Stations.	Rate per 100 maunds.

2. *Coal.*—The charge for coal carried by this Railway was changed from $\frac{1}{3}$rd of a pie per maund per mile in the quarter ending 31st March, 1887, to $\frac{1}{5}$th of a pie per maund per mile, in the quarter under review.

Sugar, undrained.—The freight on this article was reduced from ¼th of a pie per maund per mile in the quarter ending 31st March, 1887, to ⅕th of a pie per maund per mile in the past quarter.

3. No changes in the rates of freight were made by any other railways during the quarter.

EXTERNAL TRADE OF THE LOWER PROVINCES

STATEMENTS I AND II.

4. The total trade of the quarter under report increased by 1,58,363 maunds, or 2·84 per cent. in comparison with the figures for the corresponding period last year. The imports showed a decrease of 15·61 per cent., and the exports a rise of 13·89 per cent. Considerable quantities of rice and other food-grains continued to be sent up-country for local consumption, but the winter crops have already commenced to be gathered in the North-West, and prospects have changed for the better. The Traffic Manager, East Indian Railway, in his report for January, 1888, wrote as follows:—

"The accounts of this season's crops, now being gathered, are favourable. Though the winter rain was late, it is stated not to have been too late, generally speaking, to cause a marked deterioration in outturn. There is not the same feeling in Calcutta this year as last, that exporters will have difficulties in obtaining supplies through scarcity of crops. What is most feared is that, on account of a downward tendency in prices at present, there will be a disinclination on the part of native holders to sell. Despatches of the new crop are expected to commence earlier this year than usual."

5. As regards the import trade, the most noticeable variations occurred in the following staples:—

Staples showing an increase on the returns of the quarter ending the 31st March, 1887.

HIDES OF CATTLE, DRESSED.

Quantity of increase ... 35,202 mds.
Percentage of do. ... 45·32

The increase is principally owing to large despatches from Delhi, where it is reported that several of the cotton merchants, who deal also in hides, paid more attention to the latter trade on the failure of the cotton business.

LINSEED.

Quantity of increase ... 1,57,032 mds.
Percentage of do. ... 86·33

The linseed traffic during the quarter was an exceptionally good one for the close of the season. January opened with quotations in the Calcutta market at Rs. 4-3 per maund for small and medium seed, which advanced in three weeks to Rs. 4-8 per maund. The Chamber of Commerce reports for that month showed "an excited market, and large operations," while the District Traffic Superintendent, Dinapore, by whose district the increase was principally contributed, remarked in February last as follows:—

"There was an active demand in Calcutta during the latter portion of the first week of February, and a fair business is reported to have been done at Rs. 4-6 to Rs 4-7 for 5 per cent. refraction; but the market became dull, and gradually gave way during the latter end of the month. There were small transactions in the new crop, and several contracts were made at Rs. 4 to Rs. 4-0-6 for small grain 5 per cent. refraction for forward delivery in April and May. The old crop must by this time be nearly exhausted."

In his report for March, 1888, the Traffic Manager, East Indian Railway, explained that the linseed traffic for the two years 1886-87 and 1887-88 was practically the same, but that it was carried at different periods.

MUSTARD SEED.

Quantity of increase ... 2,33,636 mds.
Percentage of do. ... 74·84

The increase was principally in the supplies received from stations on the Bengal and North-Western and the Oudh and Rohilkhund Railways, and from stations in the Allahabad district. The District Traffic Superintendent, Allahabad, remarked in March last as follows:—

"There was a satisfactory increase in this staple from almost all the seed-despatching stations in the district. The crop is reported to have been very good, and consignments were sent to Howrah, Sinthia, Rampore Hât, Burdwan, and other stations for local consumption."

CASTOR SEED.

Quantity of increase ... 20,935 mds.
Percentage of do. ... 42·73

The largest increase occurred in the despatches to Howrah from the Firozabad district where the crop was a very good one.

Staples showing a decrease on the returns of the quarter ending 31st March, 1887.

COTTON, RAW.

Quantity of decrease ... 3,14,209 mds.
Percentage of do. ... 48·91

The trade in Bengal cotton suffered to a great extent during the quarter under report, owing to its diversion to Bombay. Although prices* both in Calcutta and Bombay for Bengal cotton were much higher this quarter than in the corresponding quarter last year, despatches still showed a falling off. It is said that any hopes which may have existed as to the making up to some extent towards the end of the season for losses experienced during the earlier months, were removed in January, towards the end of which the diversion of this trade to Bombay became noticeable. It seems to be a special feature of the current season that local mills are taking very largely of Bengal cotton for manufacturing purposes at Bombay. The following extract from a Bombay paper, has been taken from the East Indian Railway Traffic Manager's report for February, 1888 :—

"The week's business from an exporter's point of view must be summarised as very disappointing. Orders are not coming out from home at prices that can make any buying here at current rates show a profit. The local mills are taking a considerable proportion of arrivals, especially of Bengal's, which they find most suitable for their requirements this season."

In Calcutta, the cotton market in February last was "quiet" but "steady," and "limited transactions were gone through at rising prices." On the whole, the cotton season has been throughout India an unfavourable one this year.

WHEAT.

Quantity of decrease ... 3,99,188 mds.
Percentage of do. ... 80·13

The crops in the North-Western Provinces were good, and a fair quantity of the new season's wheat was available for despatch before the end of March, 1888. Prices, however, had a downward tendency, and in addition, native holders were desirous of replenishing their stocks which had become exhausted during the scarcity of the cold weather months. The decrease was entirely from the stations which suffered last year.

OTHER GRAINS.

Quantity of decrease ... 44,589 mds.
Percentage of do. ... 32·28

The decrease under this head is due to the same cause as that given in the case of wheat.

---

* Prices ruling in March 1888 compared as follows with those of the corresponding period of 1887 (page 9 of the East Indian Railway Traffic Manager's Report for March 1888) :—

	Calcutta.				Bombay.			
	Minimum.		Maximum.		Minimum.		Maximum.	
	1887.	1888.	1887.	1888.	1887.	1888.	1887.	1888.
	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.
Per maund	12 6 0	16 2 0	16 0 0	17 12 0	.....	.....	.....	.....
Per pound	0 2 5	0 3 2	0 3 2	0 3 5	0 2 9	0 3 5	0 3 4	0 3 10
Per candy	.....	.....	.....	.....	136 0 0	169 0 0	165 0 0	187 0 0

In Calcutta the highest price for fine cotton in January 1887 was Rs. 16-4-0 per maund, against Rs. 17-8-0 in January 1888, showing a rise of 7 per cent; while in Bombay prices were as much as 10 per cent. higher in 1888 than in 1887.

6. In the export trade, the principal items in which fluctuations were most conspicuous are noticed below:—

Staples showing an increase on the returns of the quarter ending the 31st March 1887.

WHEAT.

Quantity of increase ... 18,618 mds.

RICE, HUSKED.

Quantity of increase ... 4,32,859 mds.
Percentage of do. ... 77·89

JOWAR AND BAJRA.

Quantity of increase ... 11,968 mds.

GRAM.

Quantity of increase ... 19,433 mds.

OTHER GRAINS.

Quantity of increase ... 2,81,275 mds.

The increase in these staples was due to prices continuing high up-country. In his report for February last the Traffic Manager, East Indian Railway, remarked that "it is probable that this is the last report for some time in which any considerable increase in the upward traffic in food-grains will be recorded, prices having fallen in March as the new crops came near maturity."

SILK RAW—INDIAN.

Quantity of increase ... 167 mds.
Percentage of do. ... 35·53

The principal fluctuation occurred in the exports to the North-Western Provinces and Oudh from Behar, which despatched 391 maunds, against 223 maunds in the corresponding period of the previous year. The cause of this variation is not known.

TOBACCO

Quantity of increase ... 14,837 mds.
Percentage of do. ... 91·34

The increase is due to the appearance of the new crop in the market. The District Traffic Superintendent, Dinapore, remarks as follows:—

"It is now a long time since this district has shown an increase under this heading, and it is well known that the crop of 1886-87 was a poor one. Reports now reach me that the season 1887-88 is a good one, and the increases at the following stations seem to support this:—

		Mds.	Rs.
Mokameh Ghât	...	1,935	723
Barrh ...	...	7,517	4,133
Patna Ghât	...	3,762	1,480

"The despatches during March were from the new crop and chiefly to Mirzapore, Cawnpore, and stations on the Jubbulpore line."

Staples showing a decrease on the returns of the quarter ending the 31st March 1887.

PIECE-GOODS, EUROPEAN.

Quantity of decrease ... 23,863 mds.
Percentage of do. ... 12·89

The decrease was in long-distance traffic from Howrah to the North-Western Provinces, and may be connected with the scarcity prevailing in those provinces. The Traffic Manager, East Indian Railway, in his report for March 1888, observed that the fluctuations may have been accentuated by the low rate of exchange, which interferes greatly with import business.

STICK LAC.

Quantity of decrease ... 9,380 mds.
Percentage of do. ... 42·96

The exports to the North-Western Provinces and Oudh fell of by 63·95 per cent. from Behar and by 38·40 per cent. from Western Bengal, while Calcutta contributed 2,384 maunds, against only 708 maunds in the quarter ending 31st March 1887. No special causes have been assigned for these fluctuations in the traffic reports for the quarter under review.

SILK, RAW, FOREIGN.

Quantity of decrease ... 990 mds.
Percentage of do. ... 94·91

During the quarter, under report Calcutta despatched only 52 maunds of this article to the Punjab, against 1,040 maunds in the corresponding quarter last year. The cause of this decrease is not stated by the Traffic Manager, East Indian Railway.

COPPER, UNWROUGHT.

Quantity of decrease ... 19,305 mds.
Percentage of do. ... 90·22

BRASS, UNWROUGHT.

Quantity of decrease ... 6,737 mds.
Percentage of do. ... 80·50

BRASS AND COPPER, WROUGHT.

Quantity of decrease ... 3,925 mds.
Percentage of do. ... 67·06

During January 1887, the price of copper braziers was stationary at Rs. 26 per maund; while January 1888 opened with prices at Rs. 35-12, gradually declining to Rs. 31, which resulted in a decrease in the despatches from Howrah. Prices again advanced during February and prevented business being done. The highest price reached was Rs. 33-4 per maund as compared with Rs. 26 in February 1887. Regarding the decrease in March 1888, the Traffic Manager writes as follows :—

"In common with the copper industry generally in this country, we are feeling the result of the operations of the French Syndicate, which has forced up the price of copper from under £40 per ton to over £80, with the result that the industries in which copper is used have suffered very greatly, owing to the utterly unjustifiable advance in price." (*Economist* of 24th March 1888.) "It is to be hoped that there may be shortly the same collapse in the Copper Syndicate as in tin."

SALT.

Quantity of decrease ... 13,513 mds.
Percentage of ditto ... 9·64

The exports from Calcutta showed an increase during January and February 1888, but in March there was a heavy falling off. The Traffic Manager in his report for February 1888 observed as follows :—

"In Calcutta there was a heavy speculation in salt, prices having risen from Rs. 73 per 100 maunds *ex* ship at the commencement of the year to Rs. 175 per 100 maunds at the end of the month, or by more than Rs 100 per 100 maunds, of which Rs. 50 represented the increased value on account of the duty imposed on salt *ex* golahs."

Circumstances, however, changed in March 1888; the cause of the decrease is thus explained in the report for that month :—

"The falling off was principally at Howrah, where the period opened with prices just double what they had been six months previously, viz., Rs. 115 per 100 maunds, against Rs. 57 per 100 maunds in September 1887, and with an increased tax to be paid in addition to Re. 0-8 per *maund*. Up-country buyers resisted the large enhancement of prices, and curtailed their purchases as much as possible, with the result that quotations declined during the month by Rs. 30 per 100 maunds."

SUGAR, DRAINED.

Quantity of decrease ... 4,812 mds.
Percentage of do. ... 20·52

SUGAR, UNDRAINED.

Quantity of decrease ... 1,47,271 mds.
Percentage of do. ... 51·60

The season's crop appears in the market with the beginning of the present quarter, but notwithstanding this fact, the figures showed a decrease. In January 1888, the Traffic Manager, East Indian Railway, found that the long-distance traffic from stations in the Dinapore district was poor, owing to receiving centres drawing their supplies from nearer home. In February he stated that "the stations on the Dinapore district and the Gya line throughout suffered through poor crops," and in his report for March next he wrote as follows :—

"We carried a largely increased traffic, but many of the increases were over short leads, such as Ghaziabad to Delhi, Delhi-Shahdara to Delhi, and Aligarh to Hatras, while our own sugar-despatching stations on the Dinapore district still suffered."

INTERNAL TRADE OF THE LOWER PROVINCES.

STATEMENT No. III.

7. The gross registered traffic showed an increase of 6,98,394 maunds, or 5·97 per cent., as compared with the figures of the quarter ending the 31st

March, 1887. The net quantity of the downward and upward traffic, and the proportion of the Calcutta traffic to the total trade, is given below:—

	Quarter ending 31st March		Calcutta.		Proportion of Calcutta traffic to the total trade.	
	1887.	1888.	1887.	1888.	1887.	1888.

8. The most noticeable fluctuations in the principal commodities carried each way are noted below:—

9. DOWNWARD TRAFFIC.

Articles showing an increase as compared with the quarter ending the 31st March 1887.

COAL.

Quantity of increase 14,65,873 mds.
Percentage of do. 32·24

There was a great demand for coal for brick-burning round Calcutta and stations on the Eastern Bengal State Railway. The East Indian Railway Traffic report for February 1888 contains the following account on this trade:—
"In downwards coal and coke, as has been the case since December last, the increase is greater than under any head of merchandize. We are still comparing the traffic with that of a period when there was no Jubilee bridge; and in addition to this reason for increase, the demands for coal for brick-burning continued."

COTTON, RAW.

Quantity of increase ... 14,653 mds.
Percentage of do. ... 223·33

The increase is due to large despatches from Naraingunge to Calcutta during the quarter. The whole of the cotton under this head represents the produce of the Chittagong Hill Tracts.

GRAM.

Quantity of increase ... 19,229 mds.
Percentage of do. ... 16·89

The importation into Calcutta from Behar and Eastern Bengal showed some improvement during the present quarter.

LINSEED.

Quantity of increase 3,03,827 mds.
Percentage of do. 76·42

A good business has been done in linseed owing to there being a demand for this article in the Calcutta market for export by sea. Of the total imports, Behar contributed 5,61,331 maunds against 3,19,616 maunds, and Eastern Bengal 1,24,709 maunds against 68,691 maunds.

GHEE.

Quantity of increase . 5,002 mds.
Percentage of do. ... 164·43

The total exportation of ghee from the Behar block rose from 2,860 maunds to 7,903 maunds.

SUGAR, UNDRAINED.

Quantity of increase ... 45,769 mds.
Percentage of do. ... 37·34

The figures show a great development of this trade in Eastern Bengal, which exported altogether 1,48,805 maunds, against 98,175 maunds in the quarter ending the 31st March 1887. The quantity sent to Calcutta from this block exhibited an increase of 51·75 per cent. The Northern Bengal block imported 10,690 maunds from Eastern Bengal against 5,959 maunds; and Western Bengal drew 2,350 maunds, against *nil* in the corresponding quarter last year.

TEA, INDIAN.

Quantity of increase ... 5,867 mds.
Percentage of do. ... 80·49

Large supplies of this staple were sent to Calcutta from Cachar *viâ* the Eastern Bengal block; the total quantity amounted to 8,305 maunds against 1,179 maunds.

TOBACCO.

Quantity of increase ... 27,189 mds.
Percentage of do. ... 49·60

The consignments from the Northern Bengal rose from 38,667 maunds to 65,709 maunds in the present quarter, the chief item of increase being an export of 19,990 maunds to Western Bengal against *nil* in the corresponding period of the previous year.

Articles showing a decrease as compared with the quarter ending the 31st March, 1887.

INDIGO.

Quantity of decrease ... 11,686 mds.
Percentage of do. ... 66·34

The quantity sent to Calcutta from Behar amounted to only 3,715 maunds, against 13,245 maunds in the corresponding quarter of the previous year.

WHEAT.

Quantity of decrease ... 62,173 mds.
Percentage of do. ... 23·80

The condition of this trade has already been explained in previous reports, and the decrease was expected.

RICE.

Quantity of decrease ... 3,92 005 mds.
Percentage of do. ... 31·42

The decrease occurred chiefly in the imports into Calcutta from the Western Bengal block, which supplied 4,39,025 maunds, against 10,24,942 maunds in the quarter ending 31st March 1887. On this subject, the District Traffic Superintendent, Sahebgunge, wrote in March 1888 as follows:—

"The decrease in the despatches to Howrah was due to there having been no demand for direct shipment to Europe. The rice used for local consumption in Calcutta and its suburbs is that grown in the Backergunge and other eastern districts of Bengal brought to Calcutta by boats, steamers, and Eastern Bengal, &c., State Railways, and very little of the rice produced in the districts served by the Loop is used for local consumption by the labouring classes working in the mills; but the despatches from the Loop, I understand, were further limited owing to rice being procurable at a more favourable rate from the Midnapur district."

OTHER GRAINS.

Quantity of decrease ... 3,178 mds.
Percentage of do. ... ·70

The greatest fluctuation occurred in the despatches from Northern Bengal, which supplied Eastern Bengal with 3,562 maunds against 50,135 maunds. The supply from Eastern Bengal to Calcutta amounted to 2,37,466 maunds, against 1,51,978 in the corresponding quarter of the previous year.

HIDES OF CATTLE, DRESSED.

Quantity of decrease ... 33,956 mds.
Percentage of do. ... 26·74

HIDES OF CATTLE, UNDRESSED.

Quantity of decrease ... 13,640 mds.
Percentage of do. 22·33

In both cases the decrease was due to short supplies sent into Calcutta. In dressed hides Behar contributed only 73,765 maunds, against 1,14,341 maunds, and in undressed hides the Dacca block supplied 33,971 maunds, against 40,870 maunds in the quarter ending the 31st March 1887.

During January and February last, there was a demand in Calcutta for hides, but the supply was not equal to it. In March, large supplies were received and a good business was done.

JUTE, RAW.

Quantity of decrease ... 5,17,929 mds.
Percentage of do. ... 40·14

The falling off is due to absence of demand in Calcutta for shipment. The decrease occurred in the supplies sent to Calcutta from the Eastern and Northern Bengal and Dacca blocks. Compared with the quarter ending the 31st March 1887, the decline amounted to 44·34 per cent., 44·08 per cent., and 48·82 per cent. in those blocks respectively. The importation into Calcutta fell off from 12,26,248 maunds to 6,68,451 maunds.

LAC, STICK.

Quantity of decrease ... 6,394 mds.
Percentage of do. ... 75·67

LAC, SHELL.

Quantity of decrease ... 3,139 mds.
Percentage of do. ... 13·14

Owing to a dull market the consignments to Calcutta from Behar and Western Bengal blocks declined.

MUSTARD SEED.

Quantity of decrease ... 1,13,955 mds.
Percentage of do. ... 40·28

Owing to poor crops, the exports from Behar fell off from 2,74,312 maunds to 1,54,622 maunds during the quarter under review.

CASTOR SEED.

Quantity of decrease ... 14,376 mds
Percentage of do. ... 56·22

POPPY SEED.

Quantity of decrease ... 5,998 mds.
Percentage of do. ... 35·22

The falling off in both cases occurred in the despatches to Calcutta from the Behar block. In consequence of the high prices which ruled in Calcutta during the quarter for castor seed, coupled with dull markets at home for the oil, the demand in Calcutta for crushing purposes was very limited. In poppy seed also, business was restricted.

10. UPWARD TRAFFIC.

Articles showing an increase as compared with the quarter ending the 31st March 1887.

COTTON PIECE-GOODS, EUROPEAN.

Quantity of increase ... 62,405 mds.
Percentage of do. ... 20·82

The total exports from Calcutta showed a rise of 20·81 per cent. The exports to Eastern Bengal were more than double those of the corresponding period last year; in the case of Northern Bengal, the increase amounted to 38·91 per cent., and in that of the Dacca block to 26·71 per cent. The supplies sent to Behar fell off by 5·25 per cent.

Articles showing a decrease as compared with the quarter ending the 31st March 1887.

COPPER, UNWROUGHT.

Quantity of decrease ... 5,629 mds.
Percentage of do. ... 87·12

BRASS, UNWROUGHT.

Quantity of decrease ... 1,931 mds.
Percentage of do. ... 42·22

The despatches from Calcutta fell off considerably. The quantity of unwrought copper declined from 6,461 maunds to 815 maunds, and that of brass unwrought, from 4,497 maunds to 2,621 maunds. The causes of these fluctuations have been noticed, above in the section relating to the external trade.

SALT.

Quantity of decrease ... 36,673 mds.
Percentage of do. ... 3·56

The decrease was chiefly in the exports from Calcutta. The despatches to Behar improved by 1·77 per cent., but those to Western Bengal fell off by 20·45 per cent., and to Northern Bengal by 10·06 per cent. The consignments to the Eastern Bengal and Dacca blocks increased by 1,686 maunds and 4,959 maunds, respectively. The Traffic Manager's report for March 1888 contains the following remarks on the salt trade:—

"The falling off was principally at Howrah, where the period opened with prices just double what they had been six months previously, viz., Rs. 115 per 100 maunds, against Rs. 57 per 100 maunds in September 1887, and with an increased tax to be paid in addition of Re. 0-8-0. Up-country buyers resisted the large enhancement of prices and curtailed their purchases as much as possible, with the result that quotations declined during the month by Rs. 30 per 100 maunds."

APPENDIX.

Statement showing for the chief staples the average wholesale prices which prevailed in Bengal during the quarters ending the 31st March, 1887, and 31st March, 1888, as well as the rates of deduction made from the gross weight to obtain the net weight.

RETURNS

OF THE

RAIL-BORNE TRADE OF BENGAL

During the quarter ending the 30th June, 1888.

System of registration.

THE system introduced on the 1st April, 1883, of registering the rail-borne trade of the Lower Provinces, was explained in the quarterly returns ending the 30th June, 1883, and statistics of the "external" traffic of Bengal with other provinces in India had, up to the quarter ending the 31st March, 1888, been furnished to the Government of Bengal by two audit offices, viz., the East Indian Railway Audit Office, at Jamalpore, and the Bengal and North-Western Railway Audit Office, at Gorruckpore. In a Memorandum, which was forwarded with the Government of India's circular No. $\frac{74 \text{Stats.}}{9-31}$, dated the 21st December, 1887, for the consideration of the Government of Bengal, it was stated that the Government of India found it impossible, under the present system, to meet the wishes of the Secretary of State to publish an Imperial return and a review thereon, owing to great discrepancies in weights between the several provinces, and to incompleteness of figures in certain cases, both these defects being due to a want of uniformity in the system of collecting and tabulating the statistics, and to a diversity in the form of provincial returns. In June, 1886, Local Governments and Administrations were asked for their opinion on the proposal, that instead of concentrating registration as far as possible in the East Indian Railway office at Jamalpore, and in the office of the Examiner of Guaranteed Railway Accounts, Bombay, which offices return the receipts, despatches, and passing traffic, each railway should register its own receipts. After considering the replies received, the Government of India are of opinion that the policy of concentrating registration has not received a fair trial, owing to its not having been carried out completely, and that on the whole it is, as far as can be seen at present, the only system which will work properly and economically.

Circular Resolution No. $\frac{37 \text{ Stats.}}{35-21}$, dated the 23rd March, 1888.

2. The Government of India, in the Revenue and Agricultural Department, have accordingly prescribed* a modified scheme for collecting and tabulating the rail-borne trade statistics of India, with effect from the 1st April, 1888. To prevent the possibility of any discrepancy in weights between one provincial return and another, the registration of the external trade of Bengal with other Provinces in India is now effected at the following Audit Offices, which forward their respective returns to the Government of Bengal direct:—

Registration of external trade concentrated in Railway Audit Offices.

(1).—The East Indian Railway Audit Office, Jamalpore, furnishes, the following returns of traffic:—

Imports into Bengal from—

1. Madras.
2. Bombay.
3. Berar.
4. Central Provinces.
5. Sindh ... } excepting imports into Bengal *viâ* the Oudh and Rohilkhand Railway, not passing over the East Indian Railway.
6. Punjab ... }
7. Nizam's territory.
8. Mysore.
9. Rajputana and Central India.

Exports from Bengal to—

1. The East Indian and Katni-Umaria Railway stations in the Central Provinces.
2. The East Indian and Katni-Umaria Railway stations in Rajputana and Central India.
3. The East Indian Railway Station, Delhi City, in the Punjab.

Imports into, and exports from, Bengal, from and to—

The North-Western Provinces and Oudh, except the following :—

(*a*). Trade between Bengal and the North-Western Railway stations in Bengal, and the Bengal and North-Western Railway stations in the North-Western Provinces and Oudh.

(*b*). Trade between Bengal and the North-Western Provinces and Oudh, *viâ* the Oudh and Rohilkhand Railway, not passing over the East Indian Railway.

(2).—The Examiner of Guaranteed Railway Accounts, Bombay, furnishes the following returns of traffic :—

Exports from Bengal to—

1. Madras.
2. Bombay.
3. Berar.
4. Central Provinces (excepting exports from Bengal to the East Indian and Katni-Umaria Railway stations in the Central Provinces).
5. Rajputana and Central India (excepting exports from Bengal to the East Indian and Katni-Umaria Railway stations in Rajputana and Central India).
6. Nizam's territory.
7. Mysore.
8. The Rewari-Ferozepore and Rajputana-Malwa Railway stations in the Punjab.

(3).—The Examiner of Accounts, North-Western Railway, Lahore, sends the returns of traffic mentioned below :—

Exports from Bengal to—

1. Sindh.
2. The North-Western Railway stations in the Punjab.

(4).—The Oudh and Rohilkhand Railway Audit Office, Lucknow, furnishes the following returns of traffic :—

Imports into Bengal from—

1. Sindh ...
2. Punjab ...
3. The North-Western Provinces and Oudh

} Imports *viâ* the Oudh and Rohilkhand Railway not passing over the East Indian Railway.

Exports from Bengal to—

The North-Western Provinces and Oudh *viâ* the Oudh and Rohilkhand Railway not passing over the East Indian Railway.

(5). The Bengal and North-Western Railway Audit Office, Gorruckpore, submits returns showing—

Imports into, and exports from, Bengal, from and to—

The Bengal and North-Western Railway stations in the North-Western Provinces and Oudh.

3. The orders of the Government of India cited above do not affect the registration of the "internal" traffic, *i.e.*, the traffic passing from one registration black to another, within the province.

4. With the view of ascertaining the routes taken by imports into, or exports from, India by sea, the towns of Bombay, Karachi, and Calcutta will continue to be treated as separate blocks, both by the Provinces in which they are respectively situated, and by other Provinces. In addition to these blocks, the sea-port towns of Madras, viz., Madras, Pondicherry, Negapatam, Tuticorin, and Calicut (all touched by railways), are regarded as separate blocks, for the purposes of the Madras Government, and as a single block, viz., "Madras sea-ports," for the purposes of other Administrations, and of the Government of India. In other respects, the number of external blocks remained the same as before. In order, however, to prevent the risk of errors in filling in or extracting the figures, the Government of India have directed that these blocks should invariably be entered in the following order in the returns prepared by Local Governments and Administrations, and in those prepared by Railway Audit Offices:—

Trade blocks.

British Provinces (excluding chief sea-port towns.)

Madras.	North-Western Provinces and Oudh.
Bombay.	Punjab.
Sindh.	Central Provinces.
Bengal.	Berar.

Native States.

Rajputana and Central India. | Nizam's Territory (Hyderabad).
Mysore.

Chief sea-port towns.

Madras* sea-ports.
Bombay.
Karachi.
Calcutta.

* *i.e.*, Madras, Pondicherry, Negapatam, Tuticorin, and Calicut.

There was no change in the number of internal trade blocks comprised in the Lower Provinces. The Government of India have laid down that no alteration should be made in the number of existing blocks within a province without intimation being given to that Government.

5. The forms of the provincial returns, quarterly and annual, hitherto in use are those noted below:—

Forms of the provincial returns.

I.—Statement showing for two years the trade between a province as a whole, and other provinces and Native States.

II.—Statement showing the trade between the internal blocks of a province, and other provinces and Native States.

III.—Statement showing the trade between the internal blocks of a province.

So far as Bengal is concerned, the forms of statements II and III have not been altered, but statement I has been modified so as to exhibit the imports from, and exports to, external blocks, and in the case of the maritime provinces (Madras, Bombay, Sindh, and Bengal), the trade between a province and its chief town. Comparative figures for two years as hitherto given in the Provincial returns will not be required for the Imperial returns. The form of statement I has been devised so as to give in the case of maritime provinces (1) the *total* trade of a province excluding its chief sea-port town (sea-ports in the case of Madras) with external blocks; (2) the trade of the chief sea-port town with external blocks; and (3) the trade between a province and its chief sea-port town.

6. Under the Government of India's Revenue and Agricultural Department Circular No. $\frac{39\text{Stats.}}{7-16}$, dated the 17th June, 1886, articles of rail-borne trade were classified as "important" and "unimportant." The former heading comprised those articles only which were noticed in the quarterly returns, while the annual returns dealt with both "important" and "unimportant" articles. The Government of India have now prescribed one uniform list of commodities for all India for adoption *both in the quarterly and in the*

Classification of articles of rail-borne trade.

annual returns, and the returns for the quarter under report have been prepared in accordance with the new classification list. Comparing this list with the old one, the following 13 additional articles have been added to the former :—

Dyes and tans—
(4).—Turmeric.
Metals—
(3).—Copper, wrought.
(4).—Brass, ditto.
Oils—
Cocoanut.
Oilseeds—
(5). - Earth-nuts.
Saltpetre—
(2).—Other saline substances.

Spices—
(1).—Betelnuts.
(3).—Ginger.
(4).—Chillies.
(5).—Cardamoms.
Tobacco.
(1).—Unmanufactured.
(2).—Manufactured—
(*a*) Cigars.
(*b*) Other sorts.

The nomenclature of the following articles has been altered thus—

Articles in the old list.	*Articles in the new list.*
Coal—	Coal and coke—
Grain—	Grain and pulse—
(4).—Gram.	(5).—Gram and pulse.
Hides and skins—	
(1).—Hides of cattle—	(1).—Hides of cattle—
(*a*) Dressed.	(*a*) Dressed or tanned.
(*b*) Undressed.	(*b*) Raw.
(2).—Skins of sheep, &c.—	(2).—Skins of sheep, &c.—
(*a*) Dressed.	(*a*) Dressed or tanned.
(*b*) Undressed.	(*b*) Raw.
Sugar—	Sugar—
(1).—Drained.	(1).—Refined or crystallized, including sugarcandy.
(2).—Undrained.	(2).—Unrefined, viz., molasses and jaggery or *goor*, and other saccharine produce.

The following five heads have been omitted from the old list.

Metals—
(5)—Tin.
Oilseeds—
(4).—Niger.
Railway plant and rolling-stock.
Timber.
Umbrellas.

Valuation of articles of trade.

Circular No. $\frac{45 \text{Stats.}}{35-26}$, dated the 9th May, 1888.

Circular No. $\frac{76 \text{Stats.}}{35-56}$, dated the 29th August, 1888.

7. The method which has heretofore been adopted by the Government of Bengal of assigning values to articles of trade has been explained in the annual rail-borne trade reports of these Provinces. With the view, however, of securing greater uniformity in the system of valuing the articles of rail-borne trade, entered in the provincial annual returns, and of preventing the discrepancies which have hitherto arisen from the importing and exporting provinces adopting different value rates in respect to the same articles, the Government of India in the Revenue and Agricultural Department have directed* the following principle to be observed by all Local Governments and Administrations in calculating value rates :—

(1) That for European merchandise exported inland the maritime provinces† should obtain the value rates from the Customs House; that for other articles the value rates of exports should be based on local prices and on the prices prevailing in the chief markets; and that the non-maritime provinces should continue to circulate the values of their exports on the basis of local prices.

† Madras. Bengal. | Sindh. Bombay.

(2) That in the case of opium the actual cost of the article as manufactured for Government should be taken.

(3) That in the case of "intoxicating drugs other than opium," *i.e.*, *ganja*, *bhang*, and *charas*, the actual cost of the drugs as manufactured for the market should be taken.

(4) That for articles included under the sub-head "Others," value rates should be ascertained once for all, and standard rates adopted; or

(4a) That of the articles coming under the sub-head "Others," those that are most largely exported from any province may be determined once for all by enquiries in the local markets; the prices of these should be ascertained each year, and the values calculated according to the average of their prices each year.

(5) That for all articles of *import* from British provinces, the value rates of the *exporting* provinces should be adopted.

(6) That for the trade with Native States, each Local Government and Administration should assign its own value rates as at present.

In order that effect may be given to the instructions of the Government of India, it has been directed that Local Governments and Administrations should, as soon after the close of the year to which the annual returns relate, interchange lists of value rates. So far as Bengal is concerned, arrangements are being made to introduce the system into these Provinces with effect from the current year. The orders contained in Nos. (5) and (6) have already been acted upon in Bengal in assigning values to the articles of trade dealt with in the annual returns for 1887-88.

Treatment of values in the returns.

8. In the Resolution of the 23rd March, 1888 cited above, it was directed that values should, as hitherto, be omitted from the quarterly returns, provided a table is appended to the return for the *last* quarter of the year under report, showing the value rates per maund for the *whole year*. Values should, however, be entered in the annual returns to which should also be appended a table of value rates. In their orders No. $\frac{42 \text{ Stats.}}{35-25}$, dated the 5th May, 1888, however, the Government of India have directed that a table of value rates for the quarter should continue to be published with each quarterly return, and that a similar table for the whole year should also accompany the returns for the last quarter.

RAILWAY FREIGHTS.

9. The following changes were made in the rates of freight on goods carried by the East Indian Railway during the quarter ending the 30th June, 1888, as compared with the same period in 1887:—

Cotton piece-goods and twist and yarn, European.—In April, 1888, the freight on 100 maunds of these goods booked from Howrah to Jubbulpore was reduced from Rs. 204 in the quarter ending June, 1887, to Rs. 165 in the quarter under review.

Food-grains and oilseeds.—The following statement shows the rates charged during the quarter ending the 30th June, 1887 and 1888, for food-grains and oilseeds carried to Howrah, Chitpore, and Sealdah from the undermentioned stations:—

From Stations.	Rate per 100 maunds. In 1887.		Rate per 100 maunds. In 1888.

" " 1888	33	39 4	45	44	42	41	47 15	49

Jute, raw.—During April, 1888, the following rates were introduced for raw jute booked to Howrah and Shalimar from the under-mentioned stations on the Eastern Bengal State Railway, in place of the special rates previously charged :—

From stations.		To Howrah.		To Shalimar.	
		In drums.	In bales.	In drums.	In bales.
		Per maund.	Per maund.	Per maund.	Per maund.
		As. P.	As. P.	As. P.	As. P.
Goalundo ...	Old rate	1 1	0 10	1 8	1 0
	New rate	0 10	0 8	1 0	0 10
Rajbari ...	Old rate	1 1	0 10	1 8	1 0
	New rate	0 10	0 8	1 0	0 10
Belgachi ...	Old rate	1 1	0 10	1 8	1 0
	New rate	0 10	0 8	1 0	0 10
Pangsa ...	Old rate	1 1	0 11	1 8	1 1
	New rate	0 10	0 8	1 0	0 10

Metals.—Iron, unmanufactured, was carried during April, May, and June, 1888, from Howrah to Jubbulpore at the rate of Rs. 90 per 100 maunds, against Rs. 117 per 100 maunds during the same months in 1887.

Oils.—In through-booking with stations of the North-Western Railway, kerosine oil was carried during June, 1888 from Howrah to stations *viâ* Ghaziabad at the rates given below :—

	Per 100 maunds.
	Rs. A.
For stations Moradnagore to Meerut	107 13
" Sardhana to Mozuffernugger	95 5
" Bahri to Nagal	83 0
" Saharunpore and above	82 4

In June, 1887, a uniform rate of Rs. 123-8 per 100 maunds was charged.

Salt.—During April, 1888, the following enhanced rates were introduced for salt booked to Chausa and Buxar in the Shahabad district from and *viâ* Agra, and from and *viâ* Cawnpore :—

To stations.	Rate per 100 maunds.			
	From and *viâ* Agra.		From and *viâ* Cawnpore.	
	In 1887.	In 1888.	In 1887.	In 1888.
	Rs. A.	Rs. A.	Rs. A.	Rs. A.
Chausa	31 6	41 6	32 0	35 4
Buxar	32 6	42 6	33 0	36 4

The reduced rates for salt despatched from Howrah and Chitpore upwards, as shown in the quarterly returns ending the 31st March, 1888, were extended during June, 1888, to consignments from Bally.

Stone.—During June, 1888, stone was carried from Mirzapore to Howrah, Belliaghatta, Chitpore, and *viâ* Naihati at the special rate of Rs. 100 per 12 ton wagon for the entire distance, against 3½ annas per 100 maunds per mile in June, 1887.

Tea, Indian.—During May and June, 1888, Indian tea, booked from Howrah and Calcutta, and from *viâ* Naihati was charged at the rate of ⅓ of a pie per maund per mile, against ½ a pie per maund per mile in the same months last year.

10. No changes in rates of freight were made by any other railways in Bengal during the quarter.

EXTERNAL TRADE OF THE LOWER PROVINCES.

STATEMENT II.

11. THE gross traffic carried between Bengal and the other provinces in India during the quarter ending the 30th June, 1888, showed a trifling increase of 3·02 per cent. in comparison with the figures of the corresponding period last year. In the import trade, there was a slight decrease of 2·90 per cent., but the exports were greater by 10·62 per cent.

12. The chief staples in the import trade, which exhibited marked fluctuations during the quarter under report, as compared with the corresponding period of 1887, are noticed below—

Staples showing an increase on the returns of the quarter ending the 30th June, 1887.

GRAM AND PULSE.

	Mds.
Quantity of increase ..	89,620
Percentage of do. ...	813·47

The crops this year having been good, "large stocks are held in hand at most points, except Bharwari in the Allahabad district, where there has been a poor and inferior crop." An increase of 46,920 maunds and 39,657 maunds is observed in the supplies carried to Calcutta and Behar respectively, from the North-Western Provinces. The demand for gram in the Calcutta market for exports to foreign countries as well as to coast ports, especially to Burmah, was good.

LINSEED.

	Mds.
Quantity of increase ...	5,22,325
Percentage of do. ...	65·59

The improvement noticed in the previous quarter was still further extended during the present quarter. The increase was mainly in the quantities sent to Calcutta from the North-Western Provinces and Oudh, where the outturn is said to have been more than a "sixteen-anna" crop. The April or final forecast of the wheat and oilseed crops of the North-Western Provinces and Oudh for 1888, shows that the following prices ruled during that month at Cawnpore, which is the chief provincial export centre for oil-seeds. If to these figures be added the cost of carriage to Calcutta, and other incidental charges, a margin of 1 to 2½ annas per maund is left in favour of Calcutta :—

	Wholesale price at Cawnpore per maund of 82 lbs.	Cost at Calcutta per maund of 82 lbs.	Price at Calcutta per maund of 82 lbs.
	Rs. A. P.	Rs. A. P.	Rs. A. P.
Linseed, bold ...	3 6 0	3 15 6	4 1 0
Do., small ...	3 4 0	3 13 6	4 0 0

Of the difference between the cost at Cawnpore and Calcutta, railway freight represents 8½ annas. The report of the Traffic Manager, East Indian Railway, for May, 1888, contains the following remarks :—

"The largest increases from stations above Moghul Sarai were at Mirzapore, Meja Road, and Allahabad, in shipment consignments for Calcutta. Cawnpore shows an increase, but principally to Bombay, and we have received complaints from Calcutta exporters that they have not been able to compete this year with Bombay for the Cawnpore seed traffic. I have specially reported to you on the point, and have shown that with present rates there should be a margin of over two shillings a ton in favour of Calcutta over Bombay, after paying rail and sea freights to meet incidental expenses consequent on longer duration of sea voyage, such as extra insurance, &c.. It has, however, been arranged to reduce the charges from

Cawnpore to Howrah by Rs. 2 per 100 maunds in connection with the anticipated opening through of the Indian Midland Railway in the course of the next few months—and this is the amount of reduction which Calcutta exporters ask for under present circumstances."

A large business was done in linseed in Calcutta in connection with its sea-borne trade.

MUSTARD AND RAPE SEED.

	Mds.
Quantity of increase	... 3,21,568
Percentage of do.	... 87·78

As in the case of linseed, so in that of mustard seed, the largest advance was in the quantities carried to Calcutta from the North-Western Provinces and Oudh. The crop is said to have been good along the whole length from Allahabad to Delhi, with few exceptions only. The East Indian Railway Traffic report for June, 1888, showed that Allahabad supplied Calcutta for export, and also, despatched to seed-crushing stations, such as Barrh, Bhagulpore, and Rampore Hât, for local consumption. Cawnpore principally replied to the demands of Bombay, while Delhi met demands from Calcutta. In April, 1888, the Traffic Manager, East Indian Railway, reported as follows:—

"The traffic in mustard and rape seed was further encouraged by good prices at stations in Bengal for local consumption, and in favourable advices from England, where quotations appear to have been 3 shillings a quarter above those of 1887. Bombay, however, drew extensively from our stations for export to the continent, which market Calcutta has not entered this year, while the exports from Bombay already reach over 10,000 tons."

POPPY SEED.

	Mds.
Quantity of increase	... 88,045
Percentage of do.	... 135·78

The importation into Calcutta from the North-Western Provinces and Oudh showed a rise of 144·43 per cent. The Traffic Manager in his report for May, 1888, writes that "poppy seeds are principally exported to the Continent, and Calcutta merchants explain that, while on the Bombay side there are numerous regular services of steamers to and from the Continent, it is necessary, in order to obtain Continental tonnage from Calcutta, to take up a steamer as a rule."

Staples showing a decrease on the returns of the quarter ending the 30th June, 1887.

COTTON, RAW.

	Mds.
Quantity of decrease	... 2,26,511
Percentage of do.	... 74·99

The decrease in the imports into Calcutta from the North-Western Provinces and Oudh was 75·01 per cent. As reported in previous quarters, the cotton trade continued to fall off on account of short crops up country, and a strong demand in Bombay for Bengal cotton for local consumption. The month of May, says the Traffic Manager of the East Indian Railway, "is the first slack month of the cotton year, so that our large monthly losses on this season's cotton are at an end, though we must still expect to lose small sums until the new season opens in October." His report for June, 1888, contains the following remarks on this trade:—

"As in previous months, the decrease must be ascribed to failure of crops. It can only now be hoped that the circumstances of the coming season's crops will be favourable, and that the position of Calcutta will be better than in 1887-88 in a less keen demand from Bombay mills for local consumption. I notice, however, that Bombay has already commenced to do business in the new the season's crop, while Calcutta reports are silent on point."

WHEAT.

	Mds.
Quantity of decrease	... 6,36,666
Percentage of do.	... 34·31

As in previous quarters, so in this, the largest share (39·88 per cent.) of the decrease appertained to the supplies carried to Calcutta from the North-Western Provinces and Oudh. The abnormal condition of the wheat trade of 1887-88 has already been noticed in previous returns. In the last returns it was stated that the crops in those Provinces were good, and a fair quantity of the new season's wheat was already available at the end of March, 1888. During the whole of the quarter under report, however, prospects of this trade became extremely gloomy in consequence of there being no rain in the Upper Provinces till the last day of June, 1888, since when, there has been abundant rain; and although "prices have not yet declined sufficiently to enable business to be done with Calcutta by dealers in the North-West," the worst apprehensions have been averted. In the East Indian Railway traffic report for April, 1888, the decreases from the N.-W. P. stations are thus explained—

"In the North-West Provinces the wheat crop was better than the crop of 1887, but inferior to that of 1886. The Officiating Director, Department of Land Records and Agriculture, North-West Provinces and Oudh, makes the following remarks as regards the prospects of trade:—

"'Though the quality of the wheat crop has been generally reported as very fine, and the gross outturn exceeds the produce of the previous year by over 10 per cent., while the outturn of barley, gram, and of other winter food-crops has also been good, still the prospects of a brisk export do not appear good. Three scanty khariff harvests in succession, added to the indifferent rabi harvest of last year, had led to stocks of not only wheat, but of every food-grain, being practically exhausted throughout the Provinces, while the absence of the hot winds due at this time has introduced an element of doubt: hence a general tendency to lay in stocks and consequently sustained high prices. Compared with 1885, prices of wheat are now on an average 33 per cent. higher, and present port prices, viz., Calcutta Rs. 2-10-6, and Bombay Rs. 3-7-9 per maund of 82 lbs., do not pay exporters from these Provinces.'"

Added to this, the Bengal crop was poor, especially below Sahebgunge, and the *Economist* of the 2nd June 1888, not only styles the home crops as "exceedingly critical," but adds—

"All that can be said is, that the chances are generally in favour of a considerable deficiency of wheat in America, and as this seems likely in Europe also, in spite of favourable reports from Russia, the moderate rise in wheat, which has taken place during the last month, is justified. Without doubt to-day the outlook in both continents is for a short harvest."

Since the recent abundant rainfall up-country, however, Calcutta exportors are said to have "entered that market with some freedom owing to bad weather in Europe, and wheat quotations are at the present time higher in Calcutta than they have been since this year's new crop commenced to move."

The following important remarks, which concern the Calcutta trade, have been extracted from the Traffic Manager's report for June 1888:—

"Of stations on the East Indian Railway, the only ones showing considerable increases despatched principally to Bombay. The stations are Sihora and Deori, the more important, Sihora, being distant 759 miles from Howrah, and 641 miles from Bombay. We have made repeated endeavours to secure the Sihora traffic to Howrah by reduced rates, our latest quotation being Rs. 44 per 100 maunds, or approximately 11 pies per 100 maunds per mile, against a charge to Bombay of Rs. 63-6, Sihora to Bombay. The new charge is receiving special attention from a Calcutta firm, which has this year for the first time done business at Sihora."

OTHER FOOD-GRAINS.

	Mds.
Quantity of decrease	... 2,09,670
Percentage of do.	... 87·23

The falling off of 91·39 per cent. in the consignments to Calcutta from the North-Western Provinces and Oudh, occurred principally in the despatches from Cawnpore and adjacent stations. Despatching stations in the North-West are reported this year to have stocks in hand, but movements of these grains were restricted by the high prices prevailing after the recent scarcity, even at stations where there had been abundant crops.

CASTOR SEED.

	Mds.
Quantity of decrease	22,933
Percentage of do.	36·48

During the quarter ending the 31st March, 1888, there was a large increase of 42·73 per cent. owing to large despatches to Howrah from Ferozabad, where the crop was a very good one. The decrease in the present quarter is, therefore, merely a trade fluctuation.

13 In the export trade, the following are the staples, of which the variations during the quarter ending the 30th June, 1888, call for remark :—

Staples showing an increase on the returns of the quarter ending the 30th June, 1887.

COAL AND COKE.

	Mds.
Quantity of increase	1,99,818
Percentage of do.	12·14

The East Indian Railway traffic report for June, 1888, shows that the upward increases were almost exclusively from Giridi, and were in the proportion of one-third for foreign railways, and two-thirds for the public.

COTTON PIECE-GOODS, EUROPEAN.

	Mds.
Quantity of increase	45,822
Percentage of do.	26·81

In April, 1888, it was stated by the Traffic Manager that "the increase, though a welcome one, does not bring us up to the figures of 1886, as the month of April, 1887 was a specially bad one." The traffic during May was considerably above the figures of 1887, but it did not reach those of 1886, which were exceptionally good. The following remarks made by the manager in his report for May, 1888, are worthy of notice :—

"At the commencement of the period under review, the despatches from Howrah were brisk, probably in connection with the large number of marriages referred to under the head of coaching traffic. Towards the end of the month, however, the auspicious season ceased, and the drain on up-country stocks fell off. New transactions were also much interfered with by the fall in exchange, which reached the lowest limit on record on the 17th May: the rupee price of importers rose as the exchange fell, and dealers had few demands so exceptional that they could not be postponed in the hope that the value of the rupee would improve."

GUNNY BAGS.

	Mds.
Quantity of increase	60,772
Percentage of do.	46·09

It is stated in the Traffic Manager's report for April last that in this item the despatches last year were poor, and the increase now recorded is thus partly accounted for. In the knowledge that crops in the North-Western Provinces and the Punjab were much fuller than in 1887, larger despatches were made, although there was a restraining influence in the anticipation that prices would rule so high as to prevent exports on a large scale.

IRON.

	Mds.
Quantity of increase	1,33,400
Percentage of do.	128·29

The increase is due to large consignments of machinery from Howrah for cotton mills at Cawnpore, also to a better demand for all descriptions of iron at all large stations. Among the different qualities were large consignments of pig iron for Cawnpore and Peshawar. In the higher classed iron, there were increased despatches of Government telegraph stores.

KEROSINE OIL.

	Mds.
Quantity of increase	20,217
Percentage of do.	122·89

The increase for the most part occurred in consignments from Howrah to the North-Western Provinces and Oudh, which exceeded by 73·91 per cent. those in the corresponding quarter last year.

TOBACCO.

	Mds.
Quantity of increase	59,862
Percentage of do.	68·10

The increase is attributable to abundant crops this season. Compared with the figures for the quarter ending 30th June, 1887, the exports from Behar to the North-Western Provinces were greater by 81·00 per cent.

Staples showing a decrease on the returns of the quarter ending the 30th June, 1887.

SALT.

	Mds.
Quantity of decrease	... 30,463
Percentage of do.	... 21·17

The decrease under this head occurred in the despatches to up-country stations from Howrah, as the following figures will show :—

Districts to which exported.	Exports from Howrah during the quarter ending the 30th June. 1887.	1888.
	Mds.	Mds.
Goruckpore ...	21,110	41,568
Busti	19,488	31,779
Gonda	17,560	10,989
Jounpore ...	27,587	6,830
Ghazipore ...	3,521	4,158
Fyzabad	18,690	3,861
Benares	4,776	3,267
Baraich	13,994	2,376
Other districts in The N.-W. Provinces and Oudh ...	9,482	3,311
Total ...	1,36,208	1,08,139

The largest increase is shown under Goruckpore and Busti, and the greatest falling off in Jounpore, Fyzabad, Baraich, and Gonda. In April 1888, the Traffic Manager, East Indian Railway, reported as follows :—

"It was hoped that during April the trade in salt from Howrah would improve, especially as from the 1st of the month the charge for carriage of Sambhar salt from Agra had, by an adjustment of rates from Agra and Cawnpore, been raised to a rate approaching the special class A basis. Prices of Liverpool salt varied during the month between Rs. 86 and Rs. 83 per 100 maunds, but apparently a further decline was looked for by up-country buyers, and the trade was restricted. Brokers, however, in Calcutta state that the deficiencies during the past months will be made up at least in part."

SUGAR, UNREFINED.

	Mds.
Quantity of decrease	... 40,663
Percentage of do.	... 35·24

Owing to the failure of the sugarcane crop in Behar, the exports from that block to the North-Western Provinces and Oudh fell off by 27·55 per cent., to Rajpootana by 73·42 per cent., and to Bombay by 11,758 maunds in comparison with the corresponding period of 1887.

INTERNAL TRADE OF THE LOWER PROVINCES.

STATEMENT No. III.

14. The total weight of the internal trade of the Lower Provinces during the present quarter was 5,18,260 maunds, or 3·44 per cent. in excess of the figures for the quarter ending the 30th June, 1887. The net quantities carried downwards and upwards during those periods, are shown separately in the subjoined statement:—

	Quarter ending the 30th June.		Calcutta.		Proportion of Calcutta traffic to the total trade.	
	1887.	1888.	1887.	1888.	1887.	1888.
	Mds.	Mds.	Mds.	Mds.	Per cent.	Per cent.
Downward traffic	1,18,56,125	1,16,41,226	1,02,00,702	96,12,310	86·04	82·57
Upward „	31,90,128	39,23,295	25,86,156	30,59,650	81·07	77·99
Total ...	1,50,46,253	1,55,64,521	1,27,86,858	1,26,71,960	84·98	81·41

15. The following commodities exhibited the most marked fluctuations during the quarter under report :—

DOWNWARD TRAFFIC.

Articles showing an increase as compared with the quarter ending the 30th June, 1887.

COAL.

	Mds.
Quantity of increase ...	10,52,831
Percentage of do. ...	26·60

The downward increases were principally from Barakar and Sitarampore, and were due to "large private orders" for delivery at Howrah. In his report for April, 1888, the Traffic Manager wrote:—

"The increase in the downward traffic was entirely due to the facilities afforded to the carriage of coal traffic to the east of the river Hooghly by the opening of the Jubilee Bridge. The present is the first month for which a comparison can be formed with the corresponding period of 1887, the Jubilee Bridge having been opened for goods traffic on the 1st April, 1887, and it is interesting to note the rapid strides which the coal traffic has taken during the year. During April, 1887, only 7,124 tons were carried over the bridge, while in April, 1888, 23,147 tons were carried."

GRAM AND PULSE.

	Mds.
Quantity of increase ...	6,45,863
Percentage of do. ...	189·79

Owing to good harvests, and a demand for export, the supplies to Calcutta from Behar showed an increase of 1,49,135 maunds, or 82·98 per cent., and those from Eastern Bengal of 2,30,873 maunds, or 469·90 per cent.

RICE IN THE HUSK OR PADDY.

	Mds.
Quantity of increase ...	2,24 847
Percentage of do. ...	349·38

The imports into Calcutta aggregated 2,73,430 maunds, against 10,985 maunds in the corresponding period of 1887. The consignments from the Northern Bengal block to Calcutta aggregated 1,78,861 maunds against only 2,660 maunds in the quarter ending the 30th June, 1887, and those from Eastern Bengal rose from 753 maunds to 89,952 maunds.

IRON.

	Mds.
Quantity of increase ...	43,310
Percentage of do. ...	305·00

The exports of iron from Western Bengal to Calcutta rose from 3,947 maunds to 51,779 maunds, in consequence of larger operations by the State Iron Works at Barakar, which are situated within the above block.

POPPY SEED.

	Mds.
Quantity of increase ...	99,044
Percentage of do. ...	323·09

There was a demand for poppy seed in Calcutta during the quarter under report, and the condition of its sea-borne exports has already been explained in paragraph 12 above. There was a good poppy crop in Behar, and the quantity sent to Calcutta from that block during the present quarter was about 5 times the trade of 1887, namely, 1,22,520 maunds, against 24,219 maunds.

TOBACCO.

	Mds.
Quantity of increase ...	39,164
Percentage of do. ...	23·19

This trade has done well during the quarter under review. The season's crop both in Bengal and Behar has been good. The increase shown in the returns represents, for the most part, the advance from the Northern Bengal block, which is the chief centre of tobacco cultivation in Bengal. As regards Behar, the total supply exported therefrom was very small, being 29,067 maunds against 63,157 maunds, so that Calcutta has yet to participate in the abundant tobacco crops of this province, which, however, has exported largely to the Upper Provinces, Bombay, &c. The East Indian Railway traffic reports for April and May last contain the following important remarks on the subject:—

April, 1888.—"This is another item of traffic showing a large increase this year, and the increase is gratifying, because in tobacco we are surrounded by competition from the railways to the north of the Ganges."

May, 1888.—"We are continuing to do well this half-year with the tobacco traffic arising almost entirely in Tirhoot. Our rates have, however, during late years undergone serious reductions; and as the result of a meeting between Mr. Izat, the Agent of the Bengal and North-Western Railway, and myself, a proposal is now before you for increasing tobacco rates over both systems."

In the report for June, it is stated that "the figures are satisfactory, but do not bring us to our traffic of 1886."

Articles showing a decrease as compared with the quarter ending the 30th June, 1887.

WHEAT.

	Mds.
Quantity of decrease	... 11,88,202
Percentage of do.	... 49·58

This quarter the wheat exports to Calcutta from Behar fell off by 11,10,488 maunds, or 51·08 per cent. The East Indian Railway Traffic Manager writes:—

"As reported when writing in April last, the outturn of the Bengal wheat crop this year is not favourable. Later advices show that on the loop line especially, which despatched largely last year, there is not the same surplus for export as in 1887. As regards the Dinapore district, I extract from the report of the District Traffic Superintendent:—

"'I have made fresh enquiries regarding this staple; and although the Government report estimates the crop throughout Bengal as half an average one, I do not take it to apply to the upper portion of my district. The wheat crop of the Patna district, according to the Government report, was damaged by insects.'"

RICE NOT IN THE HUSK.

	Mds.
Quantity of decrease	... 3,67,289
Percentage of do.	... 53 56

OTHER FOOD-GRAINS.

	Mds.
Quantity of increase	... 4,78,576
Percentage of do.	... 85·53

The largest falling off occurred in the despatches from Western Bengal to Calcutta, viz., 2,80,992 maunds against 4,78,525 maunds; Barakar this year found it necessary to import rice owing to failure of crops. The decrease in the imports from Northern Bengal amounted to 1,21,095 maunds. In "other food-grains," the supplies carried to Calcutta fell short by 4,24,045 maunds, namely, 83,082 maunds from Behar, 3,08,658 maunds from Eastern Bengal, and 32,305 maunds from other blocks. In the traffic report for June, 1888, it is remarked that the demand for cheap food-grains for consumption in the North-Western Provinces still continued, and in addition to the despatches from the loop line, considerable quantities of rice were received from the Oudh and Rohilkhand Railway for onward carriage from *viâ* Aligarh.

LINSEED.

	Mds.
Quantity of decrease	... 1,42,906
Percentage of do.	... 8·88

The despatches of linseed from Behar to Calcutta fell off by 1,45,448 maunds, or 10·02 per cent. The despatches from Sahebgunge declined owing to there being no stocks. The Traffic Manager, East Indian Railway, writes:—

"At our own stations there were decreases on the loop line, owing to poor crops and to the small stocks on hand being held back for better prices. The important seed-despatching stations in the Dinapore district were fairly busy, and there was less tendency than in 1887 to hold back stocks in anticipation of a rise in prices."

MUSTARD SEED.

	Mds.
Quantity of decrease	... 1,53,673
Percentage of do.	... 55·28

Owing to a bad harvest, the supplies of mustard seed carried to Calcutta from Behar aggregated only 42,643 maunds, against 1,33,922 maunds in the corresponding period of 1887.

UPWARD TRAFFIC.

Articles showing an increase as compared with the quarter ending the 30th June, 1887.

PIECE-GOODS, EUROPEAN.

	Mds.
Quantity of increase	... 14,042
Percentage of do.	... 4·56

The exports from Calcutta rose from 3,04,548 maunds to 3,21,338 maunds, the increase in the supplies carried to each block being—Behar, 1·23 per cent. Western Bengal, 9·48 per cent.; Eastern Bengal, 1·89 per cent.; Northern Bengal, 16·46 per cent.; and Dacca block, 9·36 per cent.

IRON.

	Mds.
Quantity of increase	... 2,07,644
Percentage of do.	... 212·63

A considerable business was done in iron during the present quarter, the total exports from Calcutta showing an advance of 2,08,363 maunds. The increase in the quantities sent to Western Bengal was so much as 1,43,254 maunds, while exports to Behar from Calcutta rose from 31,174 maunds to 81,431 maunds.

RICE.

		Mds.
Quantity of increase.	...	1,03,557
Percentage of do.	...	31·59

The exports from Western Bengal to Behar rose from 3,21,281 maunds in the quarter ending the 30th June, 1887, to 4,03,678 maunds in the quarter under report.

SALT.

		Mds.
Quantity of increase	...	1,52,997
Percentage of do.	...	12·49

The total exports from Calcutta showed an increase of 12·45 per cent. Considering the disturbed state of the market in consequence of the sudden increase of duty, the advance shown is satisfactory. Behar received from Calcutta 37,420 maunds more than in 1887, Western Bengal received 35,499 maunds more, Eastern Bengal 36,337 maunds more, Northern Bengal 13,615 maunds more, and Dacca 29,215 maunds in excess of the figures of the corresponding quarter last year. The following remarks of the Traffic Manager, East Indian Railway, are worthy of notice :—

"Careful consideration was given to the question whether our enhanced rates to Patna (from Rs. 27 to Rs. 34 per 100 maunds) and adjacent stations were acting injuriously on the imported salt trade, but the conclusion come to was that the article could well bear our present charges, which are the reduced monsoon rates, before steamer competition commenced."

Articles showing a decrease as compared with the quarter ending the 30th June, 1887.

GUNNIES.

		Mds.
Quantity of decrease	...	22,925
Percentage of do.	...	18·77

The chief falling off occurred in the despatches to Behar, which drew 64,351 maunds against 76,875 maunds from Calcutta, and 8,785 maunds against 20,436 maunds from Western Bengal. This decrease is in sympathy with the poor wheat crop.

APPENDIX.

APPENDIX.

RETURNS

OF THE

RAIL-BORNE TRADE OF BENGAL

For the quarter ending the 30th September, 1888.

RAILWAY FREIGHTS.

East Indian Railway.—The changes made in the rates of freight on good carried by this railway during the quarter ending the 30th September, 1888, a.. compared with the rates charged during the corresponding period of 1887-88, affected the following articles only:—

1. Cotton piece-goods, European.
2. Ditto ditto, Indian.
3. Cotton twist and yarn, European.
4. Ditto ditto, Indian.
5. Food-grains and oil-seeds.
6. Hides.
7. Jute.
8. Metals.
9. Oils.
10. Paper and pasteboard.
11. Salt.
12. Stone and lime.
13. Sugar.
14. Tea.
15. Tobacco.

Cotton piece-goods and twist and yarn, European and Indian.—During September last these goods were conveyed from Howrah to Ghaziabad and *viâ* Ghaziabad for Saharunpore and stations beyond at the rate of Rs. 236-14-8 per 100 maunds, against Rs. 244 in September, 1887.

Food-grains and oil-seeds.—During August and September, 1888, grains and seeds, fulfilling special class conditions,* booked from stations on the Bengal and North-Western Railway, *viâ* Digha Ghât to stations below Digha Ghât on the East Indian Railway, where the rates were not already lower, were charged on the through mileage when the distance exceeded 150 miles at the undermentioned rates:—

For the first 150 miles, ¼ pie per maund per mile.
For extra distances over 150 miles, ⅓ of a pie per maund per mile.
These rates were exclusive of the ferry charge of Rs. 3 per 100 maunds leviable between Paleza Ghât and Digha Ghât.

For distances less than 150 miles the ordinary tariff rates were charged.

* (*a*) No bag to exceed 2 maunds 22 seers in gross weight.

(*b*) Bags to be shipment sewn.

(*c*) Full wagon loads of special class goods must have 6 bags (three at each door) plainly marked in English in black letters, with the name of "station from" and "station to," and at least the initials of consignee's name or some distinctive mark or combination. This does not apply to small and miscellaneous consignments and goods booked to Foreign Railways requiring transhipment at the junctions which must be fully marked.

During August and September, 1887, the following special class A rates were charged:—

For the first 100 miles	33⅓ pies per 100 maunds per mile.		
,, extra distances exceeding 100 and up to 450 miles ...	17	ditto	ditto.
,, ditto beyond 450 miles	12	ditto	ditto.

From the 15th July to the 30th September, 1888, grains and seeds in consignments of not less than 300 maunds were carried from Howrah, Chitpore, and Sealdah to the following stations at the rates given below:—

Stations.	Rate per 100 maunds. In 1887.		In 1888.		Stations.	Rate per 100 maunds. In 1887.		In 1888.

In booking to Bhadressur one rupee less than the above reduced rates was charged.

Hides.—Raw hides in consignments of not less than 200 maunds, were carried to Howrah during September, 1887, and September, 1888, at the risk of the owners at the rates given below:—

From	Rates per 100 maunds. In September 1887.	In September 1888.		
	Rs.	Rs.	A.	P.
Cawnpore and *viâ* Cawnpore	89	88	0	0
Aligarh and *viâ* Aligarh	114	109	0	0
Ghaziabad and *viâ* Ghaziabad for traffic from Saharunpore and stations above	123	117	6	8

Jute.—During July, August and September, 1888, raw jute pressed to 300lbs. per bale was carried to Howrah *viâ* Ghaziabad from Saharunpore and stations above at the rate of Rs. 78-4 per 100 maunds, against Rs. 79 in the corresponding months last year. During August and September, 1888, this staple from and *viâ* Naihati to Howrah was charged at Rs. 31 per wagon, any balance over after loading the wagon being carried at first class rates, viz., $\frac{1}{3}$ of a pie per maund per mile. In 1887 special class A rates were charged with a minimum of 200 maunds per wagon.

From the 16th July jute in drums, booked from the undermentioned stations on the Eastern Bengal State Railway to Howrah and Shalimar, was charged at the following rates:—

From Stations.	Rate per 100 maunds.			From Stations.	Rate per 100 maunds.		
	1887.	1888. To Howrah.	1888. To Shalimar.		1887.	1888. To Howrah.	1888. To Shalimar.

Salt.—The following statement shows the rates at which this article was carried from and *viâ* Agra to Chausa and Buxar in the Shahabad district during the quarter under report :—

To Stations.	Rate per 100 maunds. During July 1887. Rs. A.	1888. Rs. A.	During August and September 1887. Rs. A.	1888. Rs. A.
Chausa	31 6	41 3	31 6	41 2
Buxar	32 6	42 3	32 6	42 2

From and *viâ* Mogulserai this staple was carried at second class rates, viz., ½ a pie per maund per mile against the special class A rates in the corresponding quarter of 1887-88.

During September 1888, despatches of 100 maunds of salt from and *viâ* Ghaziabad to Patna and Gya were charged at Rs. 45 and Rs. 49, respectively, against Rs. 44-11 and Rs. 49-11, respectively, in September 1887.

Stone and lime.—During September, 1888, stone and lime were carried from Mirzapore to certain stations in the Mozufferpore, Durbhunga, and Patna districts at the rates specified below:—

To Stations.	Rate in September 1887.	Rate per wagon of 325 maunds in September 1888.
		Rs.
Mozufferpore district—		
Manihari Ghât ..	14 pies per 100 maunds per mile ...	82

2. No changes in the rates of freight were made by any other Railways in Bengal.

EXTERNAL TRADE OF THE LOWER PROVINCES.

STATEMENT II.

3. During the quarter under review, the imports into Bengal from the other provinces in India showed an increase of 35·73 per cent., while the exports fell off by 4·20 per cent.

4. As regards the import trade, the most noticeable variations occurred in the staples named below :—

Staples showing an increase on the returns of the quarter ending the 30th September, 1887.

WHEAT.

	Mds.
Quantity of increase	... 5,00,861
Percentage of do.	... 543·87

The "Final General Memorandum on the Wheat Crop of the season 1887-88," published by the Government of India, showed an increase in outturn of 13,850 tons in the North-Western Provinces and Oudh, and a decrease of 51,613 tons in Bengal. In July last it was reported that the greater portion of the North-Western Provinces' crop had been retained to replenish exhausted stocks. In that month, the Traffic Manager, East Indian Railway, wrote as follows :—

"At the present time, exporters are endeavouring to secure wheat for immediate delivery, and some of the large firms are making strenuous exertions in this direction, but whatever contracts they may be able to make, the impassability of the roads after the recent extraordinary heavy rains must retard deliveries. Sea freights have risen also, and shippers must pay at the high figure for regular liners of £1-15 per ton from Calcutta, with the prospect, as reported by the Chamber of Commerce, of a still further advance in rates ere long. As regards sea freight, Calcutta is always at a great disadvantage as compared with Bombay, but at the present time we have the encouragement that a regular line of steamers has been arranged for between Calcutta and the Continent. By far the largest proportion of Indian wheat is shipped to the Continent."

In August last there were strong indications of improved prices in Europe for any wheat surplus which India might have to distribute. The Calcutta Price Current of the 25th August remarked as follows :—

"There has been a smart advance in values all round, owing to partial failure of Continental crops, and consequent strong demand for shipment. Supplies are of the smallest description, and heavy rains every where preclude the idea of improvement in this respect at present. An exceedingly large business in new crop has been done, about 15,000 tons, No. 2 club qualities at Rs. 2-13-6 to Rs. 2-14-6, April—May delivery."

The traffic in wheat during September 1888 was far above that of the corresponding period of 1887, but it was much below that of 1886, as well as of 1885. The prices* of wheat in Calcutta in 1887 and 1888 showed that there was much more inducement to do business this year than last year, although shippers complained that the market was entirely under the influence of local demand, and that prices were above home equivalents.

The Traffic Manager in his report for September 1888 also states that "the stocks which had been kept back to replenish the exhaustion during the scarcity of last cold weather in the Upper Provinces appear to have been opened out in answer to the rise in prices, which was even more marked in Bombay than in Calcutta."

LINSEED.

	Mds.
Quantity of increase ...	1,36,945
Percentage of do. ...	41·37

There was a good demand for linseed in the Calcutta market, and a larger business would have been transacted but for a scarcity in tonnage and the exceedingly high rates of sea freight, which rose to £2-2-6 per ton *viâ* Canal at the close of the period under review. The Traffic Manager, East Indian Railway, made the following remarks in his report for September, 1888 :—

"Our stations above Mirzapore despatched during the month almost solely to Bombay, owing to the strong demand there, although railway freight was much in favour of Calcutta. Meja Road, an important linseed despatching station, 541 miles from Calcutta and 860 miles from Bombay, despatched during the month 25 tons only of linseed to Howrah and Calcutta, and 473 tons to Bombay. The railway charges during the month were as follows per 100 maunds :—

		E. I. Railway.		G. I. P. Railway.		Total.	
		Rs.	A.	Rs.	A.	Rs.	A.
From Meja Road	To Howrah ...	46	0	...		46	0
	„ Bombay ...	30	0	59	6	89	6

MUSTARD SEED.

	Mds.
Quantity of increase ...	74,957
Percentage of do. ...	52·67

The increase occurred in the despatches from the North-Western Provinces to the Behar, Western Bengal, and Calcutta blocks. The following explanation regarding the increase is given by the District Traffic Superintendent, Allahabad, in his report for August last :—

"The despatches from Allahabad were made last year to Bombay. This year consignments were sent to Howrah, Rampore Hât, and Burdwan. The increase is attributable to good crop and favourable rates ruling in the market. The demand was good throughout the month ; this appears to be due to a partial failure of the crops in Bengal."

In September last, the District Traffic Superintendent, Dinapore, remarked as follows :—

"The demand for local consumption appears to have been exceptional in Calcutta, and the prices unusually steady, enabling dealers to transact their business to advantage. During September 1887 there was no demand, and very little business was done in this staple, the quotations in Calcutta being Rs. 4-6 against Rs. 4-12 to Rs. 5-4 during September 1888. I am given to understand that the supplies are unequal to the demand."

CASTOR SEED.

	Mds.
Quantity of increase ...	16 726
Percentage of ditto ...	92·16

Business was stimulated in consequence of a considerable advance in price, owing to serious apprehensions of a failure of the growing crop on the Coromandel Coast.

OTHER OILSEEDS.

	Mds.
Quantity of increase ...	62,030
Percentage of ditto ...	505·62

This trade has done well during the quarter under review, the total quantity sent to Calcutta amounting to 74,104 maunds, or 61,906 maunds in excess of the figures for the quarter ending the 30th September, 1887.

**Selling price of wheat in Calcutta per bazar maund.*

Staples shewing a decrease on the returns of the quarter ending the 30th September, 1887.

COTTON, RAW.

	Mds.
Quantity of decrease ...	37.788
Percentage of ditto ...	52·60

This decrease was expected, as the new crop will not appear in the market until the beginning of the next quarter. In July, 1888, the Traffic Manager, East Indian Railway, made the following important remarks regarding the future prospects of this trade:—

"As anticipated in my report for May, we are continuing to lose in this staple, and we must expect a continuance of our loss so long as there remains any of the old season's crop. With reference to our prospects in the future, there have recently been published in a Calcutta paper some interesting statistics of the growth of the cotton manufacturing industry in India during the last ten years. It is not stated whence the statistics are derived, but they may no doubt be accepted. During the last ten years the capital invested in Indian cotton mills has, according to this authority, increased from Rs. 7,20,00,000 to Rs. 8,50,00,000, and the weight of cotton used in a year from tons 80,000 to tons 123,000. These figures are given because they have a distinct bearing on the export trade in raw cotton from Calcutta. In that city the number of large cotton mills is limited to two, and the vast majority of Bengal cotton, therefore, diverted from export for the purpose of local manufacture finds its way to Bombay. We have seen in previous months that Bengal cotton finds favour for local manufacture at Bombay, and that the quantity of this cotton carried to Bombay during the season 1887-88 may be estimated at 60,000 to 70,000 bales, say 12,500 tons. During the same period the quantity of cotton carried to Calcutta both for the local mills and for export was only 114,000 bales, or say 21,000 tons.

"Calcutta has now to compete with Bombay as a port and as a manufacturing town, and in the latter competition Bombay has even greater advantage than in the former."

GRAM, PULSES AND OTHER FOOD-GRAINS.

	Mds.
Quantity of decrease ..	81,647
Percentage of ditto ...	43·33

Owing to the change in the classification of these staples, no comparison can be instituted for the heads "Gram and pulses" and "Others" separately. The decrease in the aggregate quantity carried occurred chiefly in the supplies carried from the North-Western Provinces and Oudh. In his report for September, 1888, the Traffic Manager writes as follows:—

"It will be remembered that last year there was a heavy upwards movement in gram and pulses and other grains in response to demands in the North-West Provinces and Rajputana, consequent on failure of crops. This year there have not been the same requirements, while in some cases the stations which last year supplied from their abundance are now themselves in difficulties. As mentioned under the head of rice, stations in the Dinapore district in September last imported that staple in considerable quantities. Last year nearly all stations in the district were able to send forward good supplies to Rajputana. The districts showing the principal fallings off were the Dinapore, Allahabad, and Tundla districts. I extract from the reports received from the officers in charge."

Extract from the Dinapore District Traffic Superintendent's report:—

"*Pulses.*—During September 1887 we despatched largely to the North-West Provinces to meet the demand consequent on unseasonable weather, which caused prices to rise and dealers to sell with advantage; now that it is known the paddy crop, owing to the floods, is far below the usual standard, I fear the decrease in pulses of all kinds is likely to continue, as merchants will keep their stocks to meet the demand for local consumption.

"*Other grains.*—This staple has been and will be affected in precisely the same manner as pulses of all kinds. The Station Master, Arrah, writes that the demand for peas still continues, but on account of the failure of the rice crop, cultivators will not bring their produce to the market in anticipation of obtaining a better market when the threatened scarcity begins to be felt."

Extract from the Allahabad District Traffic Superintendent's report:—

"*Other grains.*—Owing to the failure in crops last year, the demand at Agra, Bhurtpur, Etawah, Cawnpore and Fatehpur was very brisk from Fort Bharwari and Sirathu. This year there has been no demand, and the supplies are scanty.

"*Pulses.*—The despatches last year were to Howrah for shipment, and to Agra and Etawah for local consumption owing to a scarcity in the productions. This year there was no demand."

Extract from the Tundla Traffic Superintendent's report:—

"*Othe grain.*—There was less demand this year for food-grains, except in the upper division, Oudh and Rohilkhund Railway, and at Cawnpore, and a few stations above, where there was a failure of the crops owing to heavy rain."

POPPY SEED.	Mds.	
Quantity of decrease ...	53,933	The decreases occurred in the supplies carried to Behar and Calcutta from the North-Western Provinces. This is attributable to scarcity of supplies and to the high market rates which prevailed for this article.
Percentage of ditto ...	44·38	

5. In the export trade, the principal items in which fluctuations were most conpicuous are as follows:—

Staples showing an increase on the returns of the quarter ending the 30th September, 1887.

COAL AND COKE.	Mds.	
Quantity of increase ...	2,88,882	The increase occurred in the supplies drawn by foreign railways, more coal being required to meet the increased number of train miles; the demand from ordinary consumers is said to have fallen off.
Percentage of ditto ...	24·05	

GUNNIES.	Mds.	
Quantity of increase ...	42,134	The Goods Superintendent at Howrah accounts for the large increase as follows:— "We had a good demand for gunnies during this period from Delhi and stations above, attributable to a brisk business being done in wheat for Bombay *vid* the Bombay-Baroda and Central India Railway."
Percentage of ditto ...	100·25	

IRON.	Mds.	
Quantity of increase ...	22,105	The increase is chiefly in consignments of machinery from Howrah for the Cawnpore mills, and is a continuation of the traffic reported in the previous quarter.
Percentage of ditto ..	21·29	

Staples showing a decrease on the returns of the quarter ending the 30th September, 1887.

PIECE-GOODS, EUROPEAN.	Mds.	
Quantity of decrease ...	14,416	The principal decreases occurred in the consignments from Calcutta to the North-Western Provinces (4·67 per cent.) and the Punjab (13·30 per cent.). In his report for September, 1888, the Traffic Manager, East Indian Railway, observed that the "fluctuation may principally be ascribed to the circumstance that the month with which comparison is made, covered in 1887 the period of the Doorga Pooja holidays which fell later in 1888. Despatches from Howrah were also no doubt restricted by the difficulty owing to floods during the early portion of the month in obtaining access to the interior from our stations."
Percentage of ditto ...	11·13	

GRAM, PULSES AND OTHER FOOD-GRAINS.	Mds.	
Quantity of decrease ...	95,349	The falling off was in the despatches from Behar to the North-Western Provinces, where this year there was no scarcity of food-grains.
Percentage of ditto ...	82·28	

COPPER, UNWROUGHT.	Mds.	
Quantity of decrease ...	18,194	High prices having ruled throughout the quarter under review, business was restricted.
Percentage of ditto ...	98·09	

SUGAR, UNREFINED	Mds.	
Quantity of decrease ...	15,993	The chief falling off was in the exports from Behar, where there was a failure of the sugarcane crop.
Percentage of ditto ...	45·04	

INTERNAL TRADE OF THE LOWER PROVINCES.

STATEMENT No. III.

6. The total quantity of the internal trade of Bengal during the quarter ending the 30th September, 1888, showed an increase of 6,87,766 maunds, or 4·26 per cent., in comparison with the corresponding period of 1887. The subjoined statement shows the net quantity of the up and down traffic and the proportion of the Calcutta traffic to the total trade :—

	Quarter ending the 30th September		Calcutta traffic.		Proportion of Calcutta traffic to the total trade.	
	1887.	1888.	1887.	1888.	1887.	1888.
	Mds.	Mds.	Mds.	Mds.	Per cent.	Per cent.
Downward traffic	1,34,33,844	1,34,91,649	1,17,66,852	1,17,80,589	87·59	87·31
Upward „	26,88,857	33,18,818	22,28,635	24,86,105	82·88	74·99
Total ...	1,61,22,701	1,68,10,467	1,39,95,487	1,42,66,694	86·80	84·87

7. The most noticeable fluctuations in the principal commodities carried each way are explained below :—

DOWNWARD TRAFFIC.

Articles showing an increase as compared with the quarter ending the 30th September, 1887.

COAL AND COKE.

	Mds.
Quantity of increase ...	15,11,784
Percentage of ditto ...	36·99

The deliveries of Bengal coal in Calcutta rose by 39·53 per cent. This large increase is very fully explained by the District Traffic Superintendent, Howrah, as follows :—

"The increases from Asansol, Sitarampur, Barakar, and Karmatar are due to the new outlet the coal companies have obtained for the use of Bengal coal at Madras, and even Bombay, in competition with British coal; I also learn that the Burmah State Railways intend taking Bengal coal into use as locomotive fuel, and the New Beerbhoom Coal Company have already secured a contract for the supply of 2,500 tons, which will be despatched by steamers from Calcutta to Rangoon. On looking over the Calcutta Price Current, No. 810, dated 25th ultimo, published by the Bengal Chamber of Commerce, I find that the import of British coal for eight months ending 31st August has been steadily decreasing from 1885 to 1887, and that there has been a sudden fall from 10,80,108 maunds in 1887 to 4,71,381 maunds in 1888. This must have had some effect on the good traffic we are doing. Had it not been for the heavy rains making the roads very difficult for carts at Barakar, where the coal has to be carted to the station, the traffic from that station would have been much better. In fact, the Bengal Coal Company for this reason was not able to supply the Eastern Bengal State Railway demands in full."

PADDY.

	Mds.
Quantity of increase ...	2,25,157
Percentage of ditto ...	1280·97

The importation of this staple into Calcutta rose from 9,598 maunds to 2,21,976 maunds. The Northern Bengal block contributed 64·90 per cent. of the imports against *nil* in 1887. Eastern Bengal also supplied a large quantity, and so did the Western Bengal block. No special cause has been assigned for these increases.

TEA, INDIAN.

	Mds.
Quantity of increase ...	31,050
Percentage of ditto ...	30·80

An increase of 7,957 maunds is shown in the consignments to Calcutta from Northern Bengal, and of 7,853 maunds in those from the Eastern Bengal block.

Articles showing a decrease as compared with the quarter ending the 30th September, 1887.

WHEAT.

	Mds.
Quantity of decrease ...	1,57,417
Percentage of ditto ...	18·48

The despatches of wheat from Behar to Calcutta showed a falling off of 19·09 per cent., which was not so heavy as that shown in the previous quarter's returns, viz., 51·09 per cent. The fluctuations were of course due to poor crops during the season.

RICE.

	Mds.
Quantity of decrease ...	5,07,283
Percentage of ditto ...	85·08

The Calcutta imports from the Western Bengal block amounted to merely 78,672 maunds, against 4,05,940 maunds in 1887, but there was a considerable upward movement of rice from the latter block to Behar to meet demands caused by a partial failure of the Indian-corn crop. The Traffic Manager, East Indian Railway, observed as follows in the September number of his report :—

"Owing to the early cessation of the rains, the rice crops in almost all the districts served by the lower portion of this railway will produce a much smaller outturn than anticipated a month ago. There is indeed prospect of actual scarcity in some of the districts which ordinarily have a surplus for export. With the improved connection with the Eastern Bengal rice-producing districts, provided by the Jubilee Bridge and the Bengal Central Railway since the last scarcity in Western Bengal, there should be little difficulty in meeting any demands which may arise."

With the timely fall of rain, the apprehensions connected with the movements of food-grains in the interior ceased.

GRAM, PULSES, AND OTHER FOOD-GRAINS.

	Mds.
Quantity of decrease ...	94,911
Percentage of ditto	19·27

During the quarter under review, Calcutta drew 60,226 maunds and 19,856 maunds less from Behar and Eastern Bengal respectively, while the imports into Western Bengal from Behar showed a falling off of 10,418 maunds. The District Traffic Superintendent, Dinapore, wrote as follows in his report for July last :—

"The falling off at Arrah was caused by the scanty crop of peas and high prices ruling for them at that station.

"The crop coming under the head of 'Other-grains' generally over the district is now admitted to have been far below the usual standard, and this is borne out by the decrease in the despatches, and the large quantities of rice, &c., being sent to this district by stations on the loop line and Lower Bengal.

"At Arrah the selling prices of peas during 1887 and 1888 are compared as under—

1887.	1888.
Rs. A. P.	Rs. A. P.
1 8 0	2 0 0

while in Calcutta they are given as—

1887.	1888.
Rs. A. P.	Rs. A. P.
2 0 0	2 8 0."

JUTE, RAW.

	Mds.
Quantity of decrease ...	3,39,578
Percentage of ditto ...	9·06

The falling off occurred in the despatches to Eastern Bengal from the Northern Bengal and Dacca blocks, but the Calcutta trade showed an advance of 3·21 per cent. in the imports from Eastern Bengal, of 30·53 per cent. in those from Northern Bengal, and of 14·38 per cent. in those from the Dacca block.

LINSEED.

	Mds.
Quantity of decrease ...	63,006
Percentage of ditto ...	4·90

MUSTARD SEED.

	Mds.
Quantity of decrease	71,965
Percentage of ditto ...	59·36

As explained in the previous quarter's returns, the decrease is attributable to poor crops. The following remarks made by the Traffic Manager, East Indian Railway, in his report for July last, are worthy of note:—

"The principal feature in connection with this traffic is that our feeding railways, the Oudh and Rohilkhand and the Bengal and North-Western Railways, showed considerable increases, while the despatches from our own stations fell off. In connection with the Bengal and North-Western Railway, the District Traffic Superintendent, Dinapore, remarks that a portion of the increase is no doubt at the expense of Patna. Hitherto a very large proportion of the despatches by rail from Patna have reached that mart in country boats, but with the opening of the railways on the north bank of the river, decentralization has ensued."

TOBACCO.

	Mds
Quantity of decrease ...	22,515
Percentage of ditto ...	14·89

The importation into Calcutta from the Northern Bengal block showed a falling off of 19,115 maunds in comparison with the trade of the corresponding quarter last year.

UPWARD TRAFFIC.

Articles showing an increase as compared with the quarter ending the 30th September, 1887.

RICE.

	Mds.
Quantity of increase ...	3,09,549
Percentage of ditto ...	116·88

For causes mentioned above, the exports of rice to Behar from the Western Bengal block amounted to 4,28,745 maunds, showing an increase of 1,67,962 maunds in comparison with the figures for the corresponding period of 1887.

IRON.

	Mds.
Quantity of increase ...	3,23,851
Percentage of ditto ...	400·64

The exports from Calcutta to the Behar and Western Bengal blocks aggregated 3,54,788 maunds against 39,179 maunds in 1887. This increase is a continuation of the considerable business shown under this head in the previous quarter's returns, and is probably due to large despatches of foreign railway materials carried for the Bengal-Nagpur Railway during these two quarters. The Government of India have recently directed that railway plant and rolling-stock should not be included under the head "Iron," and enquiries are therefore being made as to the actual quantity of the traffic in iron.

Article showing a decrease as compared with the quarter ending the 30th September, 1887.

SALT.

	Mds.
Quantity of decrease ...	1,40,566
Percentage of ditto ...	13·91

The largest decrease occurred in the consignments to Behar and Western Bengal from Calcutta. On this subject, the Traffic Manager, East Indian Railway, writes as follows:—

"The decrease is almost entirely in imported salt, and is somewhat difficult to account for, the market rate having been lower than since the increased duty was introduced last January. The Goods Superintendent remarks as follows:—

'I have been making frequent enquiries regarding the falling off in salt traffic. The merchants say that the demand is very limited, and that stocks at all the large centres have been sufficient to meet requirements. The heavy rain also made it almost impossible for salt to find its way to markets a long distance off the line of rail. We may expect a little improvement after the Poojah holidays.'"

Statement showing the average wholesale prices of the articles of trade during the quarter ending the 30th September 1888, as well as the rates of deduction made from the gross weight to obtain net weight.

	1888	92 0	92 0	105 0	105 0	142 0	142 0	157 0	155 0

These rates are not subject to the differential rule, which lays down that "when goods of the same description are carried at different rates according to distance or weight to be carried, the charge for the lesser distance or weight should never exceed the charge for the greater distance or weight, the lesser being included in the greater, except when otherwise provided

During October, 1888, cotton pressed to not less than 43 lbs. per cubic foot and not exceeding $9\frac{1}{3}$ cubic feet per bale of 400 lbs. was carried between Howrah and Katni and *viâ* Katni at the rate of Rs. 5-4 per bale, against Rs. 5-8 per bale in October, 1887. From Moghal Serai to Howrah, in the case of traffic from Shaharunpore and stations above on the Oudh and Rohilkhund Railway, the charge was Rs. 4-3-4 per bale in November, 1888, and Rs. 4-4-4 in December, 1888, against Rs. 3-14 per bale in the two corresponding months in 1887.

From the 1st November, 1888, the special monsoon rates for grains and oilseeds were withdrawn, and ordinary rates were reverted to. During December, oilseeds were carried to and from Cawnpore, Aligarh, Moghal Serai and certain stations on the Tirhoot State Railway at the rates given in the following statement:—

STAPLES.		BETWEEN CAWNPORE AND *viâ* CAWNPORE AND				BETWEEN ALIGARH AND *viâ* ALIGARH AND				BETWEEN MOGHAL SERAI AND *viâ* MOGHAL SERAI AND	
		Digha Ghât and *viâ* Digha Ghât.				Digha Ghât and *viâ* Digha Ghât.				Digha Ghât and *viâ* Digha Ghât.

	1888 .	40	4	41	4	42	0	43	0	27	0

Unmanufactured tobacco booked from and *viâ* Digha Ghât and from and *viâ* Mokameh Ghât to Allahabad and stations above was chagred during October, 1888, at 1st class rates, viz., $\frac{1}{4}$ of a pie per maund per mile, against the special class B rate, viz., $\frac{1}{6}$ of a pie per maund per mile, in October 1887. During November, the following special rates were charged on consignments between Moghal Serai, Aligarh, and certain stations on the Tirhoot State Railway:—

	BETWEEN MOGHAL SERAI AND *viâ* MOGHAL SERAI AND						BETWEEN ALIGARH AND *viâ* ALIGARH AND					
	Digha Ghât and *viâ* Digha Ghât.				Mokameh Ghât and *viâ* Mokameh Ghât.		Digha Ghât and *viâ* Digha Ghât.				Mokameh Ghât and *viâ* Mokameh Ghât.

1888	84	0	87	0	100	0	100	0	132	0	135 0	148 0	149 0

The special rates given above were cancelled in December, and the rates in force in October were re-introduced.

Hides and skins (*raw*).—From October, 1888, mixed consignments of dry and wet hides were charged as wet hides.

Jute, raw.—The charge on raw jute, hemp, flax, and tow, carried by the East Indian Railway during the quarter under report, was 3 annas per wagon per mile, irrespective of load, against the special class A* rate and a minimum load

* For the first 100 miles ... ... $33\frac{1}{3}$ pies per 100 mds.
,, extra distances exceeding 100 and up to 450 miles ... .. 17 ditto ditto.
,, ditto ditto beyond 450 miles ... ... 12 ditto ditto.

of 200 maunds per wagon in the corresponding quarter in 1887. In November, 1888, in through booking with the East Indian Railway, raw jute was carried to Howrah from the Eastern Bengal State Railway stations named in the margin, at 10 pies per maund, against 1 anna per maund in October, 1887, and to Shalimar at 1 anna per maund, against 1 anna 2 pies per maund in 1887. In December, 1888, the previous month's rates were reduced by 2 pies per maund.

Dacca.	Gafergaon.
Naraingunge.	Kawraijid.
Mymensingh.	Sripur.
Kalibazar.	Jogdebpur.
Balipara.	Tongi.

Liquors.—During October, 1888, the freight on spirits and wines in casks (not bottled) despatched from Howrah to and *viâ* Katni, in the Jubbulpore district, was reduced from Rs. 254 in October, 1887, to Rs. 190-5 per 100 maunds. These liquors in casks, &c. (bottled), were carried at Rs. 308, against Rs. 318 per 100 maunds in October, 1887.

Metals.—Copper and brass, unwrought, were carried during October, 1888, from Howrah to and *viâ* Katni at Rs. 114-8, against Rs. 191 per 100 maunds in the corresponding month in 1887.

Stone and Lime.—During December, 1888, the freight on ballast carried from Pakur to Howrah and to and *viâ* Naihati at the risk of the owners was 3 annas per wagon per mile, against 16·66 pies per 100 maunds per mile in December, 1887.

2. No changes in the rates of freight were made by any other Railway in Bengal.

EXTERNAL TRADE OF THE LOWER PROVINCES.

STATEMENT II.

3. During the quarter under report, the imports into Bengal from the other provinces in India showed an increase of 14·26 per cent. while the exports fell off by 23·29 per cent.

4. The chief staples in the import trade, which exhibited marked fluctuations during the quarter under report, as compared with the corresponding period of 1887, are noticed below :—

IMPORTS.

Staples showing an increase on the returns of the quarter ending the 31st December 1887.

WHEAT.	Mds.
Quantity of increase	... 3,81,889
Percentage of do.	... 1022·02

The circumstances of the wheat traffic of 1888 and 1887 differ materially. There was in 1888 less absence of any demand for export than 1887, while the up-country demand in 1887, owing to failure of crops, was not repeated in 1888. Prices in the Lower Provinces were higher than last year, while in the North-West they were lower. The Traffic Manager in his report for October, 1888, wrote as follows :—

"Our wheat traffic during the corresponding period of 1887 was a special cause of anxiety, and wheat as a staple for export had become such a dead letter that the Calcutta Chamber of Commerce had ceased all quotations in its weekly price-current. We have, therefore, no great cause for congratulation at the increase shown in October 1888, and it will be remembered that this year also shippers are complaining that no business can be done, as Calcutta prices are above home equivalents. During the period we carried to Howrah 10,000 tons of wheat, while the export by sea were 11,500 tons. The export traffic is reported to have been affected by the high charges current for sea freight."

The District Traffic Superintendent, Tundla, explains the fluctuations during October last, as follows :—

"Although the greater portion of the wheat despatched during the beginning of the month from this district for shipment continued to be forwarded to Bombay, towards the end of the month there was a revival of the demand at Calcutta, and hence the satisfactory increase in earnings under this head."

The price of wheat in Calcutta during November 1888 was Rs. 3-1 to Rs. 3-2-6 for Fyzabad and Rs. 3-3 for Buxar wheat, whereas during the same period of 1887 the quotations were Rs. 2-8 to Rs. 2-9 per maund.

GRAM, PULSES, AND OTHER FOOD-GRAINS.

	Mds.
Quantity of increase ...	2,26,938
Percentage of do. ...	144·49

For reasons explained in the preceding quarter's returns, the result of the transactions in these staples is shown in one lump. The figures for the quarter under report showed a large improvement over the trade of the previous quarter, in which there was a falling off of 43·33 per cent. Towards the end of October, a demand had sprung up from Calcutta for the cheaper staples for shipment to Madras and Orissa, where there were grave apprehensions of an impending famine. The demands were met by Delhi, Agra, and other stations in the Tundla district.

Staples showing a decrease on the returns of the quarter ending the 31*st December*, 1887.

COTTON, RAW.

	Mds.
Quantity of decrease ...	18,484
Percentage of do. ...	7·96

The cotton season in the Cawnpore district was a poor one, and the quantity available for export has not, it is said, approached last year's figures. On the other hand, Bengal cotton was largely exported to Bombay during the quarter under report, as the following remarks made in November, 1888, by the Goods Superintendent, Howrah, will show :—

"The cotton season is late this year, and better prices are offering at Bombay both for the local mills and for export, so much so that buyers in Calcutta cannot compete with Bombay with cotton for Europe. One or two firms are trying to cancel contracts at a loss. The prospects in cotton are not very bright just now."

In his report for December, 1888, the Traffic Manager, East Indian Railway, remarked that "the Bombay mills are buying Bengal cotton as largely as ever for manufacture. It is to be hoped in the interests of this Railway that the rumour now current, that new cotton mills are to be erected in Calcutta, will prove correct."

LINSEED.

	Mds.
Quantity of decrease ...	93,941
Percentage of do. ..	22·53

In his report for December, 1888, the Traffic Manager, East Indian Railway, states that "last year we dealt with an exceptionally good traffic in linseed for the month of December, and this year we are still considerably in advance of the figures of 1886. The demand in Calcutta appears to have been fairly steady, but sellers were not disposed to press their small stock upon the market."

TIL.

	Mds.
Quantity of decrease ..	43,002
Percentage of do. ...	78·08

CASTOR.

	Mds.
Quantity of decrease ...	21,869
Percentage of do. ...	49·33

The decrease in til seed occurred in the consignments from Allahabad, Bharwari, Sirathu, and Cawnpore, while in the case of castor seed there were short despatches from Phaphun and Etawah.

GHEE.

	Mds.
Quantity of decrease ...	19,560
Percentage of do. ...	58·72

The Calcutta demand was met from Behar, and hence the falling off in the despatches of ghee from the Upper Provinces.

5. In the export trade, the principal items in which fluctuations were most conspicuous are noticed below :—

EXPORTS.

Staples showing an increase on the returns of the quarter ending the 31*st December* 1887.

COAL AND COKE.

	Mds.
Quantity of increase ...	4,03,258
Percentage of do. ...	33·79

The increase is in despatches both for foreign railways and for the public. The great bulk of the upward traffic is of course on railway account.

PIECE-GOODS, EUROPEAN.

		Mds.
Quantity of increase	...	65,541
Percentage of do.	...	36·19

The demand during November and December from the Calcutta market was good, and despatches from Howrah to Cawnpore, Delhi and stations above considerably increased during the period. In the North-West especially, there was no restriction such as was caused in 1887 by the scarcity of food-grains and consequent high prices.

GUNNIES.

		Mds.
Quantity of increase	...	19,069
Percentage of do.	...	21·83

The Goods Superintendent at Howrah remarks that the demand for gunnies both for wheat, seeds and cotton continued good during October, 1888. In November and December, however, the figures fell off owing to the fall in export traffic and the late cotton season.

Staples showing a decrease on the returns of the quarter ending the 31st December, 1887.

WHEAT.

		Mds.
Quantity of decrease	...	1,07,243
Percentage of do	...	99·44

The large traffic carried during the 3rd quarter of 1887-88 was due to abnormal causes, which largely stimulated exports of food-grains to the Upper Provinces. The decrease shown in the present returns therefore need cause no apprehension.

In connection with the rice traffic, however, the Sahebgunge District Traffic Superintendent's 'report' for October 1888 gives the following particulars :—

RICE NOT IN THE HUSK.

		Mds.
Quantity of decrease	...	3,07,111
Percentage of do.	...	64·12

"The demand for rice at up-country stations from Bhagalpur upward to Cawnpore was very great and markets were most favourable. The prices up-country ranged from Rs. 2-7 to Rs 3-2, whereas it sold locally at stations on the loop from Rs 2-3 to Rs 2-4 a maund, allowing a good margin for profit after paying railway freight.

"The up and down traffic in rice for the periods under review compare thus :—

			Mds.	Rs.
1888	...	Up ...	3,01,966	90,127
		Down ...	62,026	8,994
1887	...	Up ...	1,66,976	61,372
		Down ...	51,480	8,216

"If rain had fallen in time last month, we should have had a further increase in this staple, as already stated. There was an apprehension of famine throughout country, and merchants held black and waited results."

GRAM AND PULSES AND OTHER FOOD-GRAINS.

		Mds.
Quantity of decrease	.	4,70,725
Percentage of do.	...	97·20

The chief falling off has been at Howrah in despatches to the North-West Provinces, as the following detailed figures of fluctuations will show:—

Districts to which exported.		Exports from Howrah during the quarter ending the 31st December 1887. Mds.	1888. Mds.
Goruckpore	...	25,206	41,151
Basti	...	17,087	30,966
Gonda	...	21,632	6,605
Jounpore	...	21,810	3,602
Ghazipore	...	3,207	2,403
Sultanpore	...	6,108	1,801
Benares	...	7,326	1,489
Fyzabad	...	19,344	903
Baraich	...	8,553	.....
Other places	...	5,846	1,513
Total	...	1,36,119	90,433

SALT.

		Mds.
Quantity of decrease	...	53,224
Percentage of do.	...	36·95

The traffic report for December, 1888, shows that the "price of imported salt rose during the period from Rs. 93 to Rs. 97 per 100 maunds, and it is reported that prices are likely to be maintained by speculators."

SUGAR, UNDRAINED.

		Mds.
Quantity of decrease	...	76,586
Percentage of do.	...	48·87

As explained in previous quarters, the falling off was owing to the failure of the sugarcane crop in Behar.

INTERNAL TRADE OF THE LOWER PROVINCES.

STATEMENT No. III.

6. The gross registered traffic showed an increase of 32,39,578. or 21·61 per cent., as compared with the figures of the quarter ending the 31st December,

1887. The net quantity of the downward and upward traffic, and the proportion of the Calcutta traffic to the total trade, are given below :—

	Quarter ending the 31st December		Calcutta traffic.		Proportion of Calcutta traffic to the total trade.	
	1887.	1888.	1887.	1888.	1887.	1888.
	Mds.	Mds.	Mds.	Mds.	Per cent.	Per cent.
Downward traffic	1,28,80,220	1,51,71,137	1,15,87,207	1,33,16,725	89·96	87·78
Upward ,, ...	20,60,594	30,09,255	16,83,120	21,39,140	81·68	71·09
Total ..	1,49,40,814	1,81,80,392	1,32,70,327	1,54,55,865	88·82	85 01

7. The most noticeable fluctuations in the principal commodities carried each way are noted below :—

DOWNWARD TRAFFIC.

Articles showing an increase as compared with the quarter ending the 31st December, 1887.

COAL AND COKE.

	Mds.
Quantity of increase ...	17,99,368
Percentage of do. ...	34·91

The prospects of the coal traffic are very fair, and there is a growing demand for this article in the Calcutta market. In October, 1888, the Traffic Manager, East Indian Railway, wrote as follows :—

"The growth of the downwards coal traffic may, in the first instance, be attributed to the opening of the Jubilee Bridge, and the consequent increased facilities for delivering coal and coke in Calcutta and in Eastern Bengal generally. As compared with 1887, both the Calcutta depôts, namely, Ballinghatta (Sealdah) and Chitpore, showed largely increased receipts; the deliveries at these two depôts during the period were more than 10,000 tons. Another, and perhaps the principal, reason for the increased traffic is the demand which has recently sprung up for Bengal coal for export to coaling stations on the Indian and Burmah coasts. These ports were supplied with British coal, and it was even the practice with many of the regular lines of steamers to arrive in the port of Calcutta with their bunkers sufficiently filled with coal to enable them to sail again without taking on board any Bengal coal. The latter coal has now, however, grown in favour, while the cost of British coal has increased: the former description is more generally taken by steamers in Calcutta, while arrangements are being made on a considerable scale to stock Rangoon, Madras, Colombo, and other ports from Bengal. In the weekly Commercial letter of the "*Pioneer*" newspaper, it was recently stated that the Managing Agents in Calcutta of one line alone had contracted for 400,000 tons of coal for Calutta consumption and for export to coaling stations during one year. The information in this office leads to the belief that the quantity has been placed at too high a figure, but there is every reason to hope for nearly 200,000 tons, against under 100,000 tons during the past year.

"The deliveries at Howrah, namely, 57,325 tons, were the largest we have ever had during October, and there seems some probability of our continuing to do a larger business at Howrah than previously throughout the cold weather. With our limited accommodation for coal traffic at Howrah, there may be some difficulty in dealing with all the traffic given us.

"Our estimates of increased coal traffic are supported by the large advances which have recenty taken place in the price of all coal shares."

The report for December is as reassuring as the above. The Traffic Manager writes :—

"In *downwards* traffic the principal cause for the increase is as assigned in a previous report, namely, the receipt by the Coal Companies of large orders from steamers, both for coaling in Calcutta and for despatch to coaling stations on the coast. All Coal Companies are now reported to be working to their utmost outturn in order to keep pace with their contracts, and the railway is also experiencing difficulties in dealing with the traffic, principally owing to Coal Companies despatching larger quantities from the collieries than with the facilities afforded at Howrah they can unload without detaining stock."

PADDY.

	Mds.
Quantity of increase	... 3,12,809
Percentage of do.	... 3976·72

The increase was mainly in the importation into Calcutta from Northern, Eastern, and Western Bengal. No special cause has been assigned for these increases.

JUTE, RAW.

	Mds.
Quantity of increase	... 5,29,285
Percentage of do.	... 15·43

The greatest portion of the increase shown occurred in the despatches to Calcutta from Northern and Eastern Bengal. The East Indian Railway received during the quarter a considerable jute traffic from the Assam-Behar State Railway. In his report for October last, the Traffic Manager remarked as follows :—

"The most important addition, as compared with 1887, was the increase of 64,000 maunds approximately, and Rs 17,500 from traffic made over to us for Calcutta by the Assam-Behar State Railway. To give encouragement to this new traffic, and in competition with the rivers during the rainy season, a rate had been quoted of 3 annas per wagon-mile, irrespective of load. I think the success of the rate is shown by results, and boats are reported to have done little or none of the jute carriage this season from the districts affected."

MUSTARD SEED.

	Mds.
Quantity of increase	... 32,453
Percentage of do.	... 30·48

There was a fair demand for this staple, and the increase occurred in the despatches to Calcutta from Behar.

GHEE.

	Mds.
Quantity of increase	... 19,935
Percentage of do.	... 304·17

The large imports into Calcutta from Behar restricted supplies being sent from the Upper Provinces.

Articles showing a decrease as compared with the quarter ending the 31st December, 1887.

WHEAT.

	Mds.
Quantity of decrease	... 1,18,966
Percentage of do.	... 33·65

The decrease occurred in the despatches to Calcutta from Behar. The Traffic Manager's report for October, 1888 shows that Buxar and Arrah being well irrigated had assurance of fair crops irrespective of rainfall, and were therefore enabled to part with stocks The increase *viâ* Digha Ghât is owing to the despatches last year having been nominal, while the decreases from Monghyr and *viâ* Bankipore are owing to short crops. Both Monghyr and Gya found it necessary to import food-grains.

RICE.

	Mds.
Quantity of decrease	... 3,29,742
Percentage of do.	... 41·29

The chief falling off was in the imports into Calcutta from Northern Bengal and Western Bengal. On this subject the District Traffic Superintendent, Sahebgange, wrote as follows :—

"A cheaper and better quality of rice from Backergunge and other eastern districts of Bengal appears to have monopolised the Calcutta market.

"There can be no doubt that the drought experienced last October in a great measure sterilized this traffic. Until they were reassured, which was not till towards the end of last month, merchants held back and awaited results."

GRAM, PULSES, AND OTHER FOOD-GRAINS.

	Mds.
Quantity of decrease	... 3,58,393
Percentage of do.	... 45·30

The stations showing principal decreases were on the length between Sahebgunge on the loop line and Dinapore, and there is no doubt that, so far from having the surplus of previous years, there was an actual scarcity of some severity in the districts which freely sent away supplies last year. The Traffic Manager's report for October, 1888 contains the following remarks on this traffic :—

"There were heavy fallings off in despatches from stations on the upper portion of the loop line, and on the Dinapore district, as in all cases supplies were no more than sufficient for local consumption, while some stations had even to import food-supplies."

GUNNY-BAGS AND CLOTH.

	Mds.
Quantity of decrease	... 1,78,154
Percentage of do.	... 57·34

The falling off was in the despatches to Calcutta from Northern Bengal.

LINSEED.

	Mds.
Quantity of decrease	... 2,30,389
Percentage of do.	... 17·98

The largest decrease occurred in the consignments sent to Calcutta from Patna City, and the report of the District Traffic Superintendent, Dinapore, shows that the "crops near and about Patna, which as a rule feed that station, have not been as favourable as anticipated owing to unseasonable rains. During October, 1887, the selling price in Calcutta ranged from Rs. 3-11 to Rs. 4-1, and stocks were then abundant; but during October, 1888, the quotations commenced as low only as Rs. 4-3, and rose as high as Rs. 4-8 to Rs. 4-10, according to the percentage of refraction.

The following were the selling prices at the principal stations during October, 1887, and 1888:—

	1887. Rs. A. P.	1888. Rs. A. P.
Mokameh Ghât ...	3 11 0	3 12 0
Mokameh	3 11 0	3 12 0
Barh	4 2 0	4 2 6
Khusrupur	4 3 0	4 2 0
Patna	3 15 0	4 8 0
Buxar	3 8 0	3 12 0
Chausa	3 15 0	4 0 0
Dildarnagar	4 0 0	4 3 0

UPWARD TRAFFIC.

Articles showing an increase as compared with the quarter ending the 31st December, 1887.

PIECE-GOODS, EUROPEAN.

	Mds.
Quantity of increase	... 15,913
Percentage of do.	... 4·59

The increase occurred in the despatches from Calcutta, which did a good business in this staple during the quarter under report.

RICE.

	Mds.
Quantity of increase	... 3,98,087
Percentage of do.	... 165·81

Owing to a scarcity of other food-grains, a large quantity of rice was carried to Behar from Western Bengal for local consumption. The following extracts made from the East Indian Railway Traffic Manager's reports for October, 1888, show the details of the transactions in this staple.

Extract from the Goods Superintendent's report:—

"This increase is due to a scarcity of other food-grains; the rates increased considerably during this period, the despatches were principally for stations on the B. district.

"Common food-grains were very scarce in the markets, and rates went up very considerably; hence the demand for rice chiefly for local consumption."

Extract from the Howrah District Traffic Superintendent's report:—

"In the downward traffic we have had a good export from Burdwan, Khana Junction and Raneegunge to Howrah, on account of high rates prevailing in Calcutta owing to the unfavorable reports from all parts of the country. In the same way we have had a good increase in the upwards despatches from Burdwan, Khana Junction, Durgapore and Raneegunge, on account of the scarcity at stations on the B district; on the upper end of this district, and at Barakar. The scarcity at Karmatar and Ba dyanath has also caused a decrease from those stations."

Extract from the Sahebgunge District Traffic Superintendent's report:—

"Taking into consideration that our rice traffic last year was unusually good, it is very satisfactory to note the general increase at almost all the rice-despatching stations on the loop."

SALT.

	Mds.
Quantity of increase	... 23,532
Percentage of do.	... 2·41

The percentage of increase in the distribution of salt from Calcutta to the different trade blocks in comparison with the figures for the corresponding period last year was—Behar 2·10, Northern Bengal 12·68, Eastern Bengal 14·24.

APPENDIX.

Statement showing the average wholesale prices of articles of trade during the quarter ending the 31st December, 1888, as well as the rates of deduction made from the gross weight to obtain net weight.

Articles.		Rates of deduction.	Rates of value per maund.
		Per cent.	Rs. A.
Coal and coke		Nil	0 6
Cotton, raw		5·0	19 8

RETURNS

OF THE

RAIL-BORNE TRADE OF BENGAL

During the quarter ending the 31st March 1888.

Calcutta:
PRINTED AT THE BENGAL SECRETARIAT PRESS.
1888.
Price—8 *Annas.*

RETURNS

OF THE

RAIL-BORNE TRADE OF BENGAL

During the quarter ending the 31st March, 1888.

RAILWAY FREIGHTS.

EAST INDIAN RAILWAY.

THE changes made by this Railway during the past quarter, as compared with the corresponding period in 1887, affected the following articles:—

(1) Cotton piece-goods, Indian.
(2) Cotton twist and yarn, do.
(3) Food-grains and oil-seeds.
(4) Hides and skins.
(5) Jute, raw.
(6) Metals.
(7) Salt.

Cotton piece-goods, Indian.—During the quarter ending 31st March, 1887, *Doongree* cloth was charged as piece-goods, viz., at the rate of 50 pies per 100 maunds per mile, but in February and March, 1888, that description of cloth was carried at the rate of ½ a pie per maund per mile.

Cotton twist and yarn, Indian.—During the 4th quarter of the year 1886-87, these goods were carried from Cawnpore to Howrah at 1st class rates, viz., ½ of a pie per maund per mile, in full wagon loads of 270 maunds, but during the past quarter these goods were conveyed at 2nd class rates, viz., ½ a pie per maund per mile, on actual weight.

Food-grains and oil-seeds.—In March, 1888, food-grains and oil-seeds were carried to Howrah from stations Raghunathpore (in the Shahabad district) to Barharwa (in the Chumparun district) in consignments of not less than 300 maunds per wagon, against 270 maunds per wagon in March, 1887.

Hides and skins.—During the quarter ending the 31st March, 1887, hides and skins in screwed bales not exceeding 6 maunds each in weight were charged at special class B rates, *i.e.*, at 25 pies per 100 maunds per mile, when carried in minimum consignments of 200 maunds per wagon, but in the quarter under report, the charge was fixed at the minimum of three annas per wagon-load per mile.

Jute, raw.—In through-booking with the East Indian Railway and the Eastern Bengal State Railway *viâ* Naihati, raw jute was carried to Howrah and Shalimar from the undermentioned stations on the latter Railway during January, 1888 at the rates given below. No comparison can be made with the charges during the corresponding period of 1887, as through-booking was not then in force:—

During February and March, jute was carried the whole distance from Mymensingh to Howrah at the rate of 7 annas 11 pies per maund, and 6 annas per maund when packed in drums and bales, respectively; and to Shalimar at 8 annas 1 pie, and 6 annas 2 pies per maund, respectively.

Metals.—During the quarter ending the 31st March, 1887, brass and copper, unwrought, and brass and copper scraps, slabs, clippings, and tiles, booked from Howrah to the undermentioned stations, were charged at the rate of half a pie per maund per mile; in February and March, 1888, the rates were as follows :—

To Howrah.	Rate per 100 maunds.	To Stations.	Rate per 100 maunds.

2. *Coal.*—The charge for coal carried by this Railway was changed from ⅓rd of a pie per maund per mile in the quarter ending 31st March, 1887, to ⅕th of a pie per maund per mile, in the quarter under review.

Sugar, undrained.—The freight on this article was reduced from ¼th of a pie per maund per mile in the quarter ending 31st March, 1887, to ⅛th of a pie per maund per mile in the past quarter.

3. No changes in the rates of freight were made by any other railways during the quarter.

EXTERNAL TRADE OF THE LOWER PROVINCES.

STATEMENTS I AND II.

4. The total trade of the quarter under report increased by 1,58,363 maunds, or 2·84 per cent. in comparison with the figures for the corresponding period last year. The imports showed a decrease of 15·61 per cent., and the exports a rise of 13·89 per cent. Considerable quantities of rice and other food-grains continued to be sent up-country for local consumption, but the winter crops have already commenced to be gathered in the North-West, and prospects have changed for the better. The Traffic Manager, East Indian Railway, in his report for January, 1888, wrote as follows:—

"The accounts of this season's crops, now being gathered, are favourable. Though the winter rain was late, it is stated not to have been too late, generally speaking, to cause a marked deterioration in outturn. There is not the same feeling in Calcutta this year as last, that exporters will have difficulties in obtaining supplies through scarcity of crops. What is most feared is that, on account of a downward tendency in prices at present, there will be a disinclination on the part of native holders to sell. Despatches of the new crop are expected to commence earlier this year than usual."

5. As regards the import trade, the most noticeable variations occurred in the following staples:—

Staples showing an increase on the returns of the quarter ending the 31st March, 1887.

HIDES OF CATTLE, DRESSED.

Quantity of increase ... 35,202 mds.
Percentage of do. ... 45·32

The increase is principally owing to large despatches from Delhi, where it is reported that several of the cotton merchants, who deal also in hides, paid more attention to the latter trade on the failure of the cotton business.

LINSEED.

Quantity of increase ... 1,57,032 mds.
Percentage of do. ... 86·33

The linseed traffic during the quarter was an exceptionally good one for the close of the season. January opened with quotations in the Calcutta market at Rs. 4-3 per maund for small and medium seed, which advanced in three weeks to Rs. 4-8 per maund. The Chamber of Commerce reports for that month showed "an excited market, and large operations," while the District Traffic Superintendent, Dinapore, by whose district the increase was principally contributed, remarked in February last as follows:—

"There was an active demand in Calcutta during the latter portion of the first week of February, and a fair business is reported to have been done at Rs. 4-6 to Rs. 4-7 for 5 per cent. refraction; but the market became dull, and gradually gave way during the latter end of the month. There were small transactions in the new crop, and several contracts were made at Rs. 4 to Rs. 4-0-6 for small grain 5 per cent. refraction for forward delivery in April and May. The old crop must by this time be nearly exhausted."

In his report for March, 1888, the Traffic Manager, East Indian Railway, explained that the linseed traffic for the two years 1886-87 and 1887-88 was practically the same, but that it was carried at different periods.

MUSTARD SEED.

Quantity of increase ... 2,33,636 mds.
Percentage of do. ... 74·84

The increase was principally in the supplies received from stations on the Bengal and North-Western and the Oudh and Rohilkhund Railways, and from stations in the Allahabad district. The District Traffic Superintendent, Allahabad, remarked in March last as follows:—

"There was a satisfactory increase in this staple from almost all the seed-despatching stations in the district. The crop is reported to have been very good, and consignments were sent to Howrah, Sinthia, Rampore Hât, Burdwan, and other stations for local consumption."

CASTOR SEED.

Quantity of increase ... 20,935 mds.
Percentage of do. ... 42·73

The largest increase occurred in the despatches to Howrah from the Firozabad district where the crop was a very good one.

Staples showing a decrease on the returns of the quarter ending 31st March, 1887.

COTTON, RAW.

Quantity of decrease ... 3,14,209 mds.
Percentage of do. ... 48·91

The trade in Bengal cotton suffered to a great extent during the quarter under report, owing to its diversion to Bombay. Although prices* both in Calcutta and Bombay for Bengal cotton were much higher this quarter than in the corresponding quarter last year, despatches still showed a falling off. It is said that any hopes which may have existed as to the making up to some extent towards the end of the season for losses experienced during the earlier months, were removed in January, towards the end of which the diversion of this trade to Bombay became noticeable. It seems to be a special feature of the current season that local mills are taking very largely of Bengal cotton for manufacturing purposes at Bombay. The following extract from a Bombay paper, has been taken from the East Indian Railway Traffic Manager's report for February, 1888 :—

"The week's business from an exporter's point of view must be summarised as very disappointing. Orders are not coming out from home at prices that can make any buying here at current rates show a profit. The local mills are taking a considerable proportion of arrivals, especially of Bengal's, which they find most suitable for their requirements this season."

In Calcutta, the cotton market in February last was "quiet" but "steady," and "limited transactions were gone through at rising prices." On the whole, the cotton season has been throughout India an unfavourable one this year.

WHEAT.

Quantity of decrease ... 3,99,188 mds.
Percentage of do. ... 80·13

The crops in the North-Western Provinces were good, and a fair quantity of the new season's wheat was available for despatch before the end of March, 1888. Prices, however, had a downward tendency, and in addition, native holders were desirous of replenishing their stocks which had become exhausted during the scarcity of the cold weather months. The decrease was entirely from the stations which suffered last year.

OTHER GRAINS.

Quantity of decrease ... 44,589 mds.
Percentage of do. ... 32·28

The decrease under this head is due to the same cause as that given in the case of wheat.

---

* Prices ruling in March 1888 compared as follows with those of the corresponding period of 1887 (page 9 of the East Indian Railway Traffic Manager's Report for March 1888) :—

	Calcutta.				Bombay.			
	Minimum.		Maximum.		Minimum.		Maximum.	
	1887.	1888.	1887.	1888.	1887.	1888.	1887.	1888.
	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.	Rs. A. P.
Per maund	12 6 0	16 2 0	16 0 0	17 12 0	.....	.....	.....	.....
Per pound	0 2 5	0 3 2	0 3 2	0 3 5	0 2 9	0 3 5	0 3 4	0 3 10
Per candy	.....	.....	.....	.....	136 0 0	169 0 0	165 0 0	187 0 0

In Calcutta the highest price for fine cotton in January 1887 was Rs. 16-4-0 per maund, against Rs. 17-8-0 in January 1888, showing a rise of 7 per cent; while in Bombay prices were as much as 10 per cent. higher in 1888 than in 1887.

6. In the export trade, the principal items in which fluctuations were most conspicuous are noticed below:—

Staples showing an increase on the returns of the quarter ending the 31st March 1887.

WHEAT.

Quantity of increase ... 18,618 mds.

RICE, HUSKED.

Quantity of increase ... 4,32,859 mds.
Percentage of do. ... 77·89

JOWAR AND BAJRA.

Quantity of increase ... 11,968 mds.

GRAM.

Quantity of increase ... 19,433 mds.

OTHER GRAINS.

Quantity of increase ... 2,81,275 mds.

The increase in these staples was due to prices continuing high up-country. In his report for February last the Traffic Manager, East Indian Railway, remarked that "it is probable that this is the last report for some time in which any considerable increase in the upward traffic in food-grains will be recorded, prices having fallen in March as the new crops came near maturity."

SILK RAW—INDIAN.

Quantity of increase ... 167 mds.
Percentage of do. ... 35·53

The principal fluctuation occurred in the exports to the North-Western Provinces and Oudh from Behar, which despatched 391 maunds, against 223 maunds in the corresponding period of the previous year. The cause of this variation is not known.

TOBACCO.

Quantity of increase ... 14,837 mds.
Percentage of do. ... 91·34

The increase is due to the appearance of the new crop in the market. The District Traffic Superintendent, Dinapore, remarks as follows:—

"It is now a long time since this district has shown an increase under this heading, and it is well known that the crop of 1886-87 was a poor one. Reports now reach me that the season 1887-88 is a good one, and the increases at the following stations seem to support this:—

		Mds.	Rs.
Mokameh Ghât	...	1,935	723
Barrh ...	...	7,517	4,133
Patna Ghât	...	3,762	1,480

"The despatches during March were from the new crop and chiefly to Mirzapore, Cawnpore, and stations on the Jubbulpore line."

Staples showing a decrease on the returns of the quarter ending the 31st March 1887.

PIECE-GOODS, EUROPEAN.

Quantity of decrease ... 23,863 mds.
Percentage of do. ... 12·89

The decrease was in long-distance traffic from Howrah to the North-Western Provinces, and may be connected with the scarcity prevailing in those provinces. The Traffic Manager, East Indian Railway, in his report for March 1888, observed that the fluctuations may have been accentuated by the low rate of exchange, which interferes greatly with import business.

STICK LAC.

Quantity of decrease ... 9,380 mds.
Percentage of do. ... 42·96

The exports to the North-Western Provinces and Oudh fell of by 63·95 per cent. from Behar and by 38·40 per cent. from Western Bengal, while Calcutta contributed 2,384 maunds, against only 708 maunds in the quarter ending 31st March 1887. No special causes have been assigned for these fluctuations in the traffic reports for the quarter under review.

SILK, RAW, FOREIGN.

Quantity of decrease ... 990 mds.
Percentage of do. ... 94·91

During the quarter, under report Calcutta despatched only 52 maunds of this article to the Punjab, against 1,040 maunds in the corresponding quarter last year. The cause of this decrease is not stated by the Traffic Manager, East Indian Railway.

COPPER, UNWROUGHT.

Quantity of decrease ... 19,305 mds.
Percentage of do. ... 90·22

BRASS, UNWROUGHT.

Quantity of decrease ... 6,737 mds.
Percentage of do. ... 80·50

BRASS AND COPPER, WROUGHT.

Quantity of decrease ... 3,925 mds.
Percentage of do. ... 67·06

During January 1887, the price of copper braziers was stationary at Rs. 26 per maund; while January 1888 opened with prices at Rs. 35-12, gradually declining to Rs. 31, which resulted in a decrease in the despatches from Howrah. Prices again advanced during February and prevented business being done. The highest price reached was Rs. 33-4 per maund as compared with Rs. 26 in February 1887. Regarding the decrease in March 1888, the Traffic Manager writes as follows :—

"In common with the copper industry generally in this country, we are feeling the result of the operations of the French Syndicate, which has forced up the price of copper from under £40 per ton to over £80, with the result that the industries in which copper is used have suffered very greatly, owing to the utterly unjustifiable advance in price." (*Economist* of 24th March 1888.) "It is to be hoped that there may be shortly the same collapse in the Copper Syndicate as in tin."

SALT.

Quantity of decrease ... 13,513 mds.
Percentage of ditto ... 9·64

The exports from Calcutta showed an increase during January and February 1888, but in March there was a heavy falling off. The Traffic Manager in his report for February 1888 observed as follows :—

"In Calcutta there was a heavy speculation in salt, prices having risen from Rs. 73 per 100 maunds *ex* ship at the commencement of the year to Rs. 175 per 100 maunds at the end of the month, or by more than Rs. 100 per 100 maunds, of which Rs. 50 represented the increased value on account of the duty imposed on salt *ex* golahs."

Circumstances, however, changed in March 1888; the cause of the decrease is thus explained in the report for that month :—

"The falling off was principally at Howrah, where the period opened with prices just double what they had been six months previously, viz., Rs. 115 per 100 maunds, against Rs. 57 per 100 maunds in September 1887, and with an increased tax to be paid in addition to Re. 0-8 per *maund*. Up-country buyers resisted the large enhancement of prices, and curtailed their purchases as much as possible, with the result that quotations declined during the month by Rs. 30 per 100 maunds."

SUGAR, DRAINED.

Quantity of decrease ... 4,812 mds.
Percentage of do. ... 20·52

SUGAR, UNDRAINED.

Quantity of decrease ... 1,47,271 mds.
Percentage of do. ... 51·60

The season's crop appears in the market with the beginning of the present quarter, but notwithstanding this fact, the figures showed a decrease. In January 1888, the Traffic Manager, East Indian Railway, found that the long-distance traffic from stations in the Dinapore district was poor, owing to receiving centres drawing their supplies from nearer home. In February he stated that "the stations on the Dinapore district and the Gya line throughout suffered through poor crops," and in his report for March next he wrote as follows :—

"We carried a largely increased traffic, but many of the increases were over short leads, such as Ghaziabad to Delhi, Delhi-Shahdara to Delhi, and Aligarh to Hatras, while our own sugar-despatching stations on the Dinapore district still suffered."

INTERNAL TRADE OF THE LOWER PROVINCES.

STATEMENT No. III.

7. The gross registered traffic showed an increase of 6,98,394 maunds, or 5·97 per cent., as compared with the figures of the quarter ending the 31st

March, 1887. The net quantity of the downward and upward traffic, and the proportion of the Calcutta traffic to the total trade, is given below:—

	Quarter ending 31st March		Calcutta.		Proportion of Calcutta traffic to the total trade.	
	1887.	1888.	1887.	1888.	1887.	1888.
	Mds.	Mds.	Mds.	Mds.	Per cent.	Per cent.
Downward traffic	92,47,800	99,84,091	85,40,011	82,43,115	92·35	82·56
Upward "	24,47,224	24,09,327	17,58,221	17,40,646	71·85	72·24
Total ...	1,16,95,042	1,23,93,418	1,02,98,232	99,83,761	88·06	80·56

8. The most noticeable fluctuations in the principal commodities carried each way are noted below:—

9. DOWNWARD TRAFFIC.

Articles showing an increase as compared with the quarter ending the 31st March 1887.

COAL.

Quantity of increase 14,65,873 mds.
Percentage of do. 32·24

There was a great demand for coal for brick-burning round Calcutta and stations on the Eastern Bengal State Railway. The East Indian Railway Traffic report for February 1888 contains the following account on this trade:—

"In downwards coal and coke, as has been the case since December last, the increase is greater than under any head of merchandize. We are still comparing the traffic with that of a period when there was no Jubilee bridge; and in addition to this reason for increase, the demands for coal for brick-burning continued."

COTTON, RAW.

Quantity of increase ... 14,653 mds.
Percentage of do. ... 223·33

The increase is due to large despatches from Naraingunge to Calcutta during the quarter. The whole of the cotton under this head represents the produce of the Chittagong Hill Tracts.

GRAM.

Quantity of increase ... 19,229 mds.
Percentage of do. ... 16·89

The importation into Calcutta from Behar and Eastern Bengal showed some improvement during the present quarter.

LINSEED.

Quantity of increase 3,03,827 mds.
Percentage of do. 76·42

A good business has been done in linseed owing to there being a demand for this article in the Calcutta market for export by sea. Of the total imports, Behar contributed 5,61,331 maunds against 3,19,616 maunds, and Eastern Bengal 1,24,709 maunds against 68,691 maunds.

GHEE.

Quantity of increase .. 5,002 mds.
Percentage of do. ... 164·43

The total exportation of ghee from the Behar block rose from 2,860 maunds to 7,903 maunds.

SUGAR, UNDRAINED.

Quantity of increase ... 45,769 mds.
Percentage of do. ... 37·34

The figures show a great development of this trade in Eastern Bengal, which exported altogether 1,48,805 maunds, against 98,175 maunds in the quarter ending the 31st March 1887. The quantity sent to Calcutta from this block exhibited an increase of 51·75 per cent. The Northern Bengal block imported 10,690 maunds from Eastern Bengal against 5,959 maunds; and Western Bengal drew 2,350 maunds, against *nil* in the corresponding quarter last year.

TEA, INDIAN.

Quantity of increase ... 5,867 mds.
Percentage of do. ... 80·49

Large supplies of this staple were sent to Calcutta from Cachar *viâ* the Eastern Bengal block; the total quantity amounted to 8,305 maunds against 1,179 maunds.

TOBACCO.

Quantity of increase ... 27,189 mds.
Percentage of do. ... 49·60

The consignments from the Northern Bengal rose from 38,667 maunds to 65,709 maunds in the present quarter, the chief item of increase being an export of 19,990 maunds to Western Bengal against *nil* in the corresponding period of the previous year.

Articles showing a decrease as compared with the quarter ending the 31st March, 1887.

INDIGO.

Quantity of decrease ... 11,686 mds.
Percentage of do. ... 66·34

The quantity sent to Calcutta from Behar amounted to only 3,715 maunds, against 13,245 maunds in the corresponding quarter of the previous year.

WHEAT.

Quantity of decrease ... 62,173 mds.
Percentage of do. ... 23·80

The condition of this trade has already been explained in previous reports, and the decrease was expected.

RICE.

Quantity of decrease ... 3,92,005 mds.
Percentage of do. ... 31·42

The decrease occurred chiefly in the imports into Calcutta from the Western Bengal block, which supplied 4,39,025 maunds, against 10,24,942 maunds in the quarter ending 31st March 1887. On this subject, the District Traffic Superintendent, Sahebgunge, wrote in March 1888 as follows:—

"The decrease in the despatches to Howrah was due to there having been no demand for direct shipment to Europe. The rice used for local consumption in Calcutta and its suburbs is that grown in the Backergunge and other eastern districts of Bengal brought to Calcutta by boats, steamers, and Eastern Bengal, &c., State Railways, and very little of the rice produced in the districts served by the Loop is used for local consumption by the labouring classes working in the mills; but the despatches from the Loop, I understand, were further limited owing to rice being procurable at a more favourable rate from the Midnapur district."

OTHER GRAINS.

Quantity of decrease ... 3,178 mds.
Percentage of do. ... ·70

The greatest fluctuation occurred in the despatches from Northern Bengal, which supplied Eastern Bengal with 3,562 maunds against 50,135 maunds. The supply from Eastern Bengal to Calcutta amounted to 2,37,466 maunds, against 1,54,978 in the corresponding quarter of the previous year.

HIDES OF CATTLE, DRESSED.

Quantity of decrease ... 33,956 mds.
Percentage of do. ... 26·74

HIDES OF CATTLE, UNDRESSED.

Quantity of decrease ... 13,640 mds.
Percentage of do. .. 22·33

In both cases the decrease was due to short supplies sent into Calcutta. In dressed hides Behar contributed only 73,765 maunds, against 1,14,344 maunds, and in undressed hides the Dacca block supplied 33,971 maunds, against 40,870 maunds in the quarter ending the 31st March 1887.

During January and February last, there was a demand in Calcutta for hides, but the supply was not equal to it. In March, large supplies were received and a good business was done.

JUTE, RAW.

Quantity of decrease ... 5,17,929 mds.
Percentage of do. ... 40·14

The falling off is due to absence of demand in Calcutta for shipment. The decrease occurred in the supplies sent to Calcutta from the Eastern and Northern Bengal and Dacca blocks. Compared with the quarter ending the 31st March 1887, the decline amounted to 44·34 per cent., 44·08 per cent., and 48·82 per cent. in those blocks respectively. The importation into Calcutta fell off from 12,26,248 maunds to 6,68,451 maunds.

LAC, STICK.

Quantity of decrease ... 6,394 mds.
Percentage of do. ... 75·67

LAC, SHELL.

Quantity of decrease ... 3,139 mds.
Percentage of do. ... 13·14

Owing to a dull market the consignments to Calcutta from Behar and Western Bengal blocks declined.

MUSTARD SEED.

Quantity of decrease ... 1,13,955 mds.
Percentage of do. ... 40·28

Owing to poor crops, the exports from Behar fell off from 2,74,312 maunds to 1,54,622 maunds during the quarter under review.

CASTOR SEED.

Quantity of decrease ... 14,376 mds.
Percentage of do. ... 56·22

POPPY SEED.

Quantity of decrease ... 5,998 mds.
Percentage of do. ... 35·22

The falling off in both cases occurred in the despatches to Calcutta from the Behar block. In consequence of the high prices which ruled in Calcutta during the quarter for castor seed, coupled with dull markets at home for the oil, the demand in Calcutta for crushing purposes was very limited. In poppy seed also, business was restricted.

10. UPWARD TRAFFIC.

Articles showing an increase as compared with the quarter ending the 31*st March* 1887.

COTTON PIECE-GOODS, EUROPEAN.

Quantity of increase ... 62,405 mds.
Percentage of do. ... 20·82

The total exports from Calcutta showed a rise of 20·81 per cent. The exports to Eastern Bengal were more than double those of the corresponding period last year; in the case of Northern Bengal, the increase amounted to 38·91 per cent., and in that of the Dacca block to 26·71 per cent. The supplies sent to Behar fell off by 5·25 per cent.

Articles showing a decrease as compared with the quarter ending the 31*st March* 1887.

COPPER, UNWROUGHT.

Quantity of decrease ... 5,629 mds.
Percentage of do. ... 87·12

BRASS, UNWROUGHT.

Quantity of decrease ... 1,931 mds.
Percentage of do. ... 42·22

The despatches from Calcutta fell off considerably. The quantity of unwrought copper declined from 6,461 maunds to 815 maunds, and that of brass unwrought, from 4,497 maunds to 2,621 maunds. The causes of these fluctuations have been noticed, above in the section relating to the external trade.

SALT.

Quantity of decrease ... 36,673 mds.
Percentage of do. ... 3·56

The decrease was chiefly in the exports from Calcutta. The despatches to Behar improved by 1·77 per cent., but those to Western Bengal fell off by 20·45 per cent., and to Northern Bengal by 10·06 per cent. The consignments to the Eastern Bengal and Dacca blocks increased by 1,686 maunds and 4,959 maunds, respectively. The Traffic Manager's report for March 1888 contains the following remarks on the salt trade :—

"The falling off was principally at Howrah, where the period opened with prices just double what they had been six months previously, viz., Rs. 110 per 100 maunds, against Rs. 57 per 100 maunds in September 1887, and with an increased tax to be paid in addition of Re. 0-8-0. Up-country buyers resisted the large enhancement of prices and curtailed their purchases as much as possible, with the result that quotations declined during the month by Rs. 30 per 100 maunds."

APPENDIX.

Statement showing for the chief staples the average wholesale prices which prevailed in Bengal during the quarters ending the 31st March, 1887, and 31st March, 1888, as well as the rates of deduction made from the gross weight to obtain the net weight.

RETURNS

OF THE

RAIL-BORNE TRADE OF BENGAL

For the quarter ending the 30th September, 1888.

RAILWAY FREIGHTS.

East Indian Railway.—The changes made in the rates of freight on goods carried by this railway during the quarter ending the 30th September, 1888, as compared with the rates charged during the corresponding period of 1887-88, affected the following articles only:—

1. Cotton piece-goods, European.
2. Ditto ditto, Indian.
3. Cotton twist and yarn, European.
4. Ditto ditto, Indian.
5. Food-grains and oil-seeds.
6. Hides.
7. Jute.
8. Metals.
9. Oils.
10. Paper and pasteboard.
11. Salt.
12. Stone and lime.
13. Sugar.
14. Tea.
15. Tobacco.

Cotton piece-goods and twist and yarn, European and Indian.—During September last these goods were conveyed from Howrah to Ghaziabad and *viâ* Ghaziabad for Saharunpore and stations beyond at the rate of Rs. 236-14-8 per 100 maunds, against Rs. 244 in September, 1887.

Food-grains and oil-seeds.—During August and September, 1888, grains and seeds, fulfilling special class conditions,* booked from stations on the Bengal and North-Western Railway, *viâ* Digha Ghât to stations below Digha Ghât on the East Indian Railway, where the rates were not already lower, were charged on the through mileage when the distance exceeded 150 miles at the undermentioned rates:—

For the first 150 miles, ¼ pie per maund per mile.

For extra distances over 150 miles, ⅛ of a pie per maund per mile.

These rates were exclusive of the ferry charge of Rs. 3 per 100 maunds leviable between Paleza Ghât and Digha Ghât.

For distances less than 150 miles the ordinary tariff rates were charged.

---

* (*a*) No bag to exceed 2 maunds 22 seers in gross weight.

(*b*) Bags to be shipment sewn.

(*c*) Full wagon loads of special class goods must have 6 bags (three at each door) plainly marked in English in black letters, with the name of "station from" and "station to," and at least the initials of consignee's name or some distinctive mark or combination. This does not apply to small and miscellaneous consignments and goods booked to Foreign Railways requiring transhipment at the junctions which must be fully marked.

During August and September, 1887, the following special class A rates were charged:—

For the first 100 miles	33½ pies per 100 maunds per mile.		
„ extra distances exceeding 100 and up to 450 miles ...	17	ditto	ditto.
„ ditto beyond 450 miles	12	ditto	ditto.

From the 15th July to the 30th September, 1888, grains and seeds in consignments of not less than 300 maunds were carried from Howrah, Chitpore, and Sealdah to the following stations at the rates given below:—

Stations.	Rate per 100 maunds. In 1887.		In 1888.		Stations.	Rate per 100 maunds. In 1887.		In 1888.

Ghaziabad and *viâ* Ghaziabad for traffic from Saharunpore and stations above	123	117	6	8

Jute.—During July, August and September, 1888, raw jute pressed to 300lbs. per bale was carried to Howrah *viâ* Ghaziabad from Saharunpore and stations above at the rate of Rs. 78-4 per 100 maunds, against Rs. 79 in the corresponding months last year. During August and September, 1888, this staple from and *viâ* Naihati to Howrah was charged at Rs. 31 per wagon, any balance over after loading the wagon being carried at first class rates, viz., ⅓ of a pie per maund per mile. In 1887 special class A rates were charged with a minimum of 200 maunds per wagon.

From the 16th July jute in drums, booked from the undermentioned stations on the Eastern Bengal State Railway to Howrah and Shalimar, was charged at the following rates:—

Ghaziabad *viâ* Ghaziabad for Saharunpore and stations above.	151		135	4	146		130	4	148		133	4

Salt.—The following statement shows the rates at which this article was carried from and *viâ* Agra to Chausa and Buxar in the Shahabad district during the quarter under report :—

To Stations.	Rate per 100 maunds. During July 1887.		During July 1888.		During August and September 1887.		During August and September 1888.	
	Rs.	A.	Rs.	A.	Rs.	A.	Rs.	A.
Chausa	31	6	41	3	31	6	41	2
Buxar	32	6	42	3	32	6	42	2

From and *viâ* Mogulserai this staple was carried at second class rates, viz., ½ a pie per maund per mile against the special class A rates in the corresponding quarter of 1887-88.

During September 1888, despatches of 100 maunds of salt from and *viâ* Ghaziabad to Patna and Gya were charged at Rs. 45 and Rs. 49, respectively, against Rs. 44-11 and Rs. 49-11, respectively, in September 1887.

Stone and lime.—During September, 1888, stone and lime were carried from Mirzapore to certain stations in the Mozufferpore, Durbhunga, and Patna districts at the rates specified below:—

To Stations.	Rate in September 1887.	Rate per wagon of 325 maunds in September 1888.
		Rs.
Mozufferpore district—		
Manihari Ghât ...	14 pies per 100 maunds per mile ...	82

2. No changes in the rates of freight were made by any other Railways in Bengal.

EXTERNAL TRADE OF THE LOWER PROVINCES.

STATEMENT II.

3. During the quarter under review, the imports into Bengal from the other provinces in India showed an increase of 35·73 per cent., while the exports fell off by 4·20 per cent.

4. As regards the import trade, the most noticeable variations occurred in the staples named below :—

Staples showing an increase on the returns of the quarter ending the 30th September, 1887.

WHEAT.

	Mds.
Quantity of increase	5,00,861
Percentage of do. ...	543·87

The "Final General Memorandum on the Wheat Crop of the season 1887-88," published by the Government of India, showed an increase in outturn of 13,850 tons in the North-Western Provinces and Oudh, and a decrease of 51,613 tons in Bengal. In July last it was reported that the greater portion of the North-Western Provinces' crop had been retained to replenish exhausted stocks. In that month, the Traffic Manager, East Indian Railway, wrote as follows :—

"At the present time, exporters are endeavouring to secure wheat for immediate delivery, and some of the large firms are making strenuous exertions in this direction, but whatever contracts they may be able to make, the impassability of the roads after the recent extraordinary heavy rains must retard deliveries. Sea freights have risen also, and shippers must pay at the high figure for regular liners of £1-15 per ton from Calcutta, with the prospect, as reported by the Chamber of Commerce, of a still further advance in rates ere long. As regards sea freight, Calcutta is always at a great disadvantage as compared with Bombay, but at the present time we have the encouragement that a regular line of steamers has been arranged for between Calcutta and the Continent. By far the largest proportion of Indian wheat is shipped to the Continent."

In August last there were strong indications of improved prices in Europe for any wheat surplus which India might have to distribute. The Calcutta Price Current of the 25th August remarked as follows :—

"There has been a smart advance in values all round, owing to partial failure of Continental crops, and consequent strong demand for shipment. Supplies are of the smallest description, and heavy rains every where preclude the idea of improvement in this respect at present. An exceedingly large business in new crop has been done, about 15,000 tons, No. 2 club qualities at Rs. 2-13-6 to Rs. 2-14-6, April—May delivery."

The traffic in wheat during September 1888 was far above that of the corresponding period of 1887, but it was much below that of 1886, as well as of 1885. The prices* of wheat in Calcutta in 1887 and 1888 showed that there was much more inducement to do business this year than last year, although shippers complained that the market was entirely under the influence of local demand, and that prices were above home equivalents.

The Traffic Manager in his report for September 1888 also states that "the stocks which had been kept back to replenish the exhaustion during the scarcity of last cold weather in the Upper Provinces appear to have been opened out in answer to the rise in prices, which was even more marked in Bombay than in Calcutta."

LINSEED.

	Mds.
Quantity of increase ...	1,36,945
Percentage of do. ...	41·37

There was a good demand for linseed in the Calcutta market, and a larger business would have been transacted but for a scarcity in tonnage and the exceedingly high rates of sea freight, which rose to £2-2-6 per ton *viâ* Canal at the close of the period under review. The Traffic Manager, East Indian Railway, made the following remarks in his report for September, 1888 :—

"Our stations above Mirzapore despatched during the month almost solely to Bombay, owing to the strong demand there, although railway freight was much in favour of Calcutta. Meja Road, an important linseed despatching station, 541 miles from Calcutta and 860 miles from Bombay, despatched during the month 25 tons only of linseed to Howrah and Calcutta, and 473 tons to Bombay. The railway charges during the month were as follows per 100 maunds :—

		E. I. Railway.		G. I. P. Railway.		Total.	
		Rs.	A.	Rs.	A.	Rs.	A.
From Meja Road	To Howrah ...	46	0	...		46	0
	„ Bombay ...	30	0	59	6	89	6

MUSTARD SEED.

	Mds.
Quantity of increase ...	74,957
Percentage of do. ...	52·67

The increase occurred in the despatches from the North-Western Provinces to the Behar, Western Bengal, and Calcutta blocks. The following explanation regarding the increase is given by the District Traffic Superintendent, Allahabad, in his report for August last :—

"The despatches from Allahabad were made last year to Bombay. This year consignments were sent to Howrah, Rampore Hât, and Burdwan. The increase is attributable to good crop and favourable rates ruling in the market. The demand was good throughout the month ; this appears to be due to a partial failure of the crops in Bengal."

In September last, the District Traffic Superintendent, Dinapore, remarked as follows :—

"The demand for local consumption appears to have been exceptional in Calcutta, and the prices unusually steady, enabling dealers to transact their business to advantage. During September 1887 there was no demand, and very little business was done in this staple, the quotations in Calcutta being Rs. 4-6 against Rs. 4-12 to Rs. 5-4 during September 1888. I am given to understand that the supplies are unequal to the demand."

CASTOR SEED.

	Mds.
Quantity of increase ...	16 726
Percentage of ditto ...	92·16

Business was stimulated in consequence of a considerable advance in price, owing to serious apprehensions of a failure of the growing crop on the Coromandel Coast.

OTHER OILSEEDS.

	Mds.
Quantity of increase ...	62,030
Percentage of ditto ...	505·62

This trade has done well during the quarter under review, the total quantity sent to Calcutta amounting to 74,104 maunds, or 61,906 maunds in excess of the figures for the quarter ending the 30th September, 1887.

COTTON, RAW.

	Mds.
Quantity of decrease ...	37 788
Percentage of ditto ...	52·60

This decrease was expected, as the new crop will not appear in the market until the beginning of the next quarter. In July, 1888, the Traffic Manager, East Indian Railway, made the following important remarks regarding the future prospects of this trade:—

"As anticipated in my report for May, we are continuing to lose in this staple, and we must expect a continuance of our loss so long as there remains any of the old season's crop. With reference to our prospects in the future, there have recently been published in a Calcutta paper some interesting statistics of the growth of the cotton manufacturing industry in India during the last ten years. It is not stated whence the statistics are derived, but they may no doubt be accepted. During the last ten years the capital invested in Indian cotton mills has, according to this authority, increased from Rs. 7,20,00,000 to Rs. 9,50,00,000, and the weight of cotton used in a year from tons 80,000 to tons 123,000. These figures are given because they have a distinct bearing on the export trade in raw cotton from Calcutta. In that city the number of large cotton mills is limited to two, and the vast majority of Bengal cotton, therefore, diverted from export for the purpose of local manufacture finds its way to Bombay. We have seen in previous months that Bengal cotton finds favour for local manufacture at Bombay, and that the quantity of this cotton carried to Bombay during the season 1887-88 may be estimated at 60,000 to 70,000 bales, say 12,500 tons. During the same period the quantity of cotton carried to Calcutta both for the local mills and for export was only 114,000 bales, or say 21,000 tons.

"Calcutta has now to compete with Bombay as a port and as a manufacturing town, and in the latter competition Bombay has even greater advantage than in the former."

GRAM, PULSES AND OTHER FOOD-GRAINS.

	Mds.
Quantity of decrease ..	81,647
Percentage of ditto ...	43·33

Owing to the change in the classification of these staples, no comparison can be instituted for the heads "Gram and pulses" and "Others" separately. The decrease in the aggregate quantity carried occurred chiefly in the supplies carried from the North-Western Provinces and Oudh. In his report for September, 1888, the Traffic Manager writes as follows:—

"It will be remembered that last year there was a heavy upwards movement in gram and pulses and other grains in response to demands in the North-West Provinces and Rajputana, consequent on failure of crops. This year there have not been the same requirements, while in some cases the stations which last year supplied from their abundance are now themselves in difficulties. As mentioned under the head of rice, stations in the Dinapore district in September last imported that staple in considerable quantities. Last year nearly all stations in the district were able to send forward good supplies to Rajputana. The districts showing the principal fallings off were the Dinapore, Allahabad, and Tundla districts. I extract from the reports received from the officers in charge."

Extract from the Dinapore District Traffic Superintendent's report:—

"*Pulses.*—During September 1887 we despatched largely to the North-West Provinces to meet the demand consequent on unseasonable weather, which caused prices to rise and dealers to sell with advantage; now that it is known the paddy crop, owing to the floods, is far below the usual standard, I fear the decrease in pulses of all kinds is likely to continue, as merchants will keep their stocks to meet the demand for local consumption.

"*Other grains.*—This staple has been and will be affected in precisely the same manner as pulses of all kinds. The Station Master, Arrah, writes that the demand for peas still continues, but on account of the failure of the rice crop, cultivators will not bring their produce to the market in anticipation of obtaining a better market when the threatened scarcity begins to be felt."

Extract from the Allahabad District Traffic Superintendent's report:—

"*Other grains.*—Owing to the failure in crops last year, the demand at Agra, Bhurtpur, Etawah, Cawnpore and Fatehpur was very brisk from Fort Bharwari and Sirathu. This year there has been no demand, and the supplies are scanty.

"*Pulses.*—The despatches last year were to Howrah for shipment, and to Agra and Etawah for local consumption owing to a scarcity in the productions. This year there was no demand."

Extract from the Tundla Traffic Superintendent's report:—

"*Othe grain.*—There was less demand this year for food-grains, except in the upper division, Oudh and Rohilkhund Railway, and at Cawnpore, and a few stations above, where there was a failure of the crops owing to heavy rain."

POPPY SEED.	Mds.	
Quantity of decrease ...	53,933	The decreases occurred in the supplies carried to Behar and Calcutta from the North-Western Provinces. This is attributable to scarcity of supplies and to the high market rates which prevailed for this article.
Percentage of ditto ...	44·38	

5. In the export trade, the principal items in which fluctuations were most conpicuous are as follows:—

Staples showing an increase on the returns of the quarter ending the 30th September, 1887.

COAL AND COKE.	Mds.	
Quantity of increase ...	2,88,882	The increase occurred in the supplies drawn by foreign railways, more coal being required to meet the increased number of train miles; the demand from ordinary consumers is said to have fallen off.
Percentage of ditto ...	24·05	

GUNNIES.	Mds.	
Quantity of increase ...	42,134	The Goods Superintendent at Howrah accounts for the large increase as follows:— "We had a good demand for gunnies during this period from Delhi and stations above, attributable to a brisk business being done in wheat for Bombay *viâ* the Bombay-Baroda and Central India Railway."
Percentage of ditto ...	100·25	

IRON.	Mds.	
Quantity of increase ...	22,105	The increase is chiefly in consignments of mabhinery from Howrah for the Cawnpore mills, and is a continuation of the traffic reported in the previous quarter.
Percentage of ditto ...	21·29	

Staples showing a decrease on the returns of the quarter ending the 30th September, 1887.

PIECE-GOODS, EUROPEAN.	Mds.	
Quantity of decrease ...	14,416	The principal decreases occurred in the consignments from Calcutta to the North-Western Provinces (4·67 per cent.) and the Punjab (13·30 per cent.). In his report for September, 1888, the Traffic Manager, East Indian Railway, observed that the "fluctuation may principally be ascribed to the circumstance that the month with which comparison is made, covered in 1887 the period of the Doorga Pooja holidays which fell later in 1888. Despatches from Howrah were also no doubt restricted by the difficulty owing to floods during the early portion of the month in obtaining access to the interior from our stations."
Percentage of ditto ...	11·13	

GRAM, PULSES AND OTHER FOOD-GRAINS.	Mds.	
Quantity of decrease ...	95,349	The falling off was in the despatches from Behar to the North-Western Provinces, where this year there was no scarcity of food-grains.
Percentage of ditto ...	82·28	

COPPER, UNWROUGHT.	Mds.	
Quantity of decrease ...	18,494	High prices having ruled throughout the quarter under review, business was restricted.
Percentage of ditto ...	98·09	

SUGAR, UNREFINED	Mds.	
Quantity of decrease ...	15,993	The chief falling off was in the exports from Behar, where there was a failure of the sugarcane crop.
Percentage of ditto ...	45·04	

INTERNAL TRADE OF THE LOWER PROVINCES.

STATEMENT No. III.

6. The total quantity of the internal trade of Bengal during the quarter ending the 30th September, 1888, showed an increase of 6,87,766 maunds, or 4·26 per cent., in comparison with the corresponding period of 1887. The subjoined statement shows the net quantity of the up and down traffic and the proportion of the Calcutta traffic to the total trade:—

	Quarter ending the 30th September		Calcutta traffic.		Proportion of Calcutta traffic to the total trade.	
	1887.	1888.	1887.	1888.	1887.	1888.
	Mds.	Mds.	Mds.	Mds.	Per cent.	Per cent.
Downward traffic	1,34,33,844	1,34,91,649	1,17,66,852	1,17,80,589	87·59	87·31
Upward „	26,88,857	33,18,818	22,28,635	24,86,105	82·88	74·99
Total ...	1,61,22,701	1,68,10,467	1,39,95,487	1,42,66,694	86·80	84·87

7. The most noticeable fluctuations in the principal commodities carried each way are explained below:—

DOWNWARD TRAFFIC.

Articles showing an increase as compared with the quarter ending the 30th September, 1887.

COAL AND COKE.

	Mds.
Quantity of increase ...	15,11,784
Percentage of ditto ...	36·99

The deliveries of Bengal coal in Calcutta rose by 39·53 per cent. This large increase is very fully explained by the District Traffic Superintendent, Howrah, as follows:—

"The increases from Asansol, Sitarampur, Barakar, and Karmatar are due to the new outlet the coal companies have obtained for the use of Bengal coal at Madras, and even Bombay, in competition with British coal; I also learn that the Burmah State Railways intend taking Bengal coal into use as locomotive fuel, and the New Beerbhoom Coal Company have already secured a contract for the supply of 2,500 tons, which will be despatched by steamers from Calcutta to Rangoon. On looking over the Calcutta Price Current, No. 810, dated 25th ultimo, published by the Bengal Chamber of Commerce, I find that the import of British coal for eight months ending 31st August has been steadily decreasing from 1885 to 1887, and that there has been a sudden fall from 10,80,108 maunds in 1887 to 4,71,381 maunds in 1888. This must have had some effect on the good traffic we are doing. Had it not been for the heavy rains making the roads very difficult for carts at Barakar, where the coal has to be carted to the station, the traffic from that station would have been much better. In fact, the Bengal Coal Company for this reason was not able to supply the Eastern Bengal State Railway demands in full."

PADDY.

	Mds.
Quantity of increase ...	2,25,157
Percentage of ditto ...	1280·97

The importation of this staple into Calcutta rose from 9,598 maunds to 2,21,976 maunds. The Northern Bengal block contributed 64·90 per cent. of the imports against *nil* in 1887. Eastern Bengal also supplied a large quantity, and so did the Western Bengal block. No special cause has been assigned for these increases.

TEA, INDIAN.

	Mds.
Quantity of increase ...	31,050
Percentage of ditto ...	30·80

An increase of 7,957 maunds is shown in the consignments to Calcutta from Northern Bengal, and of 7,853 maunds in those from the Eastern Bengal block.

Articles showing a decrease as compared with the quarter ending the 30th September, 1887.

WHEAT.

	Mds.
Quantity of decrease ...	1,57,417
Percentage of ditto ...	18·48

The despatches of wheat from Behar to Calcutta showed a falling off of 19·09 per cent., which was not so heavy as that shown in the previous quarter's returns, viz., 51·09 per cent. The fluctuations were of course due to poor crops during the season.

RICE.

	Mds.
Quantity of decrease ...	5,07,283
Percentage of ditto ...	85·08

The Calcutta imports from the Western Bengal block amounted to merely 78,672 maunds, against 4,05,940 maunds in 1887, but there was a considerable upward movement of rice from the latter block to Behar to meet demands caused by a partial failure of the Indian-corn crop. The Traffic Manager, East Indian Railway, observed as follows in the September number of his report:—

"Owing to the early cessation of the rains, the rice crops in almost all the districts served by the lower portion of this railway will produce a much smaller outturn than anticipated a month ago. There is indeed prospect of actual scarcity in some of the districts which ordinarily have a surplus for export. With the improved connection with the Eastern Bengal rice-producing districts, provided by the Jubilee Bridge and the Bengal Central Railway since the last scarcity in Western Bengal, there should be little difficulty in meeting any demands which may arise."

With the timely fall of rain, the apprehensions connected with the movements of food-grains in the interior ceased.

GRAM, PULSES, AND OTHER FOOD-GRAINS.

	Mds.
Quantity of decrease ...	94,911
Percentage of ditto ...	19·27

During the quarter under review, Calcutta drew 60,226 maunds and 19,856 maunds less from Behar and Eastern Bengal respectively, while the imports into Western Bengal from Behar showed a falling off of 10,418 maunds. The District Traffic Superintendent, Dinapore, wrote as follows in his report for July last:—

"The falling off at Arrah was caused by the scanty crop of peas and high prices ruling for them at that station.

"The crop coming under the head of 'Other-grains' generally over the district is now admitted to have been far below the usual standard, and this is borne out by the decrease in the despatches, and the large quantities of rice, &c., being sent to this district by stations on the loop line and Lower Bengal.

"At Arrah the selling prices of peas during 1887 and 1888 are compared as under—

1887.	1888.
Rs. A. P.	Rs. A. P.
1 8 0	2 0 0

while in Calcutta they are given as—

1887.	1888.
Rs. A. P.	Rs. A. P.
2 0 0	2 8 0."

JUTE, RAW.

	Mds.
Quantity of decrease ...	3,39,578
Percentage of ditto ...	9·06

The falling off occurred in the despatches to Eastern Bengal from the Northern Bengal and Dacca blocks, but the Calcutta trade showed an advance of 3·21 per cent. in the imports from Eastern Bengal, of 30·53 per cent. in those from Northern Bengal, and of 14·38 per cent. in those from the Dacca block.

LINSEED.

	Mds.
Quantity of decrease ...	63,006
Percentage of ditto ...	4·90

MUSTARD SEED.

	Mds.
Quantity of decrease	71,965
Percentage of ditto ...	59·36

As explained in the previous quarter's returns, the decrease is attributable to poor crops. The following remarks made by the Traffic Manager, East Indian Railway, in his report for July last, are worthy of note:—

"The principal feature in connection with this traffic is that our feeding railways, the Oudh and Rohilkhand and the Bengal and North-Western Railways, showed considerable increases, while the despatches from our own stations fell off. In connection with the Bengal and North-Western Railway, the District Traffic Superintendent, Dinapore, remarks that a portion of the increase is no doubt at the expense of Patna. Hitherto a very large proportion of the despatches by rail from Patna have reached that mart in country boats, but with the opening of the railways on the north bank of the river, decentralization has ensued."

TOBACCO.

	Mds
Quantity of decrease ...	22,515
Percentage of ditto ...	14·89

The importation into Calcutta from the Northern Bengal block showed a falling off of 19,115 maunds in comparison with the trade of the corresponding quarter last year.

UPWARD TRAFFIC.

Articles showing an increase as compared with the quarter ending the 30th September, 1887.

RICE.

	Mds.
Quantity of increase ...	3,09,549
Percentage of ditto ...	116·88

For causes mentioned above, the exports of rice to Behar from the Western Bengal block amounted to 4,28,745 maunds, showing an increase of 1,67,962 maunds in comparison with the figures for the corresponding period of 1887.

IRON.

	Mds.
Quantity of increase ...	3,23,851
Percentage of ditto ...	400·64

The exports from Calcutta to the Behar and Western Bengal blocks aggregated 3,54,788 maunds against 39,179 maunds in 1887. This increase is a continuation of the considerable business shown under this head in the previous quarter's returns, and is probably due to large despatches of foreign railway materials carried for the Bengal-Nagpur Railway during these two quarters. The Government of India have recently directed that railway plant and rolling-stock should not be included under the head "Iron," and enquiries are therefore being made as to the actual quantity of the traffic in iron.

Article showing a decrease as compared with the quarter ending the 30th September, 1887.

SALT.

	Mds.
Quantity of decrease ...	1,40,566
Percentage of ditto ...	13·91

The largest decrease occurred in the consignments to Behar and Western Bengal from Calcutta. On this subject, the Traffic Manager, East Indian Railway, writes as follows:—

"The decrease is almost entirely in imported salt, and is somewhat difficult to account for, the market rate having been lower than since the increased duty was introduced last January. The Goods Superintendent remarks as follows:—

'I have been making frequent enquiries regarding the falling off in salt traffic. The merchants say that the demand is very limited, and that stocks at all the large centres have been sufficient to meet requirements. The heavy rain also made it almost impossible for salt to find its way to markets a long distance off the line of rail. We may expect a little improvement after the Poojah holidays.'"

APPENDIX.

Statement showing the average wholesale prices of the articles of trade during the quarter ending the 30th September 1888, as well as the rates of deduction made from the gross weight to obtain net weight.

RETURNS

OF THE

RAIL-BORNE TRADE OF BENGAL

For the quarter ending the 31st December, 1888.

Calcutta:

PRINTED AT THE BENGAL SECRETARIAT PRESS

1889.

RETURNS

OF THE

RAIL-BORNE TRADE OF BENGAL

For the quarter ending the 31st December, 1888.

RAILWAY FREIGHTS.

East Indian Railway.—So far as these returns are concerned, the changes made in the rates of freight on goods carried by this Railway during the quarter ending the 31st December, 1888, related to the articles named below :—

1. Cotton, raw.
2. Turmeric.
3. Grains and oilseeds.
4. Tobacco.
5. Spices.
6. Dried fruits.
7. Hides and skins.
8. Jute.
9. Liquors.
10. Metals.
11. Stone and lime.

The subjoined statement shows the rates of freight charged during October, 1887, and October, 1888, on consignments of raw cotton, turmeric, food-grains, and oilseeds, tobacco, spices, and dried fruits, carried from and to Cawnpore and *viâ* Cawnpore, and from and to Aligarh and *viâ* Aligarh, to and from the Tirhoot State Railway stations of Ujiarpore and stations above, and Somastipore and stations below :—

These rates are not subject to the differential rule, which lays down that "when goods of the same description are charged at different rates according to distance or weight to be carried, the charge for the lesser distance or weight should never exceed the charge for the greater distance or weight, the lesser being included in the greater, except when otherwise provided."

During October, 1888, cotton pressed to not less than 43 lbs. per cubic foot and not exceeding $9\frac{1}{3}$ cubic feet per bale of 400 lbs. was carried between Howrah and Katni and *viâ* Katni at the rate of Rs. 5-4 per bale, against Rs. 5-8 per bale in October, 1887. From Moghal Serai to Howrah, in the case of traffic from Shaharunpore and stations above on the Oudh and Rohilkhund Railway, the charge was Rs. 4-3-4 per bale in November, 1888, and Rs. 4-4-4 in December, 1888, against Rs. 3-14 per bale in the two corresponding months in 1887.

From the 1st November, 1888, the special monsoon rates for grains and oilseeds were withdrawn, and ordinary rates were reverted to. During December, oilseeds were carried to and from Cawnpore, Aligarh, Moghal Serai and certain stations on the Tirhoot State Railway at the rates given in the following statement:—

Unmanufactured tobacco booked from and *viâ* Digha Ghât and from and *viâ* Mokameh Ghât to Allahabad and stations above was chagred during October, 1888, at 1st class rates, viz., $\frac{1}{3}$ of a pie per maund per mile, against the special class B rate, viz., $\frac{1}{4}$ of a pie per maund per mile, in October 1887. During November, the following special rates were charged on consignments between Moghal Serai, Aligarh, and certain stations on the Tirhoot State Railway:—

	Between Moghal Serai and *via* Moghal Serai and								Between Aligarh and *viâ* Aligarh and							
	Digha Ghât and *viâ* Digha Ghât.				Mokameh Ghât and *viâ* Mokameh Ghât.				Digha Ghât and *viâ* Digha Ghât				Mokameh Ghât and *viâ* Mokameh Ghât.

1888	84	0	87	0	100	0	100	0	132	0	135	0	148	0	149	0

The special rates given above were cancelled in December, and the rates in force in October were re-introduced.

Hides and skins (raw).—From October, 1888, mixed consignments of dry and wet hides were charged as wet hides.

Jute, raw.—The charge on raw jute, hemp, flax, and tow, carried by the East Indian Railway during the quarter under report, was 3 annas per wagon per mile, irrespective of load, against the special class A* rate and a minimum load

* For the first 100 miles ... ... $33\frac{1}{3}$ pies per 100 mds.
" extra distances exceeding 100 and up to 450 miles ... ... 17 ditto ditto.
" ditto ditto beyond 450 miles ... ... 12 ditto ditto.

of 200 maunds per wagon in the corresponding quarter in 1887. In November, 1888, in through booking with the East Indian Railway, raw jute was carried to Howrah from the Eastern Bengal State Railway stations named in the margin, at 10 pies per maund, against 1 anna per maund in October, 1887, and to Shalimar at 1 anna per maund, against 1 anna 2 pies per maund in 1887. In December, 1888, the previous month's rates were reduced by 2 pies per maund.

Dacca.	Gafergaon.
Naraingunge.	Kawraijid.
Mymensingh.	Sripur.
Kalibazar.	Jogdebpur.
Balipara.	Tongi.

Liquors.—During October, 1888, the freight on spirits and wines in casks (not bottled) despatched from Howrah to and *viâ* Katni, in the Jubbulpore district, was reduced from Rs. 254 in October, 1887, to Rs. 190-5 per 100 maunds. These liquors in casks, &c. (bottled), were carried at Rs. 308, against Rs. 318 per 100 maunds in October, 1887.

Metals.—Copper and brass, unwrought, were carried during October, 1888, from Howrah to and *viâ* Katni at Rs. 114-8, against Rs. 191 per 100 maunds in the corresponding month in 1887.

Stone and Lime.—During December, 1888, the freight on ballast carried from Pakur to Howrah and to and *viâ* Naihati at the risk of the owners was 3 annas per wagon per mile, against 16·66 pies per 100 maunds per mile in December, 1887.

2. No changes in the rates of freight were made by any other Railway in Bengal.

EXTERNAL TRADE OF THE LOWER PROVINCES.

STATEMENT II.

3. During the quarter under report, the imports into Bengal from the other provinces in India showed an increase of 14·26 per cent. while the exports fell off by 23·29 per cent.

4. The chief staples in the import trade, which exhibited marked fluctuations during the quarter under report, as compared with the corresponding period of 1887, are noticed below :—

IMPORTS.

Staples showing an increase on the returns of the quarter ending the 31st December 1887.

WHEAT.

	Mds.
Quantity of increase	... 3,81,889
Percentage of do.	... 1022·02

The circumstances of the wheat traffic of 1888 and 1887 differ materially. There was in 1888 less absence of any demand for export than 1887, while the up-country demand in 1887, owing to failure of crops, was not repeated in 1888. Prices in the Lower Provinces were higher than last year, while in the North-West they were lower. The Traffic Manager in his report for October, 1888, wrote as follows :—

"Our wheat traffic during the corresponding period of 1887 was a special cause of anxiety, and wheat as a staple for export had become such a dead letter that the Calcutta Chamber of Commerce had ceased all quotations in its weekly price-current. We have, therefore, no great cause for congratulation at the increase shown in October 1888, and it will be remembered that this year also shippers are complaining that no business can be done, as Calcutta prices are above home equivalents. During the period we carried to Howrah 10,000 tons of wheat, while the export by sea were 11,500 tons. The export traffic is reported to have been affected by the high charges current for sea freight."

The District Traffic Superintendent, Tundla, explains the fluctuations during October last, as follows :—

"Although the greater portion of the wheat despatched during the beginning of the month from this district for shipment continued to be forwarded to Bombay, towards the end of the month there was a revival of the demand at Calcutta, and hence the satisfactory increase in earnings under this head."

The price of wheat in Calcutta during November 1888 was Rs. 3-1 to Rs. 3-2-6 for Fyzabad and Rs. 3-3 for Buxar wheat, whereas during the same period of 1887 the quotations were Rs. 2-8 to Rs. 2-9 per maund.

GRAM, PULSES, AND OTHER FOOD-GRAINS.

	Mds.
Quantity of increase ...	2,26,938
Percentage of do. ...	144·49

For reasons explained in the preceding quarter's returns, the result of the transactions in these staples is shown in one lump. The figures for the quarter under report showed a large improvement over the trade of the previous quarter, in which there was a falling off of 43·33 per cent. Towards the end of October, a demand had sprung up from Calcutta for the cheaper staples for shipment to Madras and Orissa, where there were grave apprehensions of an impending famine. The demands were met by Delhi, Agra, and other stations in the Tundla district.

Staples shewing a decrease on the returns of the quarter ending the 31st December, 1887.

COTTON, RAW.

	Mds.
Quantity of decrease ...	18,184
Percentage of do. ...	7·96

The cotton season in the Cawnpore district was a poor one, and the quantity available for export has not, it is said, approached last year's figures. On the other hand, Bengal cotton was largely exported to Bombay during the quarter under report, as the following remarks made in November, 1888, by the Goods Superintendent, Howrah, will show :—

"The cotton season is late this year, and better prices are offering at Bombay both for the local mills and for export, so much so that buyers in Calcutta cannot compete with Bombay with cotton for Europe. One or two firms are trying to cancel contracts at a loss. The prospects in cotton are not very bright just now."

In his report for December, 1888, the Traffic Manager, East Indian Railway, remarked that "the Bombay mills are buying Bengal cotton as largely as ever for manufacture. It is to be hoped in the interests of this Railway that the rumour now current, that new cotton mills are to be erected in Calcutta, will prove correct."

LINSEED.

	Mds.
Quantity of decrease ..	93,941
Percentage of do. ..	22·53

In his report for December, 1888, the Traffic Manager, East Indian Railway, states that "last year we dealt with an exceptionally good traffic in linseed for the month of December, and this year we are still considerably in advance of the figures of 1886. The demand in Calcutta appears to have been fairly steady, but sellers were not disposed to press their small stock upon the market."

TIL.

	Mds.
Quantity of decrease .	43,002
Percentage of do. ..	78·08

CASTOR.

	Mds.
Quantity of decrease ...	21,869
Percentage of do ...	49·33

The decrease in til seed occurred in the consignments from Allahabad, Bharwari, Sirathu, and Cawnpore, while in the case of castor seed there were short despatches from Phaphun and Etawah.

GHEE.

	Mds.
Quantity of decrease ...	19,560
Percentage of do. ...	58·72

The Calcutta demand was met from Behar, and hence the falling off in the despatches of ghee from the Upper Provinces.

5. In the export trade, the principal items in which fluctuations were most conspicuous are noticed below :—

EXPORTS.

Staples showing an increase on the returns of the quarter ending the 31st December 1887.

COAL AND COKE.

	Mds.
Quantity of increase ...	4,03,258
Percentage of do. ...	33·79

The increase is in despatches both for foreign railways and for the public The great bulk of the upward traffic is of course on railway account.

PIECE-GOODS, EUROPEAN.

		Mds.
Quantity of increase	...	65,541
Percentage of do.	...	36·19

The demand during November and December from the Calcutta market was good, and despatches from Howrah to Cawnpore, Delhi and stations above considerably increased during the period. In the North-West especially, there was no restriction such as was caused in 1887 by the scarcity of food-grains and consequent high prices.

GUNNIES.

		Mds.
Quantity of increase	...	19,069
Percentage of do.	...	21·83

The Goods Superintendent at Howrah remarks that the demand for gunnies both for wheat, seeds and cotton continued good during October, 1888. In November and December, however, the figures fell off owing to the fall in export traffic and the late cotton season.

Staples showing a decrease on the returns of the quarter ending the 31st December, 1887.

WHEAT.

		Mds.
Quantity of decrease	...	1,07,243
Percentage of do.	...	99·44

The large traffic carried during the 3rd quarter of 1887-88 was due to abnormal causes, which largely stimulated exports of food-grains to the Upper Provinces. The decrease shown in the present returns therefore need cause no apprehension.

In connection with the rice traffic, however, the Sahebgunge District Traffic Superintendent's 'report' for October 1888 gives the following particulars :—

RICE NOT IN THE HUSK.

		Mds.
Quantity of decrease	...	3,07,111
Percentage of do.	...	64·12

"The demand for rice at up-country stations from Bhagalpur upward to Cawnpore was very great and markets were most favourable. The prices up-country ranged from Rs. 2-7 to Rs. 3-2, whereas it sold locally at stations on the loop from Rs. 2-3 to Rs 2-4 a maund, allowing a good margin for profit after paying railway freight.

"The up and down traffic in rice for the periods under review compare thus :—

			Mds.	Rs.
1888	Up	...	3,01,966	90,127
	Down	...	62,026	8,994
1887	Up	...	1,66,976	61,372
	Down	...	51,480	8,216

GRAM AND PULSES AND OTHER FOOD-GRAINS.

		Mds.
Quantity of decrease	..	4,70,725
Percentage of do.	...	97·20

"If rain had fallen in time last month, we should have had a further increase in this staple, as already stated. There was an apprehension of famine throughout country, and merchants held black and waited results."

SALT.

		Mds.
Quantity of decrease	...	53,224
Percentage of do.	...	36·95

The chief falling off has been at Howrah in despatches to the North-West Provinces, as the following detailed figures of fluctuations will show:—

Districts to which exported.		Exports from Howrah during the quarter ending the 31st December 1887. Mds.	1888. Mds.
Goruckpore	...	25,206	41,151
Basti	...	17,087	30,966
Gonda	...	21,632	6,605
Jounpore	...	21,810	3,602
Ghazipore	...	3,207	2,403
Sultanpore	...	6,108	1,801
Benares	...	7,326	1,489
Fyzabad	...	19,344	903
Baraich	...	8,553	.....
Other places	...	5,846	1,513
Total	...	1,36,119	90,433

The traffic report for December, 1888, shows that the "price of imported salt rose during the period from Rs. 93 to Rs. 97 per 100 maunds, and it is reported that prices are likely to be maintained by speculators."

SUGAR, UNDRAINED.

		Mds.
Quantity of decrease	...	76,586
Percentage of do.	...	48·87

As explained in previous quarters, the falling off was owing to the failure of the sugarcane crop in Behar.

INTERNAL TRADE OF THE LOWER PROVINCES.

STATEMENT No. III.

6. The gross registered traffic showed an increase of 32,39,578. or 21·61 per cent., as compared with the figures of the quarter ending the 31st December,

1887. The net quantity of the downward and upward traffic, and the proportion of the Calcutta traffic to the total trade, are given below :—

	Quarter ending the 31st December		Calcutta traffic.		Proportion of Calcutta traffic to the total trade.	
	1887.	1888.	1887.	1888.	1887.	1888.
	Mds.	Mds.	Mds.	Mds.	Per cent.	Per cent.
Downward traffic	1,28,80,220	1,51,71,137	1,15,87,207	1,33,16,725	89·96	87·78
Upward "	20,00,594	30,09,255	16,83,120	21,39,140	81·68	71·09
Total ..	1,49,40,814	1,81,80,392	1,32,70,327	1,54,55,865	88·82	85·01

7. The most noticeable fluctuations in the principal commodities carried each way are noted below :—

DOWNWARD TRAFFIC.

Articles showing an increase as compared with the quarter ending the 31st December, 1887.

COAL AND COKE.

	Mds.
Quantity of increase ...	17,99,368
Percentage of do. ...	34·91

The prospects of the coal traffic are very fair, and there is a growing demand for this article in the Calcutta market. In October, 1888, the Traffic Manager, East Indian Railway, wrote as follows :—

"The growth of the downwards coal traffic may, in the first instance, be attributed to the opening of the Jubilee Bridge, and the consequent increased facilities for delivering coal and coke in Calcutta and in Eastern Bengal generally. As compared with 1887, both the Calcutta depôts, namely, Balliaghatta (Sealdah) and Chitpore, showed largely increased receipts; the deliveries at these two depôts during the period were more than 10,000 tons. Another, and perhaps the principal, reason for the increased traffic is the demand which has recently sprung up for Bengal coal for export to coaling stations on the Indian and Burmah coasts. These ports were supplied with British coal, and it was even the practice with many of the regular lines of steamers to arrive in the port of Calcutta with their bunkers sufficiently filled with coal to enable them to sail again without taking on board any Bengal coal. The latter coal has now, however, grown in favour, while the cost of British coal has increased: the former description is more generally taken by steamers in Calcutta, while arrangements are being made on a considerable scale to stock Rangoon, Madras, Colombo, and other ports from Bengal. In the weekly Commercial letter of the "*Pioneer*" newspaper, it was recently stated that the Managing Agents in Calcutta of one line alone had contracted for 400,000 tons of coal for Calutta consumption and for export to coaling stations during one year. The information in this office leads to the belief that the quantity has been placed at too high a figure, but there is every reason to hope for nearly 200,000 tons, against under 100,000 tons during the past year.

"The deliveries at Howrah, namely, 57,325 tons, were the largest we have ever had during October, and there seems some probability of our continuing to do a larger business at Howrah than previously throughout the cold weather. With our limited accommodation for coal traffic at Howrah, there may be some difficulty in dealing with all the traffic given us.

"Our estimates of increased coal traffic are supported by the large advances which have recenty taken place in the price of all coal shares."

The report for December is as reassuring as the above. The Traffic Manager writes :—

"In *downwards* traffic the principal cause for the increase is as assigned in a previous report, namely, the receipt by the Coal Companies of large orders from steamers, both for coaling in Calcutta and for despatch to coaling stations on the coast. All Coal Companies are now reported to be working to their utmost outturn in order to keep pace with their contracts, and the railway is also experiencing difficulties in dealing with the traffic, principally owing to Coal Companies despatching larger quantities from the collieries than with the facilities afforded at Howrah they can unload without detaining stock."

PADDY.

	Mds.
Quantity of increase	... 3,12,809
Percentage of do.	... 3976·72

The increase was mainly in the importation into Calcutta from Northern, Eastern, and Western Bengal. No special cause has been assigned for these increases.

JUTE, RAW.

	Mds.
Quantity of increase	... 5,29,285
Percentage of do.	... 15·43

The greatest portion of the increase shown occurred in the despatches to Calcutta from Northern and Eastern Bengal. The East Indian Railway received during the quarter a considerable jute traffic from the Assam-Behar State Railway. In his report for October last, the Traffic Manager remarked as follows :—

"The most important addition, as compared with 1887, was the increase of 64,000 maunds approximately, and Rs 17,500 from traffic made over to us for Calcutta by the Assam-Behar State Railway. To give encouragement to this new traffic, and in competition with the rivers during the rainy season, a rate had been quoted of 3 annas per wagon-mile, irrespective of load. I think the success of the rate is shown by results, and boats are reported to have done little or none of the jute carriage this season from the districts affected."

MUSTARD SEED.

	Mds.
Quantity of increase	... 32,453
Percentage of do.	... 30·48

There was a fair demand for this staple, and the increase occurred in the despatches to Calcutta from Behar.

GHEE.

	Mds.
Quantity of increase	... 19,935
Percentage of do.	... 304·17

The large imports into Calcutta from Behar restricted supplies being sent from the Upper Provinces.

Articles showing a decrease as compared with the quarter ending the 31st December, 1887.

WHEAT.

	Mds.
Quantity of decrease	... 1,18,966
Percentage of do.	... 33·65

The decrease occurred in the despatches to Calcutta from Behar. The Traffic Manager's report for October, 1888 shows that Buxar and Arrah being well irrigated had assurance of fair crops irrespective of rainfall, and were therefore enabled to part with stocks. The increase *viâ* Digha Ghât is owing to the despatches last year having been nominal, while the decreases from Monghyr and *viâ* Bankipore are owing to short crops. Both Monghyr and Gya found it necessary to import food-grains.

RICE.

	Mds.
Quantity of decrease	... 3,29,742
Percentage of do.	... 41·29

The chief falling off was in the imports into Calcutta from Northern Bengal and Western Bengal. On this subject the District Traffic Superintendent, Sahebgunge, wrote as follows :—

"A cheaper and better quality of rice from Backergunge and other eastern districts of Bengal appears to have monopolised the Calcutta market.

"There can be no doubt that the drought experienced last October in a great measure sterilized this traffic. Until they were reassured, which was not till towards the end of last month, merchants held back and awaited results."

GRAM, PULSES, AND OTHER FOOD-GRAINS.

	Mds.
Quantity of decrease	... 3,58,393
Percentage of do.	... 45·30

The stations showing principal decreases were on the length between Sahebgunge on the loop line and Dinapore, and there is no doubt that, so far from having the surplus of previous years, there was an actual scarcity of some severity in the districts which freely sent away supplies last year. The Traffic Manager's report for October, 1888 contains the following remarks on this traffic :—

"There were heavy fallings off in despatches from stations on the upper portion of the loop line, and on the Dinapore district, as in all cases supplies were no more than sufficient for local consumption, while some stations had even to import food-supplies."

GUNNY-BAGS AND CLOTH.

	Mds.
Quantity of decrease ...	1,78,154
Percentage of do. ...	57·34

The falling off was in the despatches to Calcutta from Northern Bengal.

LINSEED.

	Mds.
Quantity of decrease ...	2,30,389
Percentage of do. ...	17·98

The largest decrease occurred in the consignments sent to Calcutta from Patna City, and the report of the District Traffic Superintendent, Dinapore, shows that the "crops near and about Patna, which as a rule feed that station, have not been as favourable as anticipated owing to unseasonable rains. During October, 1887, the selling price in Calcutta ranged from Rs. 3-11 to Rs. 4-1, and stocks were then abundant; but during October, 1888, the quotations commenced as low only as Rs. 4-3, and rose as high as Rs. 4-8 to Rs. 4-10, according to the percentage of refraction.

The following were the selling prices at the principal stations during October, 1887, and 1888:—

	1887. Rs. A. P.	1888. Rs. A. P.
Mokameh Ghât ...	3 11 0	3 12 0
Mokameh	3 11 0	3 12 0
Barh	4 2 0	4 2 6
Khusrupur	4 3 0	4 2 0
Patna	3 15 0	4 8 0
Buxar	3 8 0	3 12 0
Chausa	3 15 0	4 0 0
Dildarnagar	4 0 0	4 3 0

UPWARD TRAFFIC.

Articles showing an increase as compared with the quarter ending the 31st December, 1887.

PIECE-GOODS, EUROPEAN.

	Mds.
Quantity of increase ...	15,913
Percentage of do. ...	4·59

The increase occurred in the despatches from Calcutta, which did a good business in this staple during the quarter under report.

RICE.

	Mds.
Quantity of increase ...	3,98,087
Percentage of do. ...	165·81

Owing to a scarcity of other food-grains, a large quantity of rice was carried to Behar from Western Bengal for local consumption. The following extracts made from the East Indian Railway Traffic Manager's reports for October, 1888, show the details of the transactions in this staple.

Extract from the Goods Superintendent's report:—

"This increase is due to a scarcity of other food-grains; the rates increased considerably during this period, the despatches were principally for stations on the B. district. "Common food-grains were very scarce in the markets, and rates went up very considerably; hence the demand for rice chiefly for local consumption."

Extract from the Howrah District Traffic Superintendent's report:—

"In the downward traffic we have had a good export from Burdwan, Khana Junction and Raneegunge to Howrah, on account of high rates prevailing in Calcutta owing to the unfavorable reports from all parts of the country. In the same way we have had a good increase in the upwards despatches from Burdwan, Khana Junction, Durgapore and Raneegunge, on account of the scarcity at stations on the B district; on the upper end of this district, and at Barakar. The scarcity at Karmatar and Ba dyanath has also caused a decrease from those stations."

Extract from the Sahebgunge District Traffic Superintendent's report:—

"Taking into consideration that our rice traffic last year was unusually good, it is very satisfactory to note the general increase at almost all the rice-despatching stations on the loop."

SALT.

	Mds.
Quantity of increase ...	23,532
Percentage of do. ...	2·41

The percentage of increase in the distribution of salt from Calcutta to the different trade blocks in comparison with the figures for the corresponding period last year was—Behar 2·10, Northern Bengal 12·68, Eastern Bengal 14·24.

APPENDIX.

Statement showing the average wholesale prices of articles of trade during the quarter ending the 31st December, 1888, as well as the rates of deduction made from the gross weight to obtain net weight.

RETURNS

OF THE

RAIL-BORNE TRADE OF BENGAL

For the quarter ending the 31st March, 1889.

Calcutta:
PRINTED AT THE BENGAL SECRETARIAT PRESS.
1889.

RETURNS

OF THE

RAIL-BORNE TRADE OF BENGAL

For the quarter ending the 31st March, 1889.

RAILWAY FREIGHTS.

East Indian Railway.—The following changes were made by the East Indian Railway in the rates of freight on goods carried during the quarter ending the 31st March, 1889, as compared with the corresponding period in 1887-88.

Coal.—During the quarter under report, coal was carried from the Calcutta Coal Association siding and west Ghoosick siding to Howrah and all stations up to Memari inclusive, and to Ahmedpore and Naihati, at the rate of Rs. 13-8 per 100 maunds. In the corresponding period in 1887-88 no rate was quoted.

Cotton, raw.—From January 1889 cotton (classes E.* and F.†) was carried from Bombay to and *viâ* Cawnpore at the following through rate:—

	In 1888-89. Per maund. Rs. A. P.	In 1887-88. Per maund. Rs. A. P.
East Indian Railway	0 8 8	0 8 0
Great Indian Peninsular Railway	0 15 4	0 15 0
	1 8 0	1 7 0

Grains and oilseeds.—Grains and oilseeds in consignments of less than 300 maunds booked from the Bombay, Baroda and Central India Railway *viâ* Cawnpore to the East Indian Railway, from Hathras junction and stations west of that junction, were charged during February and March, 1889, at Rs. 7-8 per 100 maunds higher than the 1st class rate of $\frac{1}{3}$rd of a pie per maund per mile, which was the rate charged during the corresponding months in 1887-88. The extra charge was also levied on re-booked consignments.

Jute, raw.—During the quarter under review, balances over, after fully loading wagons of jute carried at the special class A‡ rate, were received from the Eastern Bengal State Railway and charged on the East Indian Railway at first class rates on actual weight. During the fourth quarter in 1887-88 second class rates, viz., $\frac{1}{2}$ a pie per maund per mile, were charged.

* Cotton pressed to not less than 38 lbs. per cubic foot, or not exceeding 8 cubic feet per bale of 300 lbs., or 10½ cubic feet per bale of 400 lbs.

† Cotton pressed to not less than 43 lbs. per cubic foot, or not exceeding 7 cubic feet per bale of 300 lbs., or not exceeding 9 cubic feet per bale of 400 lbs.

‡ For the first 100 miles ... ... 33⅓ pies per 100 maunds per mile.
" extra distances exceeding 100 and up to 450 miles ... 17 ditto ditto.
" ditto beyond 450 miles ... ... 12 ditto ditto.

Jute booked from the under-mentioned stations on the Eastern Bengal State Railway to Howrah and Shalimer, was carried over the East Indian Railway at the reduced rates, noted below:—

Oils.—The minimum weight for kerosine oil booked to Oudh and Rohilkhund Railway stations proper, *i.e.*, stations other than Moghalserai, Cawnpore, Aligarh, and Saharanpore was reduced from 300 maunds in the fourth quarter in 1887-88 to 270 maunds in the quarter under report.

Salt.—In January, 1889, the following reduction was made in the freight on salt carried to the following stations from or *viâ* Ghaziabad :—

To stations.	Rate in January, 1888, Per 100 maunds. Rs. A. P.	Rate in January, 1889, Per 100 maunds. Rs. A. P.
Patna District—		
Bukhtearpore	60 0 0	49 0 0

Gya District—		
Jehanabad	60 0 0	51 0 0
Mozufferpore District—		
Bela	61 0 0	51 0 0

Stone.—During February and March, 1889, stone of any description was carried at the risk of owners from Mirzapore to Sahebgunge in wagon loads of 325 maunds at Rs. 67, against Rs. 84-8 in the corresponding months last year.

2. *Behar and North-Western Railway.*—The only change made by this Railway during the quarter was in the rate of freight on indigo seed, which was carried 100 miles and over at $\frac{1}{4}$th of a pie per maund per mile, against $\frac{1}{5}$th of a pie per maund per mile in the fourth quarter in 1887-88.

3. No changes in the rates of freight were made by any other railways in Bengal.

EXTERNAL TRADE OF THE LOWER PROVINCES.

STATEMENT II.

4. The result of the transactions for the quarter ending the 31st March, 1889, in comparison with the figures of the corresponding period last year, is a decrease of 27·11 per cent. in the total traffic lifted. "Railway plant and rolling stock" formed one of the items of trade in 1887-88, but under the orders of the Government of India, it has been omitted in the returns from the 1st April, 1888. If the trade under that head, amounting to 10,40,446 maunds, be deducted from the returns for the quarter ending the 31st March, 1888, the net traffic of the present quarter will be below the figures of the fourth quarter of 1887-88 by only 15·88 per cent., of which 11·01 per cent. will be under imports, and 18·53 per cent. under exports.

5. The chief falling off in the import trade occurred under oilseeds, while the exports decreased owing to the absence of demand for food-grains in the Upper Provinces, where there was a scarcity in 1887-88. The following statements show the different articles in the import traffic in which the principal fluctuations occurred:—

IMPORTS.

Staples showing an increase on the returns of the quarter ending 31st March, 1888.

COTTON, RAW.

Quantity of increase ... 30,979 mds.
Percentage of do. ... 9·43

The increase is said to have been principally in despatches from stations above Cawnpore. At Cawnpore and in the surrounding districts, the crop, as previously reported, failed on account of abnormal rainfall, and only a four-anna harvest is said to have been gathered. Above Etawah the cotton crop is said to have been very fair. The remarks made by the East Indian Railway Goods Superintendent, Cawnpore, in his report for March, 1889, are extracted below:—

"I am glad to be able to report on a slight increase in cotton for export. Shippers themselves have been surprised at the continued demand from Europe, and fear that it cannot continue for any time, as the quality now available for shipment is inferior."

WHEAT.

Quantity of increase ... 1,57,059 mds.
Percentage of do. ... 158·65

In his report for February 1889, the Traffic Manager, East Indian Railway, remarked that "throughout the month the Calcutta market is reported to have been dull, and business done appears to have been of a speculative nature. Old stocks were sent down from the North-West in anticipation of good crops in the approaching season; and latest reports confirm the anticipation and show that a fair field is expected, not only in the North-West, but in Oudh and Bengal. The abundant rain which fell during the month seems to have done good to the wheat and rubbi crops generally. The first arrivals of new wheat from Oudh are since reported to have reached Calcutta and to be of good quality." An exceptional feature in the traffic for March 1889 was that there were despatches of wheat from Delhi to Howrah.

GRAM AND PULSES AND OTHER FOOD-GRAINS.

Quantity of increase ... 1,38,300 mds.
Percentage of do. ... 146·32

Calcutta received increased supplies of these grains from the Punjab, and Behar also drew largely from the North-West Provinces.

Staples showing a decrease on the returns of the quarter ending the 31st March, 1888.

LINSEED.

Quantity of decrease ... 2,25,517 mds.
Percentage of do. ... 66·53

MUSTARD SEED.

Quantity of decrease ... 3,57,694 mds.
Percentage of do. ... 65·53

TIL OR JINGILI.

Quantity of decrease ... 26,639 mds.
Percentage of do. ... 90·36

The following remarks made by the Traffic Manager, East Indian Railway, in his report for February, 1889, in respect of the linseed trade, is worthy of notice:—

"Linseed contributed mostly towards the decrease, due to the very exceptional traffic of February 1888 and the absence of a corresponding demand in 1889. The Calcutta market is reported to have been "dull and lifeless," and the advance in steamer freight and decline in home prices towards the end of the month are reported to have resulted in an utter collapse in India. The stock in hand at most up-country stations appears to have been nominal, and with the arrival of the new season's crops we may hope to see the traffic revive."

As regards mustard seed, the demand in the Calcutta market for export to the Continent was slack, while the state of the crops in the North-West kept up prices and prevented the seed from moving, and stations in Bengal which last year imported largely, had this year full crops and a surplus for despatch.

As for til seed, the stocks are said to have been exhausted, and very limited supplies were sent to Calcutta and Behar from Cawnpore.

GHEE.

Quantity of decrease ... 18,166 mds.
Percentage of do. ... 52·17

Calcutta now draws its supplies of ghee from Behar, instead of from the North-West as formerly.

6. The principal fluctuations in the export traffic are explained below:—

EXPORTS.

Staples showing an increase on the returns of the quarter ending the 31st March, 1888.

COAL AND COKE.

Quantity of increase ... 4,33,527 mds.
Percentage of do. ... 23·38

The upward increase was from Giridih, and was due to a large demand both by foreign railways, and by the public for brick-burning purposes.

COTTON PIECE-GOODS, EUROPEAN.

Quantity of increase ... 19,888 mds.
Percentage of do. ... 12·33

The increase occurred in the consignments to the North-West Provinces and Oudh from Calcutta.

GUNNIES.

Quantity of increase .. 16,214 mds.
Percentage of do. ... 22·30

Large exports were made from Calcutta and Behar to meet up-country demands.

Staples showing a decrease on the returns of the quarter ending the 31st March, 1888.

RICE.

Quantity of decrease ... 7,29,142 mds.
Percentage of do. ... 73·75

GRAM AND PULSES AND OTHER FOOD-GRAINS.

Quantity of decrease ... 3,27,745 mds.
Percentage of do. ... 104·50

The Traffic Manager, East Indian Railway, in his report for February 1889, states that:—

"Last year there was exceptional traffic owing to the scarcity in the North-West Provinces, and large quantities of food-grains were exported from the Loop and above which this year found no market."

IRON.

Quantity of decrease ... 31,516 mds.
Percentage of do. ... 21·45

The decrease occurred chiefly in the exports from Calcutta, where the demand from Cawnpore, Agra, and Delhi was very limited. The Traffic Manager, East Indian Railway, reported in March, 1889, as follows:—

"We had an exceptionally large traffic in iron during March 1888. The decreases this year were where there were increases in 1888."

SALT.

Quantity of decrease ... 52,392 mds.
Percentage of do. ... 41·38

The quantities carried to the North-West Provinces from Calcutta showed a falling off of 36·82 per cent., and from Behar of 97·53 per cent. The Traffic Manager, East Indian Railway, writes :—

"The decrease may in a great measure be attributed to the tightness of the Calcutta money market, while from Howrah the increase reported in 1888 was exceptional, owing to the heavy speculation consequent on anticipated introduction of an additional import duty."

SUGAR, UNREFINED.

Quantity of decrease ... 34,108 mds.
Percentage of do. ... 24·69

The decrease occurred in the exports from Behar to the Bombay Presidency, Rajputana, and the Central Provinces. In the Dinapore district the sugar-cane crops are reported to have been late, and the manufacture of jaggree delayed in consequence. In his report for January, 1889, the Traffic Manager, East Indian Railway, makes the following observations :—

"In regard to the decreases from *viâ* Cawnpore and from the Gya line, the importing stations are principally on the Great Indian Peninsula Railway to the west of Itarsi. The opening of the new route *viâ* the Indian Midland Railway diverted the traffic in Oudh and Rohilkhund Railway sugar from this system over the length Cawnpore to Jubbulpore, while at the same time it so cheapened the cost of Oudh and Rohilkhund Railway sugar laid down at consuming station by means of cheaper railway rates that the business of sugar merchants at Makhdumpore on the Gya line was seriously interfered with."

TOBACCO.

Quantity of decrease ... 13,036 mds.
Percentage of do. ... 41·94

The tobacco crops are said to have been seriously injured by a hail storm in February, and hence the falling off in the exports from Behar.

INTERNAL TRADE OF THE LOWER PROVINCES.

STATEMENT III.

7. The gross traffic registered during the fourth quarter of 1887-88 included 8,94,798 maunds of Railway plant and rolling-stock. After deducting this quantity, for reasons already explained in paragraph 4, there remained 1,41,02,465 maunds, which are 19·94 per cent. below the present quarter's trade. The net quantity of downward and upward traffic, and the proportion of the Calcutta trade to the total traffic, are shown in the subjoined statement :—

	Quarter ending 31st March.		Calcutta.		Proportion of Calcutta traffic to the total trade.	
	1888.	1889.	1888.	1889.	1888.	1889.
	Mds.	Mds.	Mds.	Mds.	Per cent.	Per cent.
Downward traffic	1,11,72,264	1,33,90,345	92,34,515	1,12,74,507	82·65	84·94
Upward „	29,30,201	35,24,749	22,38,595	21,62,385	76·39	61·35
Total ...	1,41,02,465	1,69,15,094	1,14,73,110	1,34,36,892	81·35	79·43

8. The figures for 1888 given in the foregoing statement are exclusive of Railway plant and rolling-stock. It will be seen that the down traffic during the present quarter exceeded the figures of 1888 by 19·85 per cent., while the up traffic advanced by 20·29 per cent. The principal article of increase under the former head is coal, the traffic in which during January 1889 was so exceptionally heavy that the East Indian Railway found it necessary to retain throughout the month 250 wagons borrowed from the Eastern Bengal State Railway. In the upward traffic, the advance was mainly in rice, the movements of which were stimulated by urgent local demands. The causes of the

fluctuations in the principal articles of traffic, are given in the statements below :—

DOWNWARD TRAFFIC.

Articles showing an increase as compared with the quarter ending 31st March, 1888.

COAL AND COKE.

Quantity of increase ... 21,18,471 mds.
Percentage of do. ... 35·23

The increase occurred in the imports into Calcutta, and was due chiefly to the larger consumption of Indian coal by steamers and to the large demand for brick-burning operations in connection with the Kidderpore Docks. The Traffic Manager, East Indian Railway, in his report for March, 1889, writes that "regarding coal for shipment, it is reported that the experiments made in taking the coal on a large scale have proved so successful that there is every likelihood of the new outlet for Indian coal being maintained. The following further information is given in that report :—

"The export of coal from England for Calcutta seems to have recommenced, though not on a large scale. Only 800 tons are reported in the Bengal Chamber of Commerce price current as having been received during the three months ended the 31st March, but nearly 10,000 tons are expected in May and June.

"Assam coal, referred to in certain of my reports last year as a competitor with Ranigunge coal in Calcutta, is now coming into the market at the rate of 5,000 tons per mensem, but this quantity is small compared with our deliveries during the month (five weeks) of March in Howrah and Calcutta of 93,565 tons. The coal is more than 50 per cent. dearer than Ranigunge coal, while the results are stated to be only 25 per cent. better."

PADDY.

Quantity of increase ... 205,208 mds
Percentage of do. ... 511·25

As usual the increase was due to larger imports into Calcutta from the Western, Northern, and Eastern, Bengal blocks.

JUTE, RAW.

Quantity of increase ... 2,52,212 mds.
Percentage of do. ... 32 65

The jute season ended with the close of the quarter under review. The supplies carried to Calcutta from Northern Bengal showed an increase of 86·77 per cent.

MUSTARD SEED.

Quantity of increase ... 1,92,169 mds.
Percentage of do. ... 113·76

OTHER OILSEEDS.

Quantity of increase ... 34,879 mds.
Percentage of do. ... 352·39

The crops have been full, and Calcutta imported largely from almost all the trade blocks.

GHEE.

Quantity of increase ... 18,059 mds.
Percentage of do. ... 224·50

The increased supply of ghee from Behar to Calcutta has had the effect of checking exports from the North-West Provinces and Oudh.

Articles showing a decrease as compared with the quarter ending the 31st March, 1888.

WHEAT.

Quantity of decrease ... 91,253 mds.
Percentage of do. ... 45·84

The decrease occurred in the despatches of wheat to Calcutta from Behar and Eastern Bengal. On this subject the Traffic Manager in his report for March 1889 writes :—

"The falling off from *viâ* Bankipore, *i.e.*, the Gya line, was due to crops being both late and poor. Regarding the outturn in his district generally, and the prospects of a wheat traffic, the District Traffic Superintendent, Dinapore, remarks as follows :—

'This season's wheat crop may be said to be far below what was anticipated, except in the low lying lands above Dinapore within canal-irrigation limits, where the cultivators' expectations were fully realized, at Buxar and Arrah especially.'"

RICE.

Quantity of decrease ... 88,640 mds.
Percentage of do. ... 10·06

GRAM AND PULSES AND OTHER FOOD-GRAINS.

Quantity of decrease ... 1,35,412 mds.
Percentage of do. ... 23·26

In the case of rice, Calcutta received less from Eastern and Northern Bengal than in the corresponding quarter last year. The exports from Northern Bengal to Eastern Bengal were also restricted to a certain extent. Regarding gram and pulses and miscellaneous food-grains, the decrease occurred in the imports into Calcutta from the Eastern and Northern Bengal blocks.

HIDES OF CATTLE.

Quantity of decrease ... 11,306 mds.
Percentage of do. ... 12·23

The decrease was principally in the consignments to Calcutta from Delhi owing to accumulations in the former place of North-Western descriptions, and the absence of demand causing prices to recede below sellers' views.

LINSEED.

Quantity of decrease 1,81,377 mds.
Percentage of do. ... 25·85

The chief falling off occurred in the exports from Behar to Calcutta for reasons explained in the previous quarter's report.

TOBACCO.

Quantity of decrease ... 14,553 mds.
Percentage of do. ... 17·74

The chief falling off occurred in the quantities carried to Calcutta from the Northern Bengal block.

UPWARD TRAFFIC.

Articles showing an increase as compared with the quarter ending the 31*st March*, 1888.

COAL AND COKE.

Quantity of increase ... 1,10,165 mds.
Percentage of do. ... 95·00

The increase occurred in the despatches from Western Bengal to Behar and Northern Bengal.

COTTON, TWIST AND YARN, EUROPEAN.

Quantity of increase ... 9,627 mds.
Percentage of do. ... 64·05

The increase was mainly in the importation into Eastern and Northern Bengal and Dacca from Calcutta. No special cause has been assigned for these increases.

RICE.

Quantity of increase ... 5,03,126 mds
Percentage of do. ... 104·78

Large supplies of rice went to Behar from the Western Bengal block for local consumption, there being a scarcity of food-grains in that part of the country.

IRON.

Quantity of increase ... 11,481 mds.
Percentage of do. ... 7·09

The supplies carried to Northern Bengal from Calcutta was in excess of the quantities sent in the corresponding quarter of last year by 58·36 per cent.

Articles showing a decrease as compared with the quarter ending the 31*st March*, 1888.

COTTON PIECE-GOODS, EUROPEAN.

Quantity of decrease ... 62,826 mds
Percentage of do. ... 17·34

The decrease is ascribed to the continued stringency of the money market, and to the fact that the marts at large centres were overstocked by heavy despatches in the previous quarter. The exports from Calcutta to Behar fell off by 18·83 per cent., and to Eastern Bengal by 39·90 per cent.

SALT.

Quantity of decrease ... 32,633 mds.
Percentage of do. ... 3·29

The exports of salt from Calcutta to Behar fell off by 9·99 per cent., and to Eastern Bengal by 2·35 per cent. The fluctuations are normal, and call for no explanation.

APPENDIX.

Statement showing the average wholesale prices of articles of trade during the quarter ending the 31st March 1889, as well as the rates of deduction made from the gross weight to obtain net weight.

Articles.		Rates of deduction.	Rates of value per maund.

RETURNS

OF THE

RAIL-BORNE TRADE OF BENGAL

For the quarter ending the 30th June, 1889.

Calcutta:

PRINTED AT THE BENGAL SECRETARIAT PRESS.

1889.

RETURNS

OF THE

RAIL-BORNE TRADE OF BENGAL

During the quarter ending the 30th June, 1889.

RAILWAY FREIGHTS.

THE changes made in the rates of freight on the following articles of trade carried by the East Indian Railway during the quarter ending the 30th June, 1889, are compared below with the rates in force in the corresponding period in 1888-89:—

Coal and coke.—The rate of freight on 100 maunds of coal despatched from Giridih, in the Behar block, to Gwalior, *viâ* Agra, was reduced during May, 1889, from Rs. 51 to Rs. 49-2-8. No alteration was made in the rate of freight on coke.

Cotton, raw.—During May and June, 1889, raw cotton (class F)* was carried from Morena, in Rajputana and Central India, to Howrah, *viâ* Agra, at the rate of Rs. 4-15-5 perb ale of 400lbs., against Rs. 4-15-8 in the corresponding months in 1888.

Cotton and woollen piece-goods.—These goods, both European and Indian, were carried during the quarter under review from Howrah to Sutna, in Rajputana and Central India, at the rate of Rs. 162-4 per 100 maunds, against Rs. 174 in the quarter ending the 30th June, 1888.

Myrabolams.—In June, 1888, this article was carried from Howrah to Cawnpore at the 1st class rate of $\frac{1}{3}$ of a pie per maund per mile; in June, 1889, this rate was reduced to special class "B" rate, viz., $\frac{1}{4}$ of a pie per maund per mile.

Grains and seeds.—The charge on grains and seeds in consignments of not less than 300 maunds from Katni, in the Jubbulpore district, to Howrah was reduced from Rs. 50 per 100 maunds in April, 1888, to Rs. 45 in April, 1889. During May and June, 1888 and 1889, these cereals were carried to Howrah from the undermentioned stations at the rates given below:—

From	Rate per 100 maunds in		Remarks.
	1888.	1889.	
	Rs. A. P.	Rs. A. P.	
Jasra	52 0 0	50 0 0	
Sutna	53 0 0	51 0 0	
Sihora Road	50 0 0	42 0 0	
Bareilly and stations above on the Oudh and Rohilkhund Railway (except Saharunpore and Aligarh) *viâ* Mogulserai.	·15 pie per maund per mile.	·13 pie per maund per mile on the through distance.	
All stations between Daryabad and Darshannagar inclusive and Ajodhya Ghât on the Oudh and Rohilkhund Railway *viâ* Mogulserai.	·15 pie per maund per mile.	·16 pie per maund per mile.	
Nowabgunge and Lakarmandi Ghât *viâ* Digha Ghât.	·15 pie per maund per mile.	·17 pie per maund per mile on the through distance.	

* Cotton pressed to not less than 43lbs. per cubic foot, or not exceeding 7 cubic feet per bale of 300lbs., or not exceeding 9 cubic feet per bale of 400lbs.

Jute, raw.—During April, May, and June, 1888 and 1889, raw jute was booked from the undermentioned stations on the Eastern Bengal State Railway to Howrah and Shalimar, at the rates given below :—

Ghee.—In April, 1889, ghee, packed in barrels, tubs, or drums, was carried for distances not exceeding 150 miles at $\frac{1}{3}$ a pie per maund per mile, against $\frac{1}{3}$ of a pie per maund per mile, at owner's risk, in April, 1888.

Salt.—In May, 1889, the rate of freight on 100 maunds of salt from Howrah to and *viâ* Mokameh Ghât was raised from Rs. 22-5 to Rs. 25; and to and *viâ* Digha Ghât stations below Sahjanwa, on the Bengal and North-Western Railway, from Rs. 27 to Rs. 30.

EXTERNAL TRADE OF THE LOWER PROVINCES.

STATEMENT II.

2. The aggregate weight carried was 76,67,681 maunds, which were below the figures for the corresponding quarter last year by 63,114 maunds, or ·82 per cent. In the imports into Bengal there was a rise of 3,24,538 maunds, or 7·82 per cent.; but as regards the exports, the total quantity showed a decline of 3,87,652 maunds, or 10·82 per cent.

3. The different articles in the import trade, which exhibited marked fluctuations during the quarter ending the 30th June, 1889, as compared with the corresponding quarter of 1888, are detailed in the subjoined statements :—

IMPORTS.

Staples showing an increase on the returns of the quarter ending the 30th June, 1888.

COTTON, RAW.

Quantity of increase ... 14,277 mds.
Percentage of do. ... 18·90

The increase occurred chiefly in April, 1889, when supplies were carried from Etawah, Agra, Aligarh, and Khurja to Howrah, where the demand for superior quality cotton continued throughout the month. With the close of May, however, the cotton season may be said to have closed.

WHEAT.

Quantity of increase ... 2,65,515 mds.
Percentage of do. ... 21·78

PADDY.

Quantity of increase ... 10,495 mds.
Percentage of do. ... 225·29

RICE.

Quantity of increase ... 19,989 mds.
Percentage of do. ... 2,517·50

JOWAR AND BAJRA.

Quantity of increase ... 4,471 mds.
Percentage of do. ... 5,386·74

GRAM AND PULSES.

Quantity of increase ... 4,11,068 mds.
Percentage of do. ... 407·96

OTHER FOOD-GRAINS.

Quantity of increase ... 69,858 mds.
Percentage of do. ... 227·72

Regarding the consignments of food-grains from the North-Western Provinces and Oudh, there was a rise from 11,55,529 maunds to 14,63,326 maunds in the supplies carried to Calcutta, while the Behar imports from those provinces amounted to 3,82,145 maunds, against 1,29,303 maunds in the corresponding period last year. Calcutta also drew largely from the Punjab, the gross supply being 2,31,757 maunds, against only 2,712 maunds in the quarter ending 30th June, 1888. The staples which were most largely drawn were wheat, gram and pulses, and miscellaneous food-grains.

In the case of wheat the increase was mostly made up by a large traffic from the Oudh and Rohilkhund Railway *viâ* Mogulserai, supported by a substantial increase from *viâ* Ghaziabad, Delhi, Khurja, Aligarh and other distant stations from which Calcutta drew its supply. It is stated that in the Calcutta market, business was restricted to native speculators, and high prices are reported to have been paid for good quality. At Cawnpore the prices of wheat during June last ranged from Rs. 2-6 to Rs. 2-11-3 per maund, and but little business with Calcutta was transacted.

The increase under gram and pulses was owing in great measure to the exceptionally good crops in the Agra and Delhi districts, and to the strong demand in Calcutta for local consumption. The traffic in pulses consisted almost entirely of *dâl*, the greater portion being despatched from *viâ* Mogulserai, Cawnpore, Agra, Hathras *viâ* Ghaziabad, and Delhi, to Calcutta. There was also a substantial increase in pulses, principally *dâl*, received at Digha, in Behar, from the Bengal and North-Western Railway.

The traffic in miscellaneous food-grains consisted chiefly of barley, maize, and other grains from *viâ* Ghaziabad to meet a demand in Calcutta and Behar. There was also a quantity of barley despatched from the Oudh and Rohilkhund Railway to Calcutta.

STONE AND LIME.

Quantity of increase ... 90,052 mds.
Percentage of do. ... 110·45

The increase in the trade in stone consisted for the most part of despatches from Mirzapore to the Calcutta Port Trust Railway for building purposes in connection with the Kidderpore Docks. An impetus was given to this trade by the special rates for stone in wagon loads introduced a few months ago. The Traffic Manager, East Indian Railway, wrote in April last as follows :—

"It is now believed that by means of the reduced rates contractors supplying the Calcutta Municipality with road metal will gradually be induced to despatch by rail instead of by river. One large contractor has already taken to the rail."

SUGAR, UNREFINED.

Quantity of increase ... 14,218 mds.
Percentage of do. ... 252·81

The increase in this case occurred in the despatches from the North-Western Provinces to Calcutta, which imported 13,699 maunds more than in the corresponding year of 1888.

Staples showing a decrease on the returns of the quarter ending the 30th June, 1888.

LINSEED.

Quantity of decrease ... 25,588 mds.
Percentage of do. ... 1·94

MUSTARD SEED.

Quantity of decrease ... 4,07,609 mds.
Percentage of do. ... 59·25

POPPY SEED.

Quantity of decrease ... 47,489 mds.
Percentage of do. ... 31·06

In the early part of April the demand in Europe for linseed was limited, and sea freights were unusually high, while up-country sellers held back for better prices than Calcutta offered. About the middle of the month the regular liners suddenly lowered their freights, and this brought about an immediate reaction in prices, followed to some extent by an improved supply. The Calcutta price-current reports after this state that "wild excitement" prevailed, and that so much as Rs. 4-9-6 per maund were paid for ready parcels, and exceptionally high prices were offered for early delivery lots; but even with this substantial rise sellers did not respond freely, and inferior crops and an anticipated scarcity prompted them to hold out for better prices.

During May, prices for linseed in Calcutta continued to rise, and so much as Rs. 5-1 per maund was reported to have been paid. In his report for June, 1889, the Traffic Manager, East Indian Railway, wrote as follows:—

"Throughout the month the prices in the Calcutta market for linseed were unusually high, rising from Rs. 4-14 to Rs. 5-4 per maund in sympathy with the home market, and at the same time steamer freights declined in favour of shippers from £1 6*s.* to £1 2*s.* 6*d.* in comparison with the freight at the same time last year, which never went below £1 5*s.*, and was generally quoted at from £1 6*s.* to £1 10*s.* In the previous month stocks were held back for better prices, and from the beginning of the month great excitement prevailed in Calcutta."

As regards mustard seed, the greatest falling off was in the despatches from *viâ* Mogulserai and Cawnpore and *viâ* Aligarh. The East Indian Railway Traffic report for May, 1889, contains the following remarks on the subject:—

"The demand for rape seed in Calcutta for local consumption also improved, but met with little response owing apparently to the failure of the crops. The demand in Bombay was poor, and stocks of mustard seed at Cawnpore were held back in the hope of a rise in the market."

GHEE.

Quantity of decrease ... 11,926 mds.
Percentage of do. ... 50·60

There was a decline in the despatches from Phaphund and other ghee-manufacturing stations in the North-Western Provinces, which formerly sent ghee in considerable quantities to Howrah. Calcutta now obtains its supply from stations nearer home.

4 In connection with the export trade, the principal items in which fluctuations were most conspicuous are as follows:—

EXPORTS.

Staples showing an increase on the returns of the quarter ending the 30th June, 1888.

GUNNY BAGS AND CLOTH.

Quantity of increase ... 55,793 mds.
Percentage of do. ... 8·19

The increase was principally in the despatches from Calcutta to meet an improved demand up-country for the new season's crops.

COPPER, UNWROUGHT.

Quantity of increase ... 17,636 mds.
Percentage of do. ... 2,332·80

In copper the fall in prices in the European markets resulted in a better traffic. The exports from Calcutta to the North-Western Provinces and Oudh and the Punjab rose from 271 maunds to 12,981 maunds, and from 184 maunds to 4,828 maunds, respectively.

SUGAR, UNREFINED.

Quantity of increase ... 17,859 mds.
Percentage of do. ... 23·90

The consignments of unrefined sugar from Behar to the North-Western Provinces and Oudh and the Central Provinces showed a rise of 14,066 maunds and 9,221 maunds, respectively.

TOBACCO, UNMANUFACTURED.

Quantity of increase ... 51,177 mds.
Percentage of do. ... 34·89

The tobacco crop in Behar was seriously injured by hailstorm in February last, but notwithstanding this fact the exports from that block to the North-Western Provinces increased by 32,569 maunds, and to the Central Provinces by 16,113 maunds.

Staples showing a decrease on the returns of the quarter ending the 30th June, 1888.

COAL AND COKE.

Quantity of decrease ... 86,149 mds.
Percentage of do. ... 4·66

The decrease in despatches of coal up-country was due to a limited demand from railways and mills. In the preceding quarter large supplies were sent upwards to meet the requirements of foreign railways and of the public generally.

RICE NOT IN THE HUSK.

Quantity of decrease ... 2,82,725 mds.
Percentage of do. ... 78·76

Last year the despatches were chiefly from Bengal to the North-West; this year nearly all loop line rice-producing stations failed, and stations from Gushkhara and below on the main line and a few stations on the lower end of the chord line sent their outturn to Calcutta During the quarter under review, the exports from Behar to the Upper Provinces amounted to only 5,078 maunds, against 29,267 maunds in the corresponding period of 1888, and the exports from Western Bengal to only 70,862 maunds, against 3,03,615 maunds.

IRON.

Quantity of decrease ... 63,268 mds.
Percentage of do. ... 34·96

The following remarks in the Report of the Traffic Manager, East Indian Railway, for June explain the cause of fluctuation under this head:—

"This decrease also was confined in a great measure to Howrah and *viâ* Chitpore, Barakár despatches falling considerably in addition. The demand up-country was very poor, and the Calcutta market was dull throughout the month. Last year, it will be remembered, considerable quantities of machinery were sent from Howrah for the cotton mills at Cawnpore, and the demand generally at up-country centres was good; Chitpore despatched machinery to Gwalior, and Agra sent old shot and shell, for which a specially reduced rate was quoted, to and *viâ* Delhi; the decrease is attributed in some degree also to the strike of cartmen in Calcutta."

SALT.

Quantity of decrease ... 24,743 mds.
Percentage of do. ... 21·81

The decrease occurred in the despatches from Calcutta to the North-Western Provinces and Oudh. The different districts which imported salt from Calcutta during the present quarter are named below, their supplies compared with the figures for the quarter ending the 30th June, 1888, being also given:—

Districts to which exported.	Exports from Howrah during the quarter ending the 30th June.		Districts to which exported.	Exports from Howrah during the quarter ending the 30th June.	
	1888.	1889.		1888.	1889.
	Mds.	Mds.		Mds.	Mds.
Goruckpore	41,568	49,912	Jounpore	6,830	.....
Busti	31,779	28,469	Fyzabad	3,861	.....
Baraich	2,376	3,310	Other districts in the N.-W. P. and Oudh ...	3,311	2,733
Gonda	10,989	1,504			
Futtehpore	.....	1,203			
Ghazipore	4,158	1,201	Total ...	1,08,139	88,593
Benares	3,267	271			

In his report for June, 1889, the Traffic Manager, East Indian Railway, observes as follows:—

"I have recently reported specially on the traffic in salt from Howrah, particularly in regard to despatches to the Bengal and North-Western Railway which have since improved. In 1888, Howrah recorded an increase over the corresponding periods of the two previous years, and I have not been able to ascertain that the falling off this year is due, in any measure as might have been supposed, to increased importations of Sambhar or Kharagoda salt to districts usually supplied by imported salt. Although we received much larger quantities from Cawnpore, Bombay, Baroda and Central India Railway to *viâ* Cawnpore, Oudh and Rohilkhund Railway, it was booked principally to Oudh and Rohilkhund Railway stations."

SPICES—CHILLIES.

Quantity of decrease ... 19,018 mds.
Percentage of do. ... 67·73

The decrease, which occurred chiefly in despatches of chillies from Tirhoot, Mokameh, and Patna, was owing to a poor crop. Last year there was an exceptionally good traffic under this head.

INTERNAL TRADE OF THE LOWER PROVINCES.

STATEMENT III.

5. The total quantity of the internal trade of Bengal during the quarter ending the 30th June, 1889, showed a rise of 16,71,914 maunds, or 11·35 per cent., in comparison with the corresponding period last year. The subjoined statement shows the net traffic carried both ways, and the proportion of the Calcutta traffic to the total trade:—

	Quarter ending the 30th June.		Calcutta.		Proportion of the Calcutta traffic to the total trade.	
	1888.	1889.	1888.	1889.	1888.	1889.
	Mds.	Mds.	Mds.	Mds.	Per cent.	Per cent.
Downward traffic	1,12,61,187	1,27,21,664	94,15,059	1,00,63,079	83·60	86·17
Upward „	34,70,242	36,81,679	26,84,922	23,09,444	77·37	62·73
Total ...	1,47,31,429	1,64,03,343	1,20,99,981	1,32,72,523	82·14	80·91

6. The noticeable fluctuations in the principal commodities carried down and up the line are explained below :—

DOWNWARD TRAFFIC.

Articles showing an increase as compared with the quarter ending the 30th June, 1888.

COAL AND COKE.

Quantity of increase ... 12,58,643 mds.
Percentage of do. ... 25·12

The large increase in the despatches of coal was chiefly due to the increased consumption of Indian coal by steamers, and to the despatches of Bengal coal to outports for steamer use in competition with English coal. In his report for June, 1889, the Traffic Manager, East Indian Railway, writes :—

"The increase in our downward coal traffic was due, as previously reported, to the greater consumption of Indian coal by sea-going steamers. We are now doing our utmost to encourage the export of Bengal coal to coast ports, and I trust our endeavours to foster the traffic will lead to still more encouraging results. Large quantities of coal for the Eastern Bengal State Railway and for the Kidderpore Dock works were sent down. Owing to the opening of the coal branch of the Bengal-Nagpore Railway, which we commenced to work on the 12th June, the despatches from Barakár fell off by maunds 65,850, but we received at Asansol from the Bengal-Nagpore Railway during the same period maunds 1,52,000."

TURMERIC.

Quantity of increase ... 10,023 mds.
Percentage of do. ... 57·46

An increase of 8,070 maunds is shown in the consignments to Calcutta from Eastern Bengal, and of 2,276 maunds in those from the Northern Bengal block.

RICE IN THE HUSK.

Quantity of increase ... 1,78,995 mds.
Percentage of do. ... 53·69

RICE NOT IN THE HUSK.

Quantity of increase ... 1,18,813 mds.
Percentage of do. ... 20·69

Last year stations on the loop line exported large supplies of rice to the North-West, where the demand for cheap food-grains was very strong. This year large quantities were despatched from the Hooghly and Burdwan districts to Calcutta. From Northern Bengal also Calcutta drew more largely than in the corresponding period of 1888.

OTHER FOOD-GRAINS.

Quantity of increase ... 35,652 mds.
Percentage of do. ... 44·08

As regards other food-grains, the increase was principally in the despatches of oats and other grains from Bhagulpore, Patna, and some adjacent stations in Behar to meet a demand in Calcutta.

HIDES OF CATTLE.

Quantity of increase ... 19,816 mds.
Percentage of do. ... 31·76

The increase was mainly in the importation into Calcutta from Behar (12,386 maunds) and Dacca (5,085 maunds).

JUTE, RAW.

Quantity of increase ... 48,816 mds.
Percentage of do. ... 19·34

The supplies carried to Calcutta from Northern Bengal and Dacca were in excess of the quantities sent in the corresponding quarter of last year by 67,122 maunds and 34,412 maunds, respectively.

LINSEED.

Quantity of increase ... 2,70,516 mds.
Percentage of do. ... 18·44

RAPE AND MUSTARD SEED.

Quantity of increase... 3,43,289 mds.
Percentage of do. ... 276·19

CASTOR SEED.

Quantity of increase ... 1,41,517 mds.
Percentage of do. ... 255·72

The increases were due to a good demand for these staples in the Calcutta market. In the case of linseed, Calcutta received more from Behar (43,371 maunds), Western Bengal (34,084 maunds), Eastern Bengal (1,82,144 maunds), and Northern Bengal (13,087 maunds) than in the corresponding quarter last year. Similar increases are also shown in the imports of mustard seed into Calcutta from those blocks, but as regards castor seed the supplies were largest from Behar alone.

SALTPETRE.

Quantity of increase ... 7,702 mds.
Percentage of do. ... 8·05

The increase occurred in the despatches from Tirhoot *viâ* Mokameh Ghât and Patna to meet a demand in Calcutta.

SUGAR, UNREFINED.

Quantity of increase ... 1,15,942 mds.
Percentage of do. ... 87·83

The increase was principally in despatches from Arrah and *viâ* Digha, whence considerable quantities of jaggree were sent to Calcutta.

STONE AND LIME.

Quantity of increase ... 81,291 mds.
Percentage of do. ... 34·97

During the quarter under review, Calcutta drew 35,495 maunds and 15,567 maunds more from Behar and Western Bengal, respectively, while the imports into Eastern Bengal from Behar showed a rise of 26,674 maunds.

Articles showing a decrease as compared with the quarter ending the 30th June, 1888.

WHEAT.

Quantity of decrease ... 8,45,376 mds.
Percentage of do. ... 69·95

The despatches of wheat from Behar and Eastern Bengal to Calcutta showed a falling off of 72·39 per cent. and 59·02 per cent., respectively. The fluctuations were due to poor crops during the season.

GRAM AND PULSES.

Quantity of decrease ... 2,62,602 mds.
Percentage of do. ... 36·91

Indifferent harvests also affected the despatches of gram and pulses to Calcutta and Western Bengal from the Behar block, the exports from which showed a decrease of 91,650 maunds and 62,620 maunds, respectively, in comparison with the figures for the corresponding period of 1888.

GUNNY BAGS.

Quantity of decrease ... 17,920 mds.
Percentage of do. ... 21·06

The falling off under this head occurred in the imports into Calcutta from Northern Bengal.

POPPY SEED.

Quantity of decrease ... 44,994 mds.
Percentage of do. ... 34·67

The importation into Calcutta from the Behar block showed a falling off of 45,681 maunds in comparison with the trade of the corresponding quarter last year.

UPWARD TRAFFIC.

Articles showing an increase as compared with the quarter ending the 30th June, 1888.

COAL AND COKE.

Quantity of increase ... 2,07,829 mds.
Percentage of do. ... 91·33

The chief increase occurred in the quantities carried to Northern Bengal and Behar from the Western Bengal block.

COTTON TWIST AND YARN, EUROPEAN. Quantity of increase ... 9,087 mds. Percentage of do. ... 46·50	The increase occurred in the exports from Calcutta to the Eastern Bengal, Northern Bengal, and Dacca blocks.
RICE IN THE HUSK. Quantity of increase ... 56,912 mds. Percentage of do. ... 253·86 **RICE NOT IN THE HUSK.** Quantity of increase ... 3,27,610 mds. Percentage of do. ... 75·77	Large supplies of rice and paddy went to Behar from the Western Bengal block for local consumption, in consequence of a scarcity of food-grains in that tract of country.
IRON. Quantity of increase ... 15,432 mds. Percentage of do. ... 13·41	An increase occurred in the consignments from Calcutta to almost all the blocks.
BETEL-NUTS. Quantity of increase ... 7,525 mds. Percentage of do. ... 41·15	The above remarks apply to this case also.

Articles showing a decrease as compared with the quarter ending the 30th June, 1888.

COTTON PIECE-GOODS, EUROPEAN. Quantity of decrease ... 7,039 mds. Percentage of do. ... 2·24	The decrease was principally in the consignments to Behar from Calcutta.
KEROSINE OIL. Quantity of decrease ... 21,412 mds. Percentage of do. ... 21·93	The falling off in the imports into Behar from Calcutta was 13,369 maunds, and into Northern Bengal, 8,622 maunds.
SALT. Quantity of decrease ... 2,34,095 mds. Percentage of do. ... 16·99	The exports of salt from Calcutta to Behar fell off by 27·71 per cent., to Eastern Bengal by 19·01 per cent., and to the Dacca block by 56·65 per cent.

APPENDIX.

Statement showing the average wholesale prices of articles of trade during the quarter ending the 30th June, 1889, as well as the rates of deduction made from the gross weight to obtain net weight.

RETURNS

OF THE

BY ORDER OF THE LIEUTENANT GOVERNOR OF BENGAL * FORWARDED

RAIL-BORNE TRADE OF BENGAL

For the quarter ending the 30th September 1889.

Calcutta:

PRINTED AT THE BENGAL SECRETARIAT PRESS.

1890.

RETURNS

OF THE

RAIL-BORNE TRADE OF BENGAL

During the quarter ending the 30th September, 1889.

RAILWAY FREIGHTS.

THE changes made by the East Indian Railway during the past quarter, as compared with the corresponding period in 1888, affected the following articles:—

1. Coal.
2. Cotton piece-goods.
3. Dyes and tans.
4. Jute, raw.
5. Gunny bags and cloth.
6. Metals.
7. Paper and pasteboard.
8. Salt.
9. Stone.

Coal.—During the quarter under report, this article was despatched in full truck loads from the Calcutta Coal Association siding and west Ghoosick siding to Howrah and all stations up to Memari inclusive, and to Ahmadpore and Nalhati, at the rate of Rs. 13-4 per 100 maunds. The rate on consignments to Naihati for through-booking with stations on the Eastern Bengal State Railway, except Sealdah, Chitpore, and the Port Trust Railway stations, was Rs. 11-4 per 100 maunds. No rate was quoted for this article in the quarter ending the 30th September, 1888. No change was made in rate of freight on coke.

Cotton piece-goods.—The charge on European and Indian goods carried from, and *viâ*, Cawnpore to Howrah, was reduced from Rs. 180 in August, 1888, to Rs. 178 per 100 maunds in August, 1889. This rate is exclusive of the Hooghly Bridge toll.

Dyes and tans.—During August and September, 1889, *Al* root, which is included under the head "other" dyes and tans, was carried from Cawnpore and Aligarh to, and from, the following stations at the rates given below:—

		For traffic from, or to, Ujiarpore and stations below.	For traffic from, or to, Somastipore and stations above, including Sonepore and stations on the Mozufferpore branch.
Viâ Digha Ghât.		Per 100 mds. Rs. A.	Per 100 mds. Rs. A.
From, and to, and *viâ*, Cawnpore	1888	46 0	46 0
	1889	42 0	42 0
Ditto ditto Aligarh	1888	68 0	68 0
	1889	64 0	64 0
Viâ Mokameh Ghât.			
From, and to, and *viâ*, Cawnpore	1888	57 0	57 0
	1889	52 0	53 0
Ditto ditto Aligarh	1888	79 0	79 0
	1889	74 0	75 0

The rates from Digha Ghât locally and from, and *viâ*, Patna were as follows:—

	1889.	1888. Digha Ghât.	1888. Patna.
	Per 100 mds. Rs. A.	Per 100 mds. Rs. A.	Per 100 mds. Rs. A.
To and *viâ* Cawnpore	47 0	50 0	48 0
Ditto Aligarh	69 0	72 0	70 0

Jute, raw.—During August and September, 1888, and 1889, raw jute, booked from the undermentioned stations on the Eastern Bengal State Railway to Howrah and Shalimar, was charged at the following rates per 100 maunds on the East Indian Railway:—

Stations.	August and September 1888.				August and September. 1889.			
	To Howrah.		To Shalimar.		To Howrah.		To Shalimar.	
	Per Drum.		Per Drum.		Per Drum.		Per Drum.

Discount was allowed (on the above rates) on pressed Jute, as follows:—

"Pucca" bales, averaging 5 maunds each ... . 30 per cent.
"Kutcha" bales, averaging 3½ maunds each, and measuring not more than 13½ cubic feet ... ... 25 do.
"Kutcha" bales, averaging 3 maunds each, and measuring not more than 13½ cubic feet ... ... 20 do.

The above rates were inclusive of the Hooghly Bridge toll: those quoted to Shalimar included the Port Trust Railway charge.

Gunny bags and cloth.—During the quarter under report, gunnies were charged at the special class B rate, viz., ¼ of a pie per maund per mile, subject to a minimum weight of 250 maunds per wagon. In the corresponding quarter in 1889, the charge on these articles was according to the actual weight carried.

Metals.—The rate of freight from Howrah to Delhi on machinery for cotton mills was reduced from Rs. 164-2 per 100 maunds in September, 1888, to Rs. 130 per 100 maunds in September, 1889.

Paper and pasteboard.—During August and September, 1889, pasteboard valued at less than Rs. 10 per maund, was carried from Howrah to, and *viâ*, Delhi at first class rates, viz., ⅓ of a pie per maund per mile on actual weight. In the corresponding months in 1888, second class rates were charged, viz., ½ a pie per maund per mile.

Salt.—During August, 1888 and 1889, salt was carried from Kheora *viâ* Ghaziabad to the undermentioned stations at the rates specified below:—

To	1888. Per 100 maunds.		1889. Per 100 maunds.	
	Rs.	A.	Rs.	A.
Patna	35	3	53	0
Gya	39	3	57	0
Bucktearpore	60	0	57	0
Jehanabad	60	0	59	0
Bela	61	0	59	0
Bhita	57	0	50	3

During September, 1888 and 1889, the following rates were charged:—

To	1888. Per 100 maunds.		1889. Per 100 maunds.	
	Rs.	A.	Rs.	A.
Tari Ghât ... ... / Gahmar	50	6	32	3
Mirzapore	44	0	30	3
Buxar	52	6	35	3
Chausa	51	6	34	3

Stone.—During August and September, 1889, stone was carried from Vindhyachal in the Central Provinces to the following places at the rates given below, at the risk of the owners. In the corresponding months in 1888, no rate was quoted:—

To	Per wagon load. Rs.
Howrah / Balliaghatta / Chitpore *viâ* Naihati	101
Munihari Ghât	83
Sahebgunge	68
Semaria Ghât	56
Mokameh Ghât	45
Digha Ghât	38
Patna Ghât	40
Sainthia	86

Loading and unloading at destination was affected by senders and consignees with the following exceptions, viz:—

The rates to Semaria Ghât included ferry and transhipment, but not unloading, charges, while the Munihari Ghât rate included unloading charges.

Any excess over 325 maunds loaded in the same wagon was charged in proportion to the wagon rate.

2. No changes in the rates of freight were made by any other railways in Bengal.

EXTERNAL TRADE OF THE LOWER PROVINCES.

STATEMENT II.

3. The total traffic carried during the quarter ending the 30th September, 1889, showed an advance of 2,37,778 maunds, or 5·27 per cent., in comparison with the corresponding period of 1887-88. The increase occurred chiefly under imports, which rose from 20,06,100 maunds to 22,96,925 maunds. As regards exports, there was a falling off of 53,047 maunds, or 2·14 per cent. In his report for July, 1889, the Traffic Manager, East Indian Railway, wrote as follows:—

"An increase in our goods traffic also, occurring at a time when we generally expect to see a falling off, was most satisfactory. With the exception of a serious decline in wheat, the increase extended to nearly all staples of importance, being especially noticeable under the heads of coal and coke, gram and pulses, minerals and seeds."

In respect of the traffic lifted during August, 1889, he made the remarks extracted below :—

"Although there was an increase in the weight carried, a small decrease is recorded in our earnings. Except the serious falling off in the two important staples "wheat" and "seeds," we have, in my opinion, little to complain of. The expectations of a brisk traffic, raised in the early part of the year, by report of bumper crops and consequent prosperity, have been dissipated by a poor outturn of oilseeds, and an inferior and deficient wheat harvest throughout the chief producing districts in the North-Western Provinces and Oudh. Our coal and stone traffic were particularly good, but unfortunately these staples do not yield such large returns as wheat and seeds."

The report for September, 1889, shows that the decrease under the head "Merchandise" was caused principally by a serious falling off in the principal items of produce traffic, viz., wheat, rice and seeds. In articles of import, the traffic generally was good.

4. The following important fluctuations in the imports occurred during the quarter under report :—

IMPORTS.

Staples showing an increase on the returns of the quarter ending 30th September, 1888.

RICE.

Quantity of increase ... 21,663 mds.
Percentage of do. ... 5,121·27

JOWAR AND BAJRA.

Quantity of increase ... 20,681 mds.
Percentage of do. ... 5,442·37

GRAM AND PULSES.

Quantity of increase ... 4,48,599 mds.
Percentage of do. ... 507·40

OTHER FOOD-GRAINS.

Quantity of increase ... 60,254 mds.
Percentage of do. ... 32·85

These advances are in continuation of the increased traffic in food-grains referred to in the previous quarter's report. Concerning gram and pulses, the following account is given in the Traffic Manager's Report for July, 1889 :—

"This large increase consisted chiefly of gram and the description of *dall* known as *arhar* consigned from stations in the Delhi, Aligarh, and Agra districts to Calcutta, where the demand for local consumption, referred to in my last monthly report, continued. The pulse crops in the districts named are reported to have been good: a demand also sprung up in Tirhoot, where there is a scarcity, and several stations commenced consigning to Mozufferpore and other Tirhoot State Railway stations in response."

As regards "other" or miscellaneous food-grains, the increase was chiefly in oats and barley carried over longer leads to Calcutta and Tirhoot *viâ* Moghulsarai, the former importing from the North-Western Provinces and Oudh and the Punjab, and the latter from the North-Western Provinces and Oudh alone.

LINSEED.

Quantity of increase ... 1,19,320 mds.
Percentage of do. ... 25·50

Notwithstanding the poor outturn of oilseeds in the Upper Provinces, the high prices for linseed in the Calcutta market and the high steamer freights referred to in the report of the previous quarter, continued during the preceding three months, which stimulated the imports of this article into Calcutta from the North-Western Provinces and the Punjab. In the report for July, 1889, the Traffic Manager, East Indian Railway, writes :—

"At the beginning of the month exceptionally high prices were paid in Calcutta for linseed, but these were not maintained, although on the 27th July it was reported that there was 'a strong market with indications of a further advance.' Between the 29th of June and the 27th of July, the freight on linseed for shipment *viâ* the Canal rose from £1 3*s.* 9*d.* to £1 15*s.* 6*d.*"

In the following month it was reported that linseed was selling in Calcutta at nearly 25 per cent. above its normal value in times of abundance. In September, 1889, the Calcutta prices were better than in the corresponding period of 1888, as will be seen from the following comparison of prices :—

Linseed, small to medium, 4 per cent. to 6 per cent. refraction.

	1888.		1889.	
	Rs.	A.	Rs.	A.
Week ended 7th September	4	4	5	2
" 17th "	4	5	5	0
" 24th "	4	6	5	2

GHEE.

Quantity of increase ... 7,286 mds
Percentage of do. ... 43·24

The increase for the most part occurred in September, 1889, when the demand for ghee in Calcutta was good in anticipation of the Doorga Poojah holidays, and supplies were drawn to a greater extent than in the corresponding period of 1888 from the ghee-producing districts in the North-Western Provinces. It was stated that Etawa, with a decrease of 500 maunds in weight despatched, showed larger earnings by Rs. 1,000, the Calcutta consignments having increased at the expense of Bombay.

STONE AND LIME.

Quantity of increase ... 20,295 mds.
Percentage of do. ... 19·85

The increase under this head is due to Behar, having imported 18,801 maunds more from the North-Western Provinces than in the corresponding period last year, and 6,270 maunds more from the Central Provinces.

In connection with the lime trade, the Traffic Manager, East Indian Railway, wrote in August last as follows:—

"From Katni, lime is also sent in large quantities to Calcutta, and to wherever there is a demand. The traffic has improved generally, the Katni lime being considered superior to other kinds is now consigned over long distances in all directions."

SUGAR, UNREFINED.

Quantity of increase ... 23,242 mds.
Percentage of do ... 471·92

Calcutta received a large supply of the cheaper quality of sugar despatched from the North-Western Provinces *viâ* Moghulsarai for export to England, and Behar also drew largely from the same source.

Staples, showing a decrease on the returns of the quarter ending the 30th September 1888.

COTTON, RAW.

Quantity of decrease ... 4,184 mds.
Percentage of do. ... 13·17

This is an ordinary fluctuation, the exports from the North-Western Provinces and Oudh showing the largest decrease. The East Indian Railway Traffic Report for September, 1889, states that there was little or no cotton of the old crop available for despatch, and the new crop had not been picked before the close of the month.

WHEAT.

Quantity of decrease ... 1,65,692 mds.
Percentage of do. ... 27·94

The decrease is attributable to the failure of the wheat crops in the season 1888-89. The falling off occurred in the supplies sent from the North-Western Provinces and Oudh to Calcutta, where prices offered in July last were almost nominal, and there was practically no demand. There was no improvement in the following month, as will be seen from the extract given below from the Traffic Manager's report for August, 1889:—

"The continued decrease in wheat can only be ascribed to the indifferent crops, the high prices prevailing up-country, and the absence of demand for Indian wheat in the European markets. The *Englishman* of the 13th September reports 'the price of wheat has remained at a level which has reduced exports to very small proportions. From Bombay we hear that a dull tone has characterized the market there. In England the prospects of the harvest were reported good.

"The following, an extract from the *Economist* of the 7th September last, is interesting as bearing on the subject of wheat exports from India.—

'*Exports of wheat from India.*

'For some time past the imports of wheat into the United Kingdom from India have been declining, and as the following official figures show, there has also been a diminution in the exports of wheat from India to nearly all other countries, but especially to France:—

Exports of wheat from India in the quarter ended June 30th.

	1889.	1888.	1887.
	Cwts.	Cwts.	Cwts.
United Kingdom ..	1,807,957	2,797,145	3,959,868
Belgium ...	268,298	951,800	395,118
France .	660,034	1,781,377	1,448,509
Holland ...	55,000	...	44,529
Italy ...	207,172	643,885	1,935,327
Spain ...	16,976	26,001	135,368
Egypt ...	500,106	513,591	497,230
Arabia ...	48,292	59,731	68,622
Other countries ...	83,655	29,106	52,772
Total ...	3,646,590	6,785,636	8,537,342

WHEAT—*concld*

"The decline in the case of the United Kingdom is small as compared with that shown in the case of France and Belgium, to which countries an exceptionally large amount of wheat was exported in 1888. There is also a heavy falling off in the exports to Italy, but in the case of Italy, last year's totals were comparatively small, 1887 having been the 'bumper' export year to that country. Although in many respects Indian wheat, like the better class Russian grain, is especially well suited for many consumptive purposes on the Continent, it is evident that its use depends to a large extent upon prices, which are determined by the character of the crops."

In September, 1889, however, the despatches to Calcutta from Delhi and the North-Western Railway "were 75,475 maunds as compared with 1,000 maunds in September, 1888, but the imports were principally for local consumption, the total exports having been 2,350 tons (63,972 maunds) only."

MUSTARD SEED.

Quantity of decrease ... 1,41,219 mds.
Percentage of do. ... 64·99

POPPY SEED.

Quantity of decrease ... 11,488 mds.
Percentage of do. ... 17·00

CASTOR SEED.

Quantity of decrease ... 18,559 mds.
Percentage of do. ... 53·22

OTHER OILSEEDS.

Quantity of decrease ... 70,985 mds.
Percentage of do. ... 95·54

Owing to poor crops, the exports of mustard seed from the North-Western Provinces fell off by 1,35,371 maunds, viz. by 75,057 maunds to Calcutta, by 56,816 maunds to Western Bengal, and by 3,498 maunds to Behar.

The falling off in the case of poppy, castor, and other oilseeds also occurred in the supplies drawn from the North-Western Provinces.

5. The following were the more important fluctuations in connection with the export trade during the quarter under review :—

EXPORTS.

Staples showing an increase on the returns of the quarter ending the 30th September, 1888.

COAL AND COKE.

Quantity of increase ... 1,20,066 mds.
Percentage of do. ... 8·06

A good business was done in coal during July and August, but there were smaller despatches in September last. The following remarks made by the Traffic Manager, East India Railway, in his report for July, 1889, is worthy of notice :—

"Our coal traffic in both directions was good. The increase in upwards despatches was chiefly from Asansol to Moghalsarai for the Oudh and Rohilkhand Railway and from Giridih to Agra for the Bombay, Baroda, and Central India Railway, to Ghaziabad *viâ* East Indian Railway for the North-Western Railway, and to Saharanpur *viâ* Moghalsarai for the same Railway.

"During the period under review it was noticed that coal for the North-Western Railway was being consigned *viâ* Moghalsarai instead of *viâ* Ghaziabad, the charge by the former route being less owing to the slight difference in distance, the rate at which State Railway coal is charged now is the same over this, the Oudh and Rohilkhand and North-Western Railways and *viâ* the two routes compares as under :—

	Rs.	A.	P.
Giridih to Ghaziabad at $\frac{1}{10}$ pie per maund per mile	41	0	0
Ghaziabad to Saharanpur at $\frac{1}{10}$ pie per maund per mile	5	2	0
Total ...	46	2	0
Giridih to Moghal Sarai at $\frac{1}{10}$ pie per maund per mile	16	0	0
Moghal Sarai to Saharanpur at $\frac{1}{10}$ pie per maund per mile	28	0	0
Total ...	44	0	0

As reported at the time, despatches *viâ* the new route commenced from the 14th of July, and up to the 27th idem over 45,000 maunds had been invoiced by Giridih to *viâ* Moghalsarai. Our loss on each 100 maunds carried being equal to Rs 25.

"In coal for the public consigned *viâ* Digha and to Cawnpore there was also an increase."

In his report for September, 1889, however, the Traffic Manager wrote as follows :—

"In the upward traffic the decrease was due to smaller despatches than in 1888 on account of foreign railways, notably the Oudh and Rohilkhand, the Indian Midland, and the Bombay, Baroda, and Central India Railways. The Bengal and North-Western Railway also sent limited orders on account of poor traffic. The takings of Umaria coal by the Indian Midland Railway increased at the expense of the Bengal coal fields.

"The following statement shows the despatches of Umaria coal during the corresponding periods of 1888 and 1889 :—

	1888. Mds.	1889. Mds.
For Jubbulpore and beyond chiefly for the Great Indian Peninsula and Indian Midland Railways	64,230	75,996
For Manikpur and *viâ* for the Indian Midland Railway ...	.....	5,445
For other stations	816	8,059

COPPER, UNWROUGHT.

Quantity of increase ... 17,864 mds.
Percentage of do. ... 998·54

The demand for copper was at the principal trade centres of the North-Western Provinces and the Punjab, and was met by Calcutta. In the East Indian Railway Traffic Report for August, 1889, it was stated that "the demand up-country was good, and in Calcutta prices were reasonable, and a fair business was done." The copper trade has been steadily reviving since the previous quarter under the decline of prices in England.

IRON.

Quantity of increase ... 26,128 mds.
Percentage of do. ... 21·39

A large quantity of tramway materials were sent to Shahjahanpore from Howrah, and iron pipes and machinery also were sent in August last for the Agra Water-works, as the following extract will show—

"A Calcutta firm assisted by the special rates we quoted was happily able to secure the contract for supplying the iron pipes and machinery required for the Agra Water-works scheme, and to this circumstance the increase in despatches from Howrah was due."

KEROSINE OIL.

Quantity of increase ... 20,818 mds.
Percentage of do. ... 42·08

The increase occurred in the exports from Calcutta to the North-Western Provinces and Oudh. The condition of this trade is thus described by the Traffic Manager, East Indian Railway, in his report for July, 1889.

"The traffic in kerosine oil from Howrah and Calcutta which has latterly been in a somewhat normal state, improved by nearly 10,000 maunds, although there was at the same time an increase of over 6,000 maunds in despatches by river steamer to Patna, the difference in rates being equal to Rs. 11-8-0 per 100 maunds in favour of the steamer companies. It will be remembered that last year also in the corresponding period there was an increase over the previous year's despatches, and it is satisfactory to note the gradual development of this traffic owing to the favourable rates quoted by us and to the circumstance that kerosine is, by reason of its cheapness and the better light it affords, steadily replacing castor oil, even in the most remote villages."

SUGAR, REFINED.

Quantity of increase ... 10,377 mds.
Percentage of do. ... 149·85

The *jaggree* season commenced in September, 1889, and will last up to April, 1890. In the present case the increase occurred in the despatches from Howrah to the North-Western Provinces.

TOBACCO.

Quantity of increase ... 12,749 mds.
Percentage of do. ... 48·42

The increase was principally in despatches from Mokameh, Barh, Patna, and the Tirhoot State Railway to Hathras, and the Great Indian Peninsula Railway.

Staples showing a decrease on the Returns of the quarter ending the 30th September, 1888.

PADDY.

Quantity of decrease ... 7,513 mds.
Percentage of do. ... 77·84

RICE.

Quantity of decrease ... 2,16,128 mds
Percentage of do. ... 81 33

GRAM AND PULSES.

Quantity of decrease ... 17,316 mds.
Percentage of do. ... 97·13

The large decrease shown under rice need cause no apprehension, as the traffic under this head last year was stimulated by abnormal causes, which did not exist in the present quarter. The falling off under gram and pulses occurred in the despatches from Behar to the North-Western Provinces.

GUNNY BAGS AND CLOTH.

Quantity of decrease ... 27,500 mds.
Percentage of do. ... 32·68

The decrease may be attributed to the poor business in wheat and seeds. The fluctuations were principally in despatches from Howrah and Bhuddressur to Cawnpore City, Delhi and stations in the Punjab. As regards the latter stations, it is stated that there was a brisk traffic in September 1888 in wheat for Bombay, the demand for bags being met from Howrah.

SUGAR, UNREFINED.

Quantity of decrease ... 12,627 mds.
Percentage of do. ... 64·73.

The supply carried to the North-Western Provinces and Oudh from Behar showed a falling off of 8,955 maunds, and from Calcutta of 2,116 maunds.

INTERNAL TRADE OF THE LOWER PROVINCES.

STATEMENT III.

6. The gross traffic registered during the quarter ending the 30th September, 1889, was 2,08,533 maunds, or 1·32 per cent. in excess of the figures for the corresponding period of 1888, the increase being observable both in the downward and upward trade. The net quantity carried both ways, and the proportion of the Calcutta trade to the total traffic, are shown in the subjoined statement:—

	Quarter ending 30th September.		Calcutta traffic.		Proportion of Calcutta traffic to the total trade.	
	1888.	1889.	1888.	1889.	1888.	1889.
	Mds.	Mds.	Mds.	Mds.	Per cent.	Per cent.
Downward traffic	1,31,69,504	1,32,73,566	1,16,23,952	1,17,00,928	88·26	88·83
Upward ,, ...	26,67,461	27,71,932	19,35,861	19,47,009	72·57	70·27
Total ...	1,58,36,965	1,60,45,498	1,35,59,813	1,37,38,837	85·62	85·62

7. It will be seen that the proportion of the Calcutta trade to the total traffic was exactly the same as in the quarter ending the 30th September, 1888. The causes of the fluctuations in the principal articles of traffic are given in the statements below:—

DOWNWARD TRAFFIC.

Articles showing an increase as compared with the quarter ending the 30th September, 1888.

COAL AND COKE.

Quantity of increase ... 1,85,034 mds.
Percentage of do. ... 3·30

As explained in previous returns, the increase in downward despatches was due to the continued demand for Bengal coal for shipment to coast ports.

RICE.

Quantity of increase ... 94,220 mds.
Percentage of do. ... 32·10

PADDY.

Quantity of increase ... 1,72,758 mds.
Percentage of do. ... 452·49

In the case of the East Indian Railway the increase under rice and paddy was almost entirely confined to short lead traffic from the districts between Raneegunge and Hooghly to Calcutta. The better kind of rice grown in Eastern Bengal was exported from Calcutta in large quantities to the West Indies, Jedda and other coast ports, and this resulted in a demand for the poorer description of rice for local consumption, which was met principally by Burdwan, Raneegunge and adjacent stations.

On the Eastern Bengal State Railway, however, the figures under rice showed a decrease of 90,964 maunds in the consignments to Calcutta from the Eastern and Northern Bengal block, while in the case of paddy, there was an increase of 53,457 maunds in the despatches from Northern to Eastern Bengal.

HIDES.

Quantity of increase ... 16,858 mds.
Percentage of do. ... 34·49

As in the preceding quarter, the increase occurred in the consignments sent to Calcutta from Behar and Dacca.

MUSTARD SEED.

Quantity of increase ... 3,27,477 mds.
Percentage of do. ... 311·52

CASTOR SEED.

Quantity of increase ... 95,029 mds.
Percentage of do. ... 390·42

Large quantities of mustard seed were sent to Calcutta from all parts of the Lower Provinces. On this subject, the Traffic Manager, East Indian Railway, in his report for July, 1889, writes—

"In the mustard and rape seed the net increase amounted to maunds 1,35,060 and Rs. 15,540. The month opened with a very excited market in Calcutta, and the excitement continued throughout the period under review. An extensive business in rape seed passed, but steamer freights were abnormally high, and this coupled with poor supplies checked what otherwise would have been an exceptionally heavy traffic. The steamer freights *viâ* Canal rose to as much as from £1 15*s*. to £2. *Viâ* Mokameh and *viâ* Digha contributed most towards the increase in despatches to Calcutta.

"In other seeds there was a considerable advance, chiefly in castor and poppy seed received from the Tirhoot State Railway at Mokameh Ghât and from the Bengal and North-Western Railway at Digha."

STONE AND LIME.

Quantity of increase ... 2,15,967 mds.
Percentage of do. ... 146·63

The lime traffic showed a substantial advance: it consists for the most part of ghooting lime consigned from Ondal and Ranigunge. This lime is used largely in connection with the Kidderpore Dock Works.

As regards stone, there were large despatches for municipal purposes from Pakur to Calcutta. Formerly, this article used to be carried by river, but it has recently been attracted to the railway in consequence of a special reduction of freight.

TOBACCO, UNMANUFACTURED.

Quantity of increase ... 35,162 mds.
Percentage of do. ... 27·56

The increase in the imports into Calcutta from Northern Bengal was 31,161 maunds, and from Behar 198 maunds. In his report for August, 1889, the Traffic Manager, East Indian Railway, observes as follows:—

"The bulk of the traffic was in Tirhoot tobacco received *viâ* Mokameh Ghât, but there was also a substantial increase in Purneah tobacco received *viâ* Sahebgunge, and in Maldah tobacco received *viâ* Rajmehal. The rates for tobacco from Purneah are now having attention, as the extension of the Assam-Behar State Railway has opened an alternative route to Calcutta, although present rates are somewhat in favour of the Eastern Bengal State Railway route. Enquiry shows that merchants have hitherto preferred consigning *viâ* the East Indian Railway, which is the shorter and, therefore, in our view the legitimate route for the traffic to follow. It is doubtful whether any reduction in our rates is needed at present, but I will shortly report specially on this subject."

Articles showing a decrease as compared with the quarter ending the 30th September, 1889.

COTTON, RAW.

Quantity of decrease ... 10,520 mds.
Percentage of do. ... 75·32

The cotton crop in the Chittagong Hill Tracts was very poor owing to the unusual distribution of the rainfall in 1888-89, and hence the decline in the imports into Calcutta from Dacca during the quarter under review.

WHEAT.

Quantity of decrease ... 5,55,493 mds.
Percentage of do. ... 80·00

The wheat harvest in the Patna and Bhagulpore Divisions was very poor, the average outturn being 10 annas in each. In his report for July, 1889, the Traffic Manager observed that "the falling off was general throughout the system, but especially at Digha Ghât, where nearly a third of the total decreased weight was registered." The condition of the Calcutta trade in this staple has already been explained in the section reviewing the external trade of these provinces.

GRAM AND PULSES.

Quantity of decrease ... 2,04,218 mds.
Percentage of do. ... 56·96

The decrease occurred in the despatches to Calcutta from Behar and Eastern Bengal. Pulses yielded a good outturn in Bengal, but not in Behar. The East Indian Railway traffic report for September, 1889, showed that—

"The despatches from stations in the Sahebgunge and Dinapore districts showed a falling off, partly owing to poor crops, and partly because surplus stocks were in demand in the Tirhoot districts on the opposite side of the Ganges and were despatched there by country boats."

IRON.

Quantity of decrease ... 14,576 mds.
Percentage of do. ... 38·15

The decrease is attributable to a falling off in despatches to Calcutta from the Government Iron Works at Barakar.

LINSEED.

Quantity of decrease ... 2,19,210 mds.
Percentage of do. ... 17·93

TIL OR JINGILI.

Quantity of decrease ... 33,722 mds.
Percentage of do. ... 80·78

POPPY.

Quantity of decrease ... 56,642 mds
Percentage of do. .. 59·03

The outturn of oilseeds generally fell short of the average. As regards linseed, the Calcutta imports fell off by 1,84,283 maunds from Behar, and by 34,662 maunds from Eastern Bengal. The traffic report for August last shows that the falling off in seeds was chiefly from Patna, from which station, in consequence of the dulness of the Calcutta market, dealers despatched some consignments by river steamers, the speedier transit by rail being under the circumstances of no avail.
The decrease under til seed occurred in the consignments to Calcutta from Eastern and Northern Bengal, and that under poppy seed from Behar alone.

UPWARD TRAFFIC.

Articles showing an increase as compared with the quarter ending the 30th September, 1888.

COAL AND COKE.

Quantity of increase ... 69,879 mds.
Percentage of do. ... 73·59

Increases were shown in the traffic from Ondál in the Burdwan district, owing to despatches by the Bengal Coal Company to Sahebgunge for the Assam-Behar State Railway.

COTTON TWIST AND YARN, EUROPEAN.

Quantity of increase ... 10,421 mds.
Percentage of do. ... 54·15

In the previous quarter there was a substantial increase under this head, but in the present quarter the quantities carried to Northern Bengal from Calcutta showed an advance of 2,922 maunds, and to Dacca of 4,686 maunds.

IRON.

Quantity of increase ... 16,060 mds.
Percentage of do. ... 16·59

There were increases in the consignments to Behar and Western Bengal from Calcutta. The Traffic Manager, East Indian Railway, reported in September last that, in competition with the steamer company, specially reduced rates were quoted for these materials between Howrah and Patna, and to this may be attributed the increased imports into Behar.

SALT.

Quantity of increase ... 23,027 mds.
Percentage of do. ... 2·76

The exports of salt from Calcutta to Behar showed an advance of 34,635 maunds or 7·35 per cent., to Western Bengal of 14,126 maunds or 12·78 per cent., and to Eastern Bengal of 4,530 maunds or 5·31 per cent. The bulk of the Behar supply went principally to stations below Patna, to *viâ* Digha Ghât, and *viâ* Mokameh Ghât.

Articles showing a decrease as compared with the quarter ending the 30th September, 1888.

COTTON PIECE-GOODS, EUROPEAN.

Quantity of decrease ... 6,544 mds.
Percentage of do. ... 2·38

There were decreases in the exports to Behar and Eastern Bengal from Calcutta against an increase in the supplies carried to the Dacca Block. In Calcutta, the business done is reported to have been but small, the demand for piece-goods being affected by the poor outturn of the grain crop.

PADDY.

Quantity of decrease ... 12,218 mds.
Percentage of do ... 18·67

RICE.

Quantity of decrease .. 42,319 mds.
Percentage of do. ... 7·34

There was a considerable movement of rice last year from Howrah and from Loop-line stations to the Dinapore district to meet demands owing to local scarcity. There being no such demand this year, the exports from Calcutta to Behar showed a falling off of 72,428 maunds. On the other hand, large supplies of rice were sent to Behar from Western Bengal to meet the demands of the North Gangetic districts of Behar.

GUNNY BAGS AND CLOTH.

Quantity of decrease .. 13,356 mds.
Percentage of do. ... 22·45

The decrease occurred in the exports from Calcutta to Behar, owing to poor business being done in the wheat and seed trade.

KEROSINE OIL.

Quantity of decrease ... 11,261 mds.
Percentage of do. ... 10·41

The decrease occurred in the despatches from Calcutta to Behar, but there were increases shown in the consignments to the Western, Eastern, and Northern Bengal Blocks.

APPENDIX.

Statement showing the average wholesale prices of articles of trade during the quarter ending the 30th September, 1889, as well as the rates of deduction made from the gross weight to obtain net weight.

Articles.		Rates of deduction.	Rates of value per maund.

RETURNS

OF THE

RAIL-BORNE TRADE OF BENGAL

For the quarter ending the 31st December 1889.

Calcutta:
PRINTED AT THE BENGAL SECRETARIAT PRESS.
1890.

RETURNS

OF THE

RAIL-BORNE TRADE OF BENGAL

During the quarter ending the 31st December, 1889.

RAILWAY FREIGHTS.

For the purposes of these returns, the articles of which the rates of freight were changed by the East Indian Railway during the quarter under review, as compared with the corresponding period in 1888-89, are specified below :—

1. Coal.	8. Iron.
2. Cotton, raw.	9. Kerosine oil.
3. Cotton manufactured.	10. Ghee.
4. Myrabolams.	11. Salt.
5. Food-grains and oil-seeds.	12. Spices.
6. Hides.	13. Stone.
7. Jute, raw.	14. Tobacco.

Coal.—This article was carried in full truck loads during the quarter from the Damooda coal siding to Howrah and all stations up to Memari, inclusive and to Ahmadpore and Nalhati, at the rate of Rs. 13-4 per 100 maunds. For consignments to Nalhati for through-booking to all stations on the Eastern Bengal State Railway, except Sealdah, Chitpore and the Port Trust Railway stations at Ruthtollah, Armenian Ghât, Cossipore, and the Jetties, the charge was Rs. 11-4 per 100 maunds. No rates were quoted in the corresponding quarter in 1888-89. No alteration was made during the present quarter in the rate of freight on coke.

Cotton, raw.—During November and December, 1889, raw cotton in bales weighing 400lbs. booked from, and *viâ*, Ghaziabad to Howrah for traffic from Saharunpore and stations above, was carried at the rate of Rs. 5-2, against Rs. 5-8 4 per 100 maunds in the corresponding months in the third quarter of 1888-89.

Cotton, manufactured.—The charge per 100 maunds on European cotton piece-goods and twist and yarn in bales (pressed and bound) or in boxes, from Howrah to and *viâ* Hathras, was reduced from Rs. 225 in December, 1888, to Rs. 219 in December, 1889. This charge was exclusive of the Hooghly Bridge toll. The freight on piece-goods carried between Howrah and Delhi and *viâ* Delhi was Rs. 238-9-4 against Rs. 241 per 100 maunds.

Dyes and tans.—During December, 1889, myrabolams when booked for distances of not less than 400 miles to Cawnpore in wagon loads of 270 maunds were charged at the special class B rate, viz., ¼ of a pie per maund per mile, against the 1st class rate of ⅓ of a pie per maund per mile in December, 1888, the differential * rule applying.

Food-grains and oil seeds.—During October, 1889, these staples were conveyed the through-distance from Saharunpore to Howrah *viâ* Moghalserai at the rate of Rs. 68 per 100 maunds. From Ghaziabad to Howrah for traffic from Saharunpore and stations above, the charge was Rs. 53-6-8 against Rs. 53 in the quarter ending the 31st December, 1888. In the case of consignments to Howrah, the special class condition, requiring bags not to exceed 2 maunds 22 seers in gross weight, was removed during November, 1889. Grain and seeds from and *viâ* Sahebgunge to Howrah for traffic from Raiganj and from Barsoe were charged respectively at the rate of Rs. 16-4-4 and Rs. 18-6-4 in

* *Differential rule.*—"When goods of the same description are charged at different rates according to distance or weight to be carried, the charge for the lesser distance or weight should never exceed the charge for the greater distance or weight, the lesser being included in the greater, except when otherwise provided."

December, 1889, against Rs. 21 per 100 maunds in December, 1888. The special class conditions relating to the maximum weight per bag, &c., were removed on consignments booked at these rates which were charged on the actual weight.

Hides.—During December, 1889, dry hides in bundles booked at owner's risk, from Khandwa and beyond to Howrah *viâ* Jubbulpore, were charged over the East Indian Railway at 3 annas per wagon per mile, irrespective of the quantity loaded, against Rs. 102 per 100 maunds for the entire distance in December, 1888.

Jute, raw.—The following rates were charged for raw jute booked from and *viâ* Sahebgunge to the under-mentioned stations during December, 1888, and December, 1889:—

To	December 1888.						December 1889.					
	Pressed.			Unpressed.			Pressed.			Unpressed.		
	Per 100 maunds.			Per 100 maunds.			Per 100 maunds.			Per 100 maunds.		
	Rs.	A.	P.	Rs.	A.	P.	Rs.	A.	P.	Rs.	A.	P.
Howrah ...	23	0	0	30	10	8	18	0	0	31	0	0
Bhadreswar ...	26	0	0	30	0	0	17	0	0	30	0	0
Patna Ghât ...	24	0	0	24	10	8	14	0	0	25	0	0
Cawnpore ...	53	0	0	73	5	4	42	0	0	73	0	0

Iron.—The rate of freight on iron or earthenware pipes for water-works despatched from Howrah to Allahabad during the quarter under report was reduced from Rs. 73 to Rs. 70 per 100 maunds. This charge was exclusive of the Hooghly Bridge toll. On unwrought iron booked from Howrah to Raiganj the charge in December, 1889, between Howrah and Sahebganj Ghât, was Rs. 36-1-8, against Rs. 40 per 100 maunds in December, 1888. Iron and steel of different descriptions were carried from Howrah to and *viâ* Hathras at Rs. 77-8, against Rs. 79 per 100 maunds in December, 1888. Iron beams, wrought iron, girders and joists, nails, plates and sheets, bolts and fastenings were charged at Rs. 73-5 4, against Rs. 79 per 100 maunds. These charges were exclusive of the Hooghly Bridge toll.

Oils.—During the quarter under review, kerosine oil in consignments of 300 maunds or multiples thereof from Howrah to Sahebgunge was charged at the rate of Rs. 22 per 100 maunds, and at Rs. 24-3 per 100 maunds when the consignments consisted of less than 300 maunds. In the corresponding quarter in 1888-89, the rates were Rs. 25 and Rs. 40 per 100 maunds, respectively. This oil re-booked from Sahebgunge for stations on the East Indian Railway, and when booked from stations between Sahebgunge and Luckeeserai and between Jamtara and Buxar, including the Gya line, was charged at 5th class rates, viz., 1 pie per maund per mile in local booking only, against ½ a pie per maund per mile in the quarter ending 31st December, 1888. In November, 1889, oil flashing at and above 73° (Fahrenheit) Abel's test, securely packed at owner's risk and despatched from Howrah to the following places was charged at the rates mentioned below, which are exclusive of the Hooghly Bridge toll:—

	1888.				1889.			
	To Shahebgunge. Per 100 maunds.		To Hathras. Per 100 maunds.		To and *viâ* Shahebgunge. Per 100 maunds.		To and *viâ* Hathras. Per 100 maunds.	
	Rs.	A.	Rs.	A.	Rs.	A.	Rs.	A.
In consignments under 300 maunds ...	40	0	115	8	24	3	117	8
Ditto in multiples of 300 maunds or over	25	0	110	0	22	0	107	0

Any quantity in excess of 300 maunds loaded in the same wagon was charged at the lower rate. In December, 1889, the charge on despatches from Howrah to and *viâ* Hathras, exclusive of the Hooghly Bridge toll, was Rs. 103-14-4 per 100 maunds. The rates in force in December, 1888, were the same as those shown above for November, 1888.

Ghee.—The following rates were charged during the quarters ending 31st December, 1888, and 31st December, 1889, on:—

During the quarter ending 31st December, 1889.	*During the quarter ending 31st December, 1888.*	
In barrels, tubs, iron drums, and tins with secure outer cases, at railway risk, at 3rd class rates, viz., ⅛ of a pie per maund per mile.	In barrels, tubs, iron drums and secure outer cases ...	2nd class rates.
In barrels, tubs, iron drums, and tins with or without outer cases, carried distances under 150 miles, at owner's risk, at 2nd class rates, viz., ¼ a pie per maund per mile.	In barrels, tubs, iron drums and secure outer cases when carried 150 miles and under, at owner's risk ...	1st ditto.
In barrels, tubs, iron drums, and tins with or without outer cases, carried 150 miles and over, at owner's risk, at 1st class rates, viz., ⅛ of a pie per maund per mile.	In tins for distances of 150 miles and over, at owner's risk	1st ditto.
In coopahs, at railway risk, at 3rd class rates.	In coopahs at owner's risk ...	2nd ditto.
Ditto at owner's risk, at 2nd ditto.	Ditto in tins at railway risk	3rd ditto.

Salt.—During December, 1889, salt was carried between Howrah and Sahebganj Ghât at Rs. 16-12-8, against Rs. 17-3 per 100 maunds in December, 1888.

Spices.—Cloves and pepper despatched from Howrah to Delhi were charged during December, 1889, at Rs. 279-3-4, against Rs. 333 per 100 maunds in December, 1888. Cloves, pepper and peepul (or long pepper) and spices not otherwise specified were carried from Howrah to and *viâ* Hathras, exclusive of the Hooghly Bridge toll, at Rs. 251-10-4 against Rs. 300 per 100 maunds in December, 1888.

Stone.—Stone ballast from Assansol to Howrah and from Pakur to Boinchee, Pandooah, Magra, Hooghly and Singhur was carried at owner's risk during the quarter under report at 3 annas per wagon load per mile. During December, stone when carried at owner's risk for distances exceeding 100 miles was charged at 3 annas per wagon per mile. Loading and unloading was effected by senders and consignees. During November, 1889, slates, packed or unpacked, and conveyed at owner's risk from Dharhara to Howrah, were charged on actual weight at 1st class mineral rates. During December, 1889, the charge was as follows:—

Stone of any description (including kunker and ballast) not packed, carried at owner's risk, subject to a minimum of 250 maunds per wagon.	Under 150 miles, 25 pies per 100 maunds per mile. Over 150 and under 300 miles, 20 pies per 100 maunds per mile. Over 300 miles, 16·66 pies per 100 maunds per mile.

Tobacco.—Native unmanufactured tobacco was carried in December, 1889, from and *viâ* Sahebgunge to Howrah for traffic from the under-mentioned stations at the rates given below, against a uniform rate of Rs. 59 per 100 maunds in December, 1888:—

	Rs.	A.	P.		Rs.	A.	P.
To Forbesgunge ...	43	7	0	To Kusba	51	4	0
„ Arrareah	46	9	0	„ Purneah	52	4	8
„ Kusbyargaon ...	48	10	4	„ Rautara	54	6	0

2. No changes were made by any other Railways in Bengal in the rates of freight during the 3rd quarter of 1889-90.

EXTERNAL TRADE OF THE LOWER PROVINCES.

STATEMENT II.

3. During the quarter under report, the import trade was 1,33,936 maunds, or 6·19 per cent. below the figures for the corresponding period of 1888, and the export trade 2,25,882 maunds, or 7·82 per cent., the total traffic lifted, indicating a decrease of 3,59,818 maunds, or 14·01 per cent.

4. The following were the most important fluctuations in the import trade:—

IMPORTS.

Staples showing an increase on the returns of the quarter ending the 31st December, 1888.

COTTON, RAW.

Quantity of increase ... 69,449 mds.
Percentage of do. ... 32·49

The increase is due principally to the circumstance that in 1888 cotton had not come into the market before the close of October to the same extent that it did in 1889. In addition to the season being earlier than in 1888, the outturn is reported to be better. In his report for November 1889, the Traffic Manager, East Indian Railway, wrote as follows:—

"Bombay is now competing very seriously with Calcutta, even at Cawnpore, where railway charges are 11 annas per maund in favour of Calcutta. From this station the despatches during the month to Bombay *viâ* Jubbulpore from our own depôt were more than twice as great as to Calcutta, and there were also numerous consignments by the Indian Midland Railway. In addition to its requirements in cotton for local manufacture, Bombay exported largely to Genoa, Trieste, and other continental ports."

The report for December, 1889, contains the following further information on the subject:—

"There was a heavy demand in Bombay for local consumption, buyers for manufacture being able to pay higher prices than exporters. To Calcutta, the traffic is principally for export, and exporters were at the same disadvantage as in Bombay.

"In the direction of Calcutta, the principal increase was from Cawnpore, which, however, sent largely to Bombay also. The question of the cotton rates to Calcutta and to Bombay from our stations received attention during the month, but it was agreed that no reduction which we could make, even if not followed by corresponding action by our competitors in Bombay, would influence the direction of the traffic."

INDIGO.

Quantity of increase ... 14,528 mds.
Percentage of do. ... 40 77

The increase occurred in the despatches to Calcutta from stations in the Tundla district. The indigo season was earlier in 1889 than in the previous year. The Traffic Manager, East Indian Railway, states that "it is not clear whether the total outturn will be appreciably greater, though improvement is reported in the North-West"

GRAM AND PULSES.

Quantity of increase ... 47,359 mds.
Percentage of do. ... 19·39

Owing to favourable rates obtaining in the Calcutta market, considerable increases are shown in despatches thereto from the Oudh and Rohilkund Railway *viâ* Moghulserai and stations between Allahabad and Agra. The supplies carried to Calcutta from the Punjab, however, showed a decrease of 54,504 maunds which is due to the fact that there were exceptional exports last year from Delhi to Howrah for despatch to the East Coast, where a famine was apprehended.

CASTOR SEED.

Quantity of increase ... 25,541 mds
Percentage of do. ... 113·70

There was a good demand for castor seed in Calcutta, which stimulated exports from the North-Western Provinces.

OPIUM.

Quantity of increase ... 6,491 mds.
Percentage of do. ... 18·41

There were increased despatches to Calcutta from the North-Western Provinces. The East Indian Railway traffic report for December, 1889, shows that the consignments of opium from the Government factories had been kept back during the previous month, owing to unsettled weather.

GHEE.

Quantity of increase ... 13,237 mds.
Percentage of do. ... 96·26

The largest supplies were sent to Western Bengal and Calcutta from the North-Western Provinces. The Traffic Manager, East Indian Railway, in his report for December 1889 remarked as follows:—

"From our traffic of the last four months it would appear that ghee from the North-Western Provinces is again coming into favour in Calcutta."

Staples showing a decrease on the returns of the quarter ending the 31st December, 1888.

WHEAT.

Quantity of decrease ... 42,425 mds.
Percentage of do. ... 10·12

Owing to causes explained in the previous quarter's report, supplies of wheat into Bengal from the North-Western Provinces showed a decline of 6,992 maunds in comparison with the figures for the corresponding quarter of 1888. The condition of the Calcutta wheat market is thus summarized in the East Indian Railway Traffic Report for October, 1889:—

The total quantity of wheat carried to Howrah and Calcutta by this Company during the four weeks under review was 1,19,544 maunds. The total exports by sea during October were 53,920 cwt, say 2,700 tons, all for Great Britain. Sea freights gradually rose during the period to £1-7-6 per ton, but were still below last year's quotations, which varied between £1-10-0 and £1-12-6. Of the total quantity of wheat carried to Howrah, 57,254 maunds, or one-half, were from stations 700 miles distant and over. There were many decreases in the traffic from the Oudh and Rohilkhund, Bengal and North-Western Railways.

"The comparative average price of wheat in England during the period was 32*s.* in 1888 and 29*s.* 8*d.* in 1889.

The following extract is taken from the report for November, 1889.

"This year we have earned one rupee for every three maunds of wheat carried, while in 1888 the quantity was four maunds. During the month wheat was not of great importance as an export commodity, and the quality of stocks in the Calcutta market was reported to be bad."

OTHER FOOD-GRAINS.

Quantity of decrease ... 40,982 mds.
Percentage of do. ... 29·75

The decrease is observable in the importation into Behar from the North-Western Provinces and Oudh.

HIDES, DRESSED.

Quantity of decrease ... 28,511 mds.
Percentage of do. ... 53·93

Supplies are reported to be scarce, and there is little demand from Europe. The principal receiving station affected was Howrah, and the despatching stations, Cawnpore, Delhi and the Oudh and Rohilkhand Railway.

LINSEED.

Quantity of decrease ... 1,36,403 mds.
Percentage of do. ... 42·23

The decrease was principally in the consignments to Howrah from the North-Western Provinces where stocks were low. The Traffic Manager, East Indian Railway, furnishes the following particulars regarding the transactions in October, 1889:—

"To the exporter as compared with 1888, Indian rates were much higher, while home prices were lower. The following is a comparison of Calcutta prices for the week ended 26th October 1889 and corresponding week of 1888:—

Linseed, small to medium, 4 to 6 per cent. refraction per maund.

1889.	1888.
Rs. A. P.	Rs. A. P.
5 2 6	4 11 0

the difference being Rs. 2-6 per quarter of 410lbs. Home quotations were 9*d.* per quarter lower in 1889 than 1888."

In the following month *i e.* in November 1889, it was stated that "the position was much the same as reported for October; the exhaustion of stocks has driven up Indian prices, while English quotations are on much the same level as in 1888, and exchange has gone up; so that a large traffic cannot be expected in this season's crops, and the new outturn must be awaited." In December, 1889, there was no improvement, the traffic being less than half that in December 1888 owing to depletion of stocks, and all important despatching stations were affected.

MUSTARD SEED.

Quantity of decrease ... 66,952 mds.
Percentage of do ... 63·91

POPPY SEED.

Quantity of decrease ... 6,751 mds.
Percentage of do. ... 72·02

In both cases there were decreases in the despatches to Western Bengal and Calcutta from the North-Western Provinces. In mustard seed, the East Indian Railway Traffic Report shows that in consequence of small stocks there was a large falling off in consignments from Cawnpore and the neighbouring places, and from the Oudh and Rohilkhund Railway stations *viâ* Moghulserai.

SALT.

Quantity of decrease ... 13,087 mds.
Percentage of do. ... 41·47

The decrease occurred in the importation of indigenous salt into Behar from the Punjab.

TEA, INDIAN.

Quantity of decrease ... 4,909 mds.
Percentage of do. ... 56·09

The supplies carried to Calcutta from the North-Western Provinces and the Punjab showed a a falling off of 70·65 per cent. and 34·04 per cent. respectively.

5. The following were the important fluctuations in connection with the export trade during the period under review:—

EXPORTS.

Staples showing an increase on the returns of the quarter ending the 31st December, 1888.

COPPER, UNWROUGHT.

Quantity of increase ... 13,489 mds.
Percentage of do. ... 703·28

The increase was principally in despatches from Calcutta owing to prices being lower than in 1888.

IRON.

Quantity of increase ... 21,438 mds.
Percentage of do. ... 14·19

There were increased despatches from Calcutta to Agra and Allahabad for the new water-works.

KEROSINE OIL.

Quantity of increase ... 71,269 mds.
Percentage of do. ... 107·61

The consignments to the North-Western Provinces, the Punjab, and the Central Provinces from Calcutta, showed an advance of 60,401 maunds, 5,940 maunds, and 3 959 maunds, respectively, as compared with the figures for the corresponding quarter last year.

SUGAR, UNREFINED.

Quantity of increase ... 15,827 mds.
Percentage of do. ... 19·75

The largest increase was from the Gya line stations, which despatched principally to the Great Indian Peninsula Railway over long leads *viâ* Jubbulpore. The despatches generally from the sugar exporting stations in the Dinapore district were better than in 1888, during which year the crops had been injured by unseasonable weather.

TOBACCO, UNMANUFACTURED.

Quantity of increase ... 8,038 mds.
Percentage of do. ... 33·97

Large quantities were despatched by the Tirhoot State Railway and from Patna and Barh to the Great Indian Peninsula Railway and to the North-West.

Staples showing a decrease on the returns of the quarter ending the 31st December, 1888.

COAL AND COKE.

Quantity of decrease ... 2,21,933 mds.
Percentage of do. ... 13·90

The following explanation of the decrease is furnished by the Traffic Manager, East Indian Railway, in his report for December 1889:—

"In *upwards* traffic, the decrease was almost entirely at Giridih, and was in despatches for the Bombay, Baroda and Central India Railway, and for the Indian Midland Railway. The former Railway took unusually large quantities of coal at Agra in 1888, and the Indian Midland Railway, who were in December 1888 stacking coal with a view to take over the working of the line through from Cawnpore to Itársi from the 1st January 1889, are now using Umaria coal instead of Bengal coal. Karmatar also shows a heavy falling off, there having been a very limited traffic, while last year the North-Western Railway was taking largely from Mooduncutta."

PIECE-GOODS, EUROPEAN.

Quantity of decrease ... 13,335 mds.
Percentage of do. ... 5·40

The total supply carried to the Punjab from Calcutta showed a decline of 20,686 maunds, or 30·09 per cent., while the imports to the North-Western Provinces and Oudh from Calcutta rose by 72,23 maunds, or 4·15 per cent.

RICE NOT IN THE HUSK.

Quantity of decrease ...1,07,566 mds.
Percentage of do. ... 62·61

The diminution in traffic is said to be due to the fact that in 1888 there was an exceptional demand up-country in consequence of scarcity, while in 1889 no such cause operated. The decline, was chiefly in the exports from the Western Bengal block.

GRAM AND PULSES.

Quantity of decrease 10,927 mds.
Percentage of do ... 95 81

The falling off occurred in the quantities sent to the North-Western Provinces from Behar, and is ascribed to the same cause as that explained above.

INTERNAL TRADE OF THE LOWER PROVINCES.

STATEMENT III.

6. THERE was a falling off of 15,15,125 maunds, or 8·33 per cent. in the gross weight carried, the decrease being both in the downward and upward traffic. In the down traffic the largest increase was in rice, mustard seed, and stone and lime, while very considerable decreases are shown in coal and linseed. As regards the up traffic, the figures showed an improvement in salt and kerosine oil, against a heavy falling off in rice. The net quantity carried both ways, and the proportion of the Calcutta traffic to the total trade, are given below :—

	Quarter ending the 31st December		Calcutta traffic.		Proportion of Calcutta traffic to the total trade.	
	1888.	1889.	1888.	1889.	1888.	1889.
	Mds.	Mds.	Mds.	Mds.	Per cent.	Per cent.
Downward traffic	1,51,71,137	1,40,09,927	1,33,16,725	1,23,57,273	87·78	88·20
Upward ,, ...	30,09,255	26,55,340	21,39,140	23,01,171	71·09	86·67
Total ...	1,81,80,392	1,66,65,267	1,54,55,865	1,46,58,444	85·01	87·96

7. Notwithstanding the decrease in the traffic generally, a larger business was done with Calcutta, which showed an increase of 2·95 per cent. in comparison with the transactions of 1888. The following fluctuations deserve notice.

DOWNWARD TRAFFIC.

Articles showing an increase as compared with the quarter ending the 31st December, 1888.

RICE NOT IN THE HUSK.

Quantity of increase ... 4,47,020 mds.
Percentage of do. ... 95·37

The increase is in continuation of the large traffic carried to Calcutta for local consumption during the previous quarter. By far the largest quantity was consigned in December last, the East Indian Railway Traffic Report for which month showed that "under a very good demand for rice for export, the deliveries at Howrah increased, being more than 3,00,000 maunds.

JUTE, RAW.

Quantity of increase .. 64,917 mds.
Percentage of do. ... 1·63

There was an increase of 4,64,060 maunds in the consignments to Calcutta from Dacca, but the supplies from Eastern and Northern Bengal fell off by 1,30,882 maunds and 95,096 maunds, respectively. The supplies carried from the latter block to Western and Eastern Bengal also diminished. The Traffic Manager, East Indian Railway, writes as follows :—

"The decrease was principally in consignments from the Assam-Behar State Railway *viâ* Sahebgunge. The jute raw crop in the Purneah district was late, and the outturn less than in 1888 owing to floods, while the purchasers in this district were not so numerous as in 1888."

RAPE AND MUSTARD.

Quantity of increase ... 2,01,013 mds.
Percentage of do. ... 144·67

The increase occurred in the despatches to Calcutta from Behar and Northern and Western Bengal blocks. It is explained that the Calcutta rate hardened during November last, and there was a steady traffic for local consumption.

STONE AND LIME.

Quantity of increase ... 1,63,646 mds.
Percentage of do. ... 144·39

The increases under stone were principally in road metal from Assansol and Pakur, for the Calcutta and other Municipalities, while lime was consigned in large quantities for Calcutta from Rajbandh, Durgapur, Raneegunge, and Asansol on the chord line.

SUGAR, UNREFINED.

Quantity of increase ... 76,644 mds.
Percentage of do. ... 167·90

The East Indian Railway Traffic Report for December last shows that the principal increase was in the despatches from stations on the Gya line, where last year the crops were late as well as poor. The consignments from these stations were principally to Howrah, to meet a demand in Calcutta owing to smaller supplies being received from Mauritius. A general increase was also shown in the sugar despatching stations in the Dinapore district.

TEA, INDIAN.

Quantity of increase ... 26,131 mds.
Percentage of do. ... 24·75

The advance was mainly in the importation into Calcutta from the Northern Bengal block.

Articles showing a decrease as compared with the quarter ending the 31st December, 1888.

COAL AND COKE.

Quantity of decrease ... 11,77,486 mds.
Percentage of do. ... 16·93

The decrease was principally in export coal, the large transactions in the previous quarters having caused a reaction. In the East Indian Railway Traffic Report for November 1889, the following particulars are given:—

"In downwards coal the weight carried was much the same as in the corresponding period of 1887. Last year the traffic was exceptionally heavy, but we should have retained a considerable proportion of the increase then recorded, had not consignment for export been held back owing to a difficulty in obtaining steamers in which to ship the coal. Out of about 10,00,000 maunds coal brought to Howrah during the month under review, about 1,00,0 0 maunds were invoiced for shipment.

"The Makum (Assam) coal mines in competition with our downwards traffic are reported to be extending their operations and to be securing high rates for their coal, owing to its fine steaming qualities."

WHEAT.

Quantity of decrease ... 78,965 mds.
Percentage of do. ... 33·67

The falling off was in the despatches of wheat to Calcutta from Behar. There were heavy decreases in the traffic from Arrah, Patna, and loop line stations of the East Indian Railway. The quality of the wheat carried was inferior.

RICE IN THE HUSK.

Quantity of decrease ... 1,70,623 mds.
Percentage of do. ... 53·20

The decrease was in the despatches to Calcutta from Eastern and Northern Bengal, and was in sympathy with the state of the Calcutta rice market.

OTHER FOOD-GRAINS.

Quantity of decrease ... 20,170 mds.
Percentage of do. ... 40·78

Under this head, the Traffic Manager, East Indian Railway, remarks that there was a decrease in the short distance traffic generally, noticeable principally at Bhagulpore on the loop line.

GUNNY BAGS AND CLOTH.

Quantity of decrease ... 27,805 mds.
Percentage of do. ... 20·98

This decrease occurred in the consignments to Calcutta from the Northern Bengal block.

LINSEED.

Quantity of decrease ...6,86,948 mds.
Percentage of do. ... 65 37

As stated in the previous quarter's returns, the falling off occurred in the consignments to Calcutta from Behar and Eastern Bengal. An account of the linseed traffic has already been given above in connection with the external trade.

SALTPETRE.

Quantity of decrease ... 24,741 mds.
Percentage of do. ... 15·17

In his report for October, 1889, the Traffic Manager, East Indian Railway, observed as follows:—

"The decrease was principally in consignments from the Tirhoot State and Bengal and North-Western Railways, and may be ascribed to manufacture having been closed during the Doorga Poojah holidays."

TOBACCO, UNMANUFACTURED.

Quantity of decrease ... 21,988 mds.
Percentage of do. ... 25·50

During the previous quarter a large quantity of tobacco was sent to Calcutta from Northern Bengal, and this fact may perhaps account for the falling off in the supplies from the latter block, during the quarter under review; the exports amounted to 36,656 maunds only against 60,818 maunds in the corresponding quarter of 1888.

UPWARD TRAFFIC.

Articles showing an increase as compared with the quarter ending the 31st December, 1888.

KEROSINE OIL.

Quantity of increase ... 34,875 mds.
Percentage of do. ... 43·69

The increase was in the despatches from Calcutta to Behar and Eastern Bengal. In his report for November, 1889, the Traffic Manager, East Indian Railway, writes as follows—

"During the month a steamer left Howrah with 12,500 cases of kerosine oil for Patna, and another steamer was loading when the month closed, the greater portion of the cargo obtained by the steamers being oil. The oil had never been carried to Patna in such quantities before, and, as has since become known, the object has been to make Patna into a centre of distribution, principally by means of country boats."

In the report for December 1889, the following extract from the Goods Superintendent's report on the subject is given :—

"The large despatches during December, 1889 beat the record since the commencement of the kerosine business. The following figures show despatches made in—

	Mds.
December 1887	46,221
Ditto 1888	79,455
Ditto 1889	1,31,899

"During December, 25,721 maunds were despatched to Patna at the reduced rate of four annas per mile per waggon in competition with the steamer traffic

"This reduced rate gave great satisfaction to the principal traders in kerosine oil, but if we deduct this quantity from our total despatch, we still have a considerable increase to other stations. Thirteen thousand and five hundred maunds were despatched by river during this period, but these consignments were loaded on the flats prior to the reduced rate being sanctioned.

SALT.

Quantity of increase ... 62,119 mds.
Percentage of do. ... 6·21

There were increases in the consignments to Northern and Eastern Bengal from Calcutta against a decrease of 1·15 per cent. in those to Behar, the fluctuation at receiving districts being as follows :—

To	Exports from Calcutta 1888	1889
	Mds	Mds
Sonthal Pergunnahs	68,164	55 807
Purneah ...	899	25,346
Bhagulpore	38,367	59,295
Monghyr	21 026	24,066
Patna	3,609	80 250
Shahabad	56,149	53 829
Gya	33,620	39,696
Durbhunga	1,28,864	1,22,060
Mozufferpore	29,924	28,884
Champarun	50,283	57,345
Sarun	45,046	60,506
Total .	4,75,951	6,07,084

In his report for November, 1889, the Traffic Manager, East Indian Railway, remarked as follows:—

"The price of imported salt varied during the month between the high figures of Rs. 100 and Rs. 108 per 100 maunds. Native dealers in Tirhoot are turning their attention to Faraknagar salt, which costs at depôt Rs 28 per 100 maunds, and for which the Railway freight charge to Patna is Rs 66-13 per 100 maunds"

SUGAR, UNREFINED

Quantity of increase 24.461 mds
Percentage of do. ... 88 98

The increases occurred in the despatches to Western and Eastern Bengal from Calcutta The consignments were probably made up of Mauritius sugar, of which large quantities are now imported into Calcutta.

Articles showing a decrease as compared with the quarter ending the 31st December, 1888

COAL AND COKE.

Quantity of decrease .. 20,940 mds.
Percentage of do. . 18 07

In the previous quarter there was a large increase of 73 59 per cent. under this head, but in the present quarter the quantities carried to Northern Bengal and Behar from Western Bengal showed a decline of 15,496 maunds and 7,237 maunds respectively. The East Indian Railway Traffic Report for October 1889 contains the following information on this point :—

"During the month the despatches from the Sanctoria Branch of the Bengal-Nagpore Railway were 3 40,000 maunds approximately. The despatches were almost entirely at the expense of our stations Barakar and Sitarampore."

PIECE-GOODS, EUROPEAN.

Quantity of decrease ... 7,572 mds.
Percentage of do. ... 2·08

The decrease is nearly as much as it was in the previous quarter. The East Indian Railway Traffic Report for November 1889 showed that "the outward traffic at Howrah was interfered with during the period by stormy weather The large traffic in connection with the Dowali festival was carried last year in November, and this year in October, when it contributed to the increase reported in the figures for that month"

RICE IN THE HUSK.		The decreases shown were for the most part in the imports into the Behar block, where there had been an exceptional demand for rice last year. This year the demand did not recur, there being plentiful supplies at stations where there was scarcity last year.
Quantity of decrease ...	49,298 mds.	
Percentage of do. ...	82·46	
RICE NOT IN THE HUSK.		
Quantity of decrease .	4,91,537 mds.	
Percentage of do. ..	77·02	
IRON.		This decrease is due to a smaller demand in Behar and Western Bengal which imported largely from Calcutta, during the preceding quarter.
Quantity of decrease ...	20,867 mds.	
Percentage of do. ...	15·84	

APPENDIX.

Statement showing the average wholesale prices of articles of trade during the quarter ending the 31st December, 1889, as well as the rates of deduction made from the gross weight to obtain net weight.

Articles.		Rates of deduction.	Rates of value per maund.	
		Per cent.	Rs.	A.
Coal and coke		Nil	0	6
Cotton, raw		5·0	19	10*
Cotton, manufactured ...	1. Twist and yarn—European	5·5	62	4
	2. Ditto —Indian	4·0	32	6
	3. Piece-goods—European—			
	(a) In bales and bundles	3·5	70	0
	(b) In boxes	18·0

Reg. No. 5318J—500—11-4-90.

RETURNS

OF THE

RAIL-BORNE TRADE OF BENGAL

For the quarter ending the 31st March, 1889.

Calcutta:

PRINTED AT THE BENGAL SECRETARIAT PRESS.

1889.

FORWARDED BY ORDER OF THE LIEUTENANT GOVERNOR OF BENGAL

RETURNS

OF THE

RAIL-BORNE TRADE OF BENGAL

For the quarter ending the 31st March, 1889.

RAILWAY FREIGHTS.

East Indian Railway.—The following changes were made by the East Indian Railway in the rates of freight on goods carried during the quarter ending the 31st March, 1889, as compared with the corresponding period in 1887-88.

Coal.—During the quarter under report, coal was carried from the Calcutta Coal Association siding and west Ghoosick siding to Howrah and all stations up to Memari inclusive, and to Ahmedpore and Naihati, at the rate of Rs. 13-8 per 100 maunds. In the corresponding period in 1887-88 no rate was quoted.

Cotton, raw.—From January 1889 cotton (classes E.* and F.†) was carried from Bombay to and *viâ* Cawnpore at the following through rate:—

	In 1888-89. Per maund. Rs. A. P.	In 1887-88. Per maund. Rs. A. P.
East Indian Railway	0 8 8	0 8 0
Great Indian Peninsular Railway	0 15 4	0 15 0
	1 8 0	1 7 0

Grains and oilseeds.—Grains and oilseeds in consignments of less than 300 maunds booked from the Bombay, Baroda and Central India Railway *viâ* Cawnpore to the East Indian Railway, from Hathras junction and stations west of that junction, were charged during February and March, 1889, at Rs. 7-8 per 100 maunds higher than the 1st class rate of ⅓rd of a pie per maund per mile, which was the rate charged during the corresponding months in 1887-88. The extra charge was also levied on re-booked consignments.

Jute, raw.—During the quarter under review, balances over, after fully loading wagons of jute carried at the special class A‡ rate, were received from the Eastern Bengal State Railway and charged on the East Indian Railway at first class rates on actual weight. During the fourth quarter in 1887-88 second class rates, viz., ½ a pie per maund per mile, were charged.

* Cotton pressed to not less than 38 lbs. per cubic foot, or not exceeding 8 cubic feet per bale of 300 lbs., or 10⅔ cubic feet per bale of 400 lbs.

† Cotton pressed to not less than 43 lbs. per cubic foot, or not exceeding 7 cubic feet per bale of 300 lbs., or not exceeding 9 cubic feet per bale of 400 lbs.

‡ For the first 100 miles ... ... 33⅓ pies per 100 maunds per mile.
" extra distances exceeding 100 and up to 450 miles ... 17 ditto ditto.
" ditto beyond 450 miles ... ... 12 ditto ditto.

Jute booked from the under-mentioned stations on the Eastern Bengal State Railway to Howrah and Shalimer, was carried over the East Indian Railway at the reduced rates, noted below:—

Oils.—The minimum weight for kerosine oil booked to Oudh and Rohilkhund Railway stations proper, *i.e.*, stations other than Moghalserai, Cawnpore, Aligarh, and Saharanpore was reduced from 300 maunds in the fourth quarter in 1887-88 to 270 maunds in the quarter under report.

Salt.—In January, 1889, the following reduction was made in the freight on salt carried to the following stations from or *viâ* Ghaziabad :—

To stations.	Rate in January, 1888, Per 100 maunds. Rs. A. P.	Rate in January, 1889, Per 100 maunds. Rs. A. P.
Patna District—		
Bukhtearpore	60 0 0	49 0 0
Bhita	57 0 0	42 3 0
Gya District—		
Jehanabad	60 0 0	51 0 0
Mozufferpore District—		
Bela	61 0 0	51 0 0

Stone.—During February and March, 1889, stone of any description was carried at the risk of owners from Mirzapore to Sahebgunge in wagon loads of 325 maunds at Rs. 67, against Rs. 84-8 in the corresponding months last year.

2. *Behar and North-Western Railway.*—The only change made by this Railway during the quarter was in the rate of freight on indigo seed, which was carried 100 miles and over at $\frac{1}{4}$th of a pie per maund per mile, against $\frac{1}{5}$th of a pie per maund per mile in the fourth quarter in 1887-88.

3. No changes in the rates of freight were made by any other railways in Bengal.

EXTERNAL TRADE OF THE LOWER PROVINCES.

STATEMENT II.

4. The result of the transactions for the quarter ending the 31st March, 1889, in comparison with the figures of the corresponding period last year, is a decrease of 27·11 per cent. in the total traffic lifted. "Railway plant and rolling stock" formed one of the items of trade in 1887-88, but under the orders of the Government of India, it has been omitted in the returns from the 1st April, 1888. If the trade under that head, amounting to 10,40,446 maunds, be deducted from the returns for the quarter ending the 31st March, 1888, the net traffic of the present quarter will be below the figures of the fourth quarter of 1887-88 by only 15·88 per cent., of which 11·01 per cent. will be under imports, and 18·53 per cent. under exports.

5. The chief falling off in the import trade occurred under oilseeds, while the exports decreased owing to the absence of demand for food-grains in the Upper Provinces, where there was a scarcity in 1887-88. The following statements show the different articles in the import traffic in which the principal fluctuations occurred:—

IMPORTS.

Staples showing an increase on the returns of the quarter ending 31st March, 1888.

COTTON, RAW. Quantity of increase ... 30,979 mds. Percentage of do. ... 9·43	The increase is said to have been principally in despatches from stations above Cawnpore. At Cawnpore and in the surrounding districts, the crop, as previously reported, failed on account of abnormal rainfall, and only a four-anna harvest is said to have been gathered. Above Etawah the cotton crop is said to have been very fair. The remarks made by the East Indian Railway Goods Superintendent, Cawnpore, in his report for March, 1889, are extracted below:— "I am glad to be able to report on a slight increase in cotton for export. Shippers themselves have been surprised at the continued demand from Europe, and fear that it cannot continue for any time, as the quality now available for shipment is inferior."
WHEAT. Quantity of increase ... 1,57,059 mds. Percentage of do. ... 158·65	In his report for February 1889, the Traffic Manager, East Indian Railway, remarked that "throughout the month the Calcutta market is reported to have been dull, and business done appears to have been of a speculative nature. Old stocks were sent down from the North-West in anticipation of good crops in the approaching season; and latest reports confirm the anticipation and show that a fair field is expected, not only in the North-West, but in Oudh and Bengal. The abundant rain which fell during the month seems to have done good to the wheat and rubbi crops generally. The first arrivals of new wheat from Oudh are since reported to have reached Calcutta and to be of good quality." An exceptional feature in the traffic for March 1889 was that there were despatches of wheat from Delhi to Howrah.
GRAM AND PULSES AND OTHER FOOD-GRAINS. Quantity of increase ... 1,38,300 mds. Percentage of do. ... 146·32	Calcutta received increased supplies of these grains from the Punjab, and Behar also drew largely from the North-West Provinces.

Staples showing a decrease on the returns of the quarter ending the 31st March, 1888.

LINSEED.

Quantity of decrease ... 2,25,517 mds.
Percentage of do. ... 66·53

MUSTARD SEED.

Quantity of decrease ... 3,57,694 mds.
Percentage of do. ... 65·53

TIL OR JINGILI.

Quantity of decrease ... 26,639 mds.
Percentage of do. ... 90·36

The following remarks made by the Traffic Manager, East Indian Railway, in his report for February, 1889, in respect of the linseed trade, is worthy of notice:—

"Linseed contributed mostly towards the decrease, due to the very exceptional traffic of February 1888 and the absence of a corresponding demand in 1889. The Calcutta market is reported to have been "dull and lifeless," and the advance in steamer freight and decline in home prices towards the end of the month are reported to have resulted in an utter collapse in India. The stock in hand at most up-country stations appears to have been nominal, and with the arrival of the new season's crops we may hope to see the traffic revive."

As regards mustard seed, the demand in the Calcutta market for export to the Continent was slack, while the state of the crops in the North-West kept up prices and prevented the seed from moving, and stations in Bengal which last year imported largely, had this year full crops and a surplus for despatch.

As for til seed, the stocks are said to have been exhausted, and very limited supplies were sent to Calcutta and Behar from Cawnpore.

GHEE.

Quantity of decrease ... 18,166 mds
Percentage of do. .. 52 17

Calcutta now draws its supplies of ghee from Behar, instead of from the North-West as formerly.

6. The principal fluctuations in the export traffic are explained below :—

EXPORTS.

Staples showing an increase on the returns of the quarter ending the 31st March, 1888.

COAL AND COKE.

Quantity of increase ... 4,33,527 mds.
Percentage of do. ... 23·38

The upward increase was from Giridih, and was due to a large demand both by foreign railways, and by the public for brick-burning purposes.

COTTON PIECE-GOODS, EUROPEAN.

Quantity of increase ... 19,888 mds.
Percentage of do. ... 12 33

The increase occurred in the consignments to the North-West Provinces and Oudh from Calcutta.

GUNNIES.

Quantity of increase .. 16,214 mds.
Percentage of do. ... 22·30

Large exports were made from Calcutta and Behar to meet up-country demands.

Staples showing a decrease on the returns of the quarter ending the 31st March, 1888.

RICE.

Quantity of decrease ... 7,29,142 mds.
Percentage of do. ... 73·75

GRAM AND PULSES AND OTHER FOOD-GRAINS.

Quantity of decrease ... 3,27,745 mds.
Percentage of do. ... 104·50

The Traffic Manager, East Indian Railway, in his report for February 1889, states that :—

"Last year there was exceptional traffic owing to the scarcity in the North-West Provinces, and large quantities of food-grains were exported from the Loop and above which this year found no market."

IRON.

Quantity of decrease ... 31,516 mds.
Percentage of do. ... 21 45

The decrease occurred chiefly in the exports from Calcutta, where the demand from Cawnpore, Agra, and Delhi was very limited. The Traffic Manager, East Indian Railway, reported in March, 1889, as follows :—

"We had an exceptionally large traffic in iron during March 1888. The decreases this year were where there were increases in 1888."

SALT.

Quantity of decrease ... 52,392 mds.
Percentage of do. ... 41·38

The quantities carried to the North-West Provinces from Calcutta showed a falling off of 36·82 per cent.. and from Behar of 97·53 per cent. The Traffic Manager, East Indian Railway, writes :—

"The decrease may in a great measure be attributed to the tightness of the Calcutta money market, while from Howrah the increase reported in 1888 was exceptional, owing to the heavy speculation consequent on anticipated introduction of an additional import duty."

SUGAR, UNREFINED.

Quantity of decrease ... 34,108 mds.
Percentage of do. ... 24·69

The decrease occurred in the exports from Behar to the Bombay Presidency, Rajputana, and the Central Provinces. In the Dinapore district the sugar-cane crops are reported to have been late, and the manufacture of jaggree delayed in consequence. In his report for January, 1889, the Traffic Manager, East Indian Railway, makes the following observations :—

"In regard to the decreases from *viâ* Cawnpore and from the Gya line, the importing stations are principally on the Great Indian Peninsula Railway to the west of Itarsi. The opening of the new route *viâ* the Indian Midland Railway diverted the traffic in Oudh and Rohilkhund Railway sugar from this system over the length Cawnpore to Jubbulpore, while at the same time it so cheapened the cost of Oudh and Rohilkhund Railway sugar laid down at consuming station by means of cheaper railway rates that the business of sugar merchants at Makhdumpore on the Gya line was seriously interfered with."

TOBACCO.

Quantity of decrease ... 13,036 mds.
Percentage of do. ... 41·94

The tobacco crops are said to have been seriously injured by a hail storm in February, and hence the falling off in the exports from Behar.

INTERNAL TRADE OF THE LOWER PROVINCES.

STATEMENT III.

7. The gross traffic registered during the fourth quarter of 1887-88 included 8,94,798 maunds of Railway plant and rolling-stock. After deducting this quantity, for reasons already explained in paragraph 4. there remained 1,41,02,465 maunds, which are 19·94 per cent. below the present quarter's trade. The net quantity of downward and upward traffic, and the proportion of the Calcutta trade to the total traffic, are shown in the subjoined statement :—

	Quarter ending 31st March.		Calcutta.		Proportion of Calcutta traffic to the total trade.	
	1888.	1889.	1888.	1889.	1888.	1889.
	Mds.	Mds.	Mds.	Mds.	Per cent.	Per cent.
Downward traffic	1,11,72,264	1,33,90,345	92,34,515	1,12,74,507	82·65	84·94
Upward „	29,30,201	35,24,749	22,38,595	21,62,385	76·39	61·35
Total ...	1,41,02,465	1,69,15,094	1,14,73,110	1,34,36,892	81·35	79·43

8. The figures for 1888 given in the foregoing statement are exclusive of Railway plant and rolling-stock. It will be seen that the down traffic during the present quarter exceeded the figures of 1888 by 19·85 per cent., while the up traffic advanced by 20·29 per cent. The principal article of increase under the former head is coal, the traffic in which during January 1889 was so exceptionally heavy that the East Indian Railway found it necessary to retain throughout the month 250 wagons borrowed from the Eastern Bengal State Railway. In the upward traffic, the advance was mainly in rice, the movements of which were stimulated by urgent local demands. The causes of the

fluctuations in the principal articles of traffic, are given in the statements below :—

DOWNWARD TRAFFIC.

Articles showing an increase as compared with the quarter ending 31st March, 1888.

COAL AND COKE.

Quantity of increase ... 21,18,471 mds.
Percentage of do. ... 35·23

The increase occurred in the imports into Calcutta, and was due chiefly to the larger consumption of Indian coal by steamers and to the large demand for brick-burning operations in connection with the Kidderpore Docks. The Traffic Manager, East Indian Railway, in his report for March, 1889, writes that "regarding coal for shipment, it is reported that the experiments made in taking the coal on a large scale have proved so successful that there is every likelihood of the new outlet for Indian coal being maintained. The following further information is given in that report :—

"The export of coal from England for Calcutta seems to have recommenced, though not on a large scale. Only 800 tons are reported in the Bengal Chamber of Commerce price current as having been received during the three months ended the 31st March, but nearly 10,000 tons are expected in May and June.

"Assam coal, referred to in certain of my reports last year as a competitor with Ranigunge coal in Calcutta, is now coming into the market at the rate of 5,000 tons per mensem, but this quantity is small compared with our deliveries during the month (five weeks) of March in Howrah and Calcutta of 93,565 tons. The coal is more than 50 per cent. dearer than Ranigunge coal, while the results are stated to be only 25 per cent. better."

PADDY.

Quantity of increase ... 205,208 mds
Percentage of do. ... 511·25

As usual the increase was due to larger imports into Calcutta from the Western, Northern, and Eastern, Bengal blocks.

JUTE, RAW.

Quantity of increase ... 2,52,212 mds.
Percentage of do. ... 32·65

The jute season ended with the close of the quarter under review. The supplies carried to Calcutta from Northern Bengal showed an increase of 86·77 per cent.

MUSTARD SEED.

Quantity of increase ... 1,92,169 mds.
Percentage of do. ... 113·76

OTHER OILSEEDS.

Quantity of increase ... 34,879 mds.
Percentage of do. ... 352·39

The crops have been full, and Calcutta imported largely from almost all the trade blocks.

GHEE.

Quantity of increase ... 18,059 mds.
Percentage of do. ... 224·50

The increased supply of ghee from Behar to Calcutta has had the effect of checking exports from the North-West Provinces and Oudh.

Articles showing a decrease as compared with the quarter ending the 31st March, 1888.

WHEAT.

Quantity of decrease ... 91,253 mds.
Percentage of do. ... 45·84

The decrease occurred in the despatches of wheat to Calcutta from Behar and Eastern Bengal. On this subject the Traffic Manager in his report for March 1889 writes :—

"The falling off from *viâ* Bankipore, *i.e.*, the Gya line, was due to crops being both late and poor. Regarding the outturn in his district generally, and the prospects of a wheat traffic, the District Traffic Superintendent, Dinapore, remarks as follows :—

'This season's wheat crop may be said to be far below what was anticipated, except in the low lying lands above Dinapore within canal-irrigation limits, where the cultivators' expectations were fully realized, at Buxar and Arrah especially.'"

RICE. Quantity of decrease ... 88,640 mds. Percentage of do. ... 10·06 GRAM AND PULSES AND OTHER FOOD-GRAINS. Quantity of decrease ... 1,35,412 mds. Percentage of do. ... 23·26	In the case of rice, Calcutta received less from Eastern and Northern Bengal than in the corresponding quarter last year. The exports from Northern Bengal to Eastern Bengal were also restricted to a certain extent. Regarding gram and pulses and miscellaneous food-grains, the decrease occurred in the imports into Calcutta from the Eastern and Northern Bengal blocks.
HIDES OF CATTLE. Quantity of decrease ... 11,306 mds. Percentage of do. ... 12·23	The decrease was principally in the consignments to Calcutta from Delhi owing to accumulations in the former place of North-Western descriptions, and the absence of demand causing prices to recede below sellers' views.
LINSEED. Quantity of decrease 1,81,377 mds. Percentage of do. ... 25·85	The chief falling off occurred in the exports from Behar to Calcutta for reasons explained in the previous quarter's report.
TOBACCO. Quantity of decrease ... 14,553 mds. Percentage of do. ... 17·74	The chief falling off occurred in the quantities carried to Calcutta from the Northern Bengal block.

UPWARD TRAFFIC.

Articles showing an increase as compared with the quarter ending the 31*st March*, 1888.

COAL AND COKE. Quantity of increase ... 1,10,165 mds. Percentage of do. ... 95·00	The increase occurred in the despatches from Western Bengal to Behar and Northern Bengal.
COTTON, TWIST AND YARN, EUROPEAN. Quantity of increase ... 9,627 mds. Percentage of do. ... 64·05	The increase was mainly in the importation into Eastern and Northern Bengal and Dacca from Calcutta. No special cause has been assigned for these increases.
RICE. Quantity of increase ... 5,03,126 mds Percentage of do. ... 104·78	Large supplies of rice went to Behar from the Western Bengal block for local consumption, there being a scarcity of food-grains in that part of the country.
IRON. Quantity of increase ... 11,481 mds. Percentage of do. ... 7·09	The supplies carried to Northern Bengal from Calcutta was in excess of the quantities sent in the corresponding quarter of last year by 58·36 per cent.

Articles showing a decrease as compared with the quarter ending the 31*st March*, 1888.

COTTON PIECE-GOODS, EUROPEAN. Quantity of decrease ... 62,826 mds Percentage of do. ... 17·34	The decrease is ascribed to the continued stringency of the money market, and to the fact that the marts at large centres were overstocked by heavy despatches in the previous quarter. The exports from Calcutta to Behar fell off by 18·83 per cent., and to Eastern Bengal by 39·90 per cent.
SALT. Quantity of decrease ... 32,633 mds. Percentage of do. ... 3·29	The exports of salt from Calcutta to Behar fell off by 9·99 per cent., and to Eastern Bengal by 2·35 per cent. The fluctuations are normal, and call for no explanation.

APPENDIX.

Statement showing the average wholesale prices of articles of trade during the quarter ending the 31st March 1889, as well as the rates of deduction made from the gross weight to obtain net weight.

Articles.		Rates of deduction.	Rates of value per maund.
		Per cent.	Rs. A.
Coal and coke		Nil	0 6
Cotton, raw		5·0	18 12

OF THE

RAIL-BORNE TRADE OF BENGAL

During the quarter ending the 30th June, 1889.

RAILWAY FREIGHTS.

THE changes made in the rates of freight on the following articles of trade carried by the East Indian Railway during the quarter ending the 30th June, 1889, are compared below with the rates in force in the corresponding period in 1888-89:—

Coal and coke.—The rate of freight on 100 maunds of coal despatched from Giridih, in the Behar block, to Gwalior, *viâ* Agra, was reduced during May, 1889, from Rs. 51 to Rs. 49-2-8. No alteration was made in the rate of freight on coke.

Cotton, raw.—During May and June, 1889, raw cotton (class F)* was carried from Morena, in Rajputana and Central India, to Howrah, *viâ* Agra, at the rate of Rs. 4-15-5 perb ale of 400lbs., against Rs. 4-15-8 in the corresponding months in 1888.

Cotton and woollen piece-goods.—These goods, both European and Indian, were carried during the quarter under review from Howrah to Sutna, in Rajputana and Central India, at the rate of Rs. 162-4 per 100 maunds, against Rs. 174 in the quarter ending the 30th June, 1888.

Myrabolams.—In June, 1888, this article was carried from Howrah to Cawnpore at the 1st class rate of $\frac{1}{3}$ of a pie per maund per mile; in June, 1889, this rate was reduced to special class "B" rate, viz., $\frac{1}{4}$ of a pie per maund per mile.

Grains and seeds.—The charge on grains and seeds in consignments of not less than 300 maunds from Katni, in the Jubbulpore district, to Howrah was reduced from Rs. 50 per 100 maunds in April, 1888, to Rs. 45 in April, 1889. During May and June, 1888 and 1889, these cereals were carried to Howrah from the undermentioned stations at the rates given below:—

From	Rate per 100 maunds in 1888.	Rate per 100 maunds in 1889.	Remarks.
	Rs. A. P.	Rs. A. P.	
Jasra	52 0 0	50 0 0	
Sutna	53 0 0	51 0 0	
Sihora Road	50 0 0	42 0 0	
Bareilly and stations above on the Oudh and Rohilkhund Railway (except Saharunpore and Aligarh) *viâ* Mogulserai.	·15 pie per maund per mile.	·13 pie per maund per mile on the through distance.	
All stations between Daryabad and Darshannagar inclusive and Ajodhya Ghât on the Oudh and Rohilkhund Railway *viâ* Mogulserai.	·15 pie per maund per mile.	·16 pie per maund per mile.	
Nowabgunge and Lakarmandi Ghât *viâ* Digha Ghât.	·15 pie per maund per mile.	·17 pie per maund per mile on the through distance.	

* Cotton pressed to not less than 43lbs. per cubic foot, or not exceeding 7 cubic feet per bale of 300lbs., or not exceeding 9 cubic feet per bale of 400lbs.

Jute, raw.—During April, May, and June, 1888 and 1889, raw jute was booked from the undermentioned stations on the Eastern Bengal State Railway to Howrah and Shalimar, at the rates given below :—

Ghee.—In April, 1889, ghee, packed in barrels, tubs, or drums, was carried for distances not exceeding 150 miles at ½ a pie per maund per mile, against ⅓ of a pie per maund per mile, at owner's risk, in April, 1888.

Salt.—In May, 1889, the rate of freight on 100 maunds of salt from Howrah to and *viâ* Mokameh Ghât was raised from Rs. 22-5 to Rs. 25; and to and *viâ* Digha Ghât stations below Sahjanwa, on the Bengal and North-Western Railway, from Rs. 27 to Rs. 30.

EXTERNAL TRADE OF THE LOWER PROVINCES.

STATEMENT II.

2. The aggregate weight carried was 76,67,681 maunds, which were below the figures for the corresponding quarter last year by 63,114 maunds, or ·82 per cent. In the imports into Bengal there was a rise of 3,24,538 maunds, or 7·82 per cent.; but as regards the exports, the total quantity showed a decline of 3,87,652 maunds, or 10·82 per cent.

3. The different articles in the import trade, which exhibited marked fluctuations during the quarter ending the 30th June, 1889, as compared with the corresponding quarter of 1888, are detailed in the subjoined statements :—

IMPORTS.

Staples showing an increase on the returns of the quarter ending the 30th June, 1888.

COTTON, RAW.

Quantity of increase ... 14,277 mds.
Percentage of do. ... 18·90

The increase occurred chiefly in April, 1889, when supplies were carried from Etawah, Agra, Aligarh, and Khurja to Howrah, where the demand for superior quality cotton continued throughout the month. With the close of May, however, the cotton season may be said to have closed.

WHEAT.

Quantity of increase ... 2,65,515 mds.
Percentage of do. ... 21·78

PADDY.

Quantity of increase ... 10,495 mds.
Percentage of do. ... 225·29

RICE.

Quantity of increase ... 19,989 mds.
Percentage of do. ... 2,517·50

JOWAR AND BAJRA.

Quantity of increase ... 4,471 mds.
Percentage of do. ... 5,386·74

GRAM AND PULSES.

Quantity of increase ... 4,11,068 mds.
Percentage of do. ... 407·96

OTHER FOOD-GRAINS.

Quantity of increase ... 69,858 mds.
Percentage of do. ... 227·72

Regarding the consignments of food-grains from the North-Western Provinces and Oudh, there was a rise from 11,55,529 maunds to 14,63,326 maunds in the supplies carried to Calcutta, while the Behar imports from those provinces amounted to 3,82,145 maunds, against 1,29,303 maunds in the corresponding period last year. Calcutta also drew largely from the Punjab, the gross supply being 2,31,757 maunds, against only 2,712 maunds in the quarter ending 30th June, 1888. The staples which were most largely drawn were wheat, gram and pulses, and miscellaneous food-grains.

In the case of wheat the increase was mostly made up by a large traffic from the Oudh and Rohilkhund Railway *viâ* Mogulserai, supported by a substantial increase from *viâ* Ghaziabad, Delhi, Khurja, Aligarh and other distant stations from which Calcutta drew its supply. It is stated that in the Calcutta market, business was restricted to native speculators, and high prices are reported to have been paid for good quality. At Cawnpore the prices of wheat during June last ranged from Rs. 2-6 to Rs. 2-11-3 per maund, and but little business with Calcutta was transacted.

The increase under gram and pulses was owing in great measure to the exceptionally good crops in the Agra and Delhi districts, and to the strong demand in Calcutta for local consumption. The traffic in pulses consisted almost entirely of *dâl*, the greater portion being despatched from *viâ* Mogulserai, Cawnpore, Agra, Hathras *viâ* Ghaziabad, and Delhi, to Calcutta. There was also a substantial increase in pulses, principally *dâl*, received at Digha, in Behar, from the Bengal and North-Western Railway.

The traffic in miscellaneous food-grains consisted chiefly of barley, maize, and other grains from *viâ* Ghaziabad to meet a demand in Calcutta and Behar. There was also a quantity of barley despatched from the Oudh and Rohilkhund Railway to Calcutta.

STONE AND LIME.

Quantity of increase ... 90,052 mds.
Percentage of do. ... 110·45

The increase in the trade in stone consisted for the most part of despatches from Mirzapore to the Calcutta Port Trust Railway for building purposes in connection with the Kidderpore Docks. An impetus was given to this trade by the special rates for stone in wagon loads introduced a few months ago. The Traffic Manager, East Indian Railway, wrote in April last as follows :—

"It is now believed that by means of the reduced rates contractors supplying the Calcutta Municipality with road metal will gradually be induced to despatch by rail instead of by river. One large contractor has already taken to the rail."

SUGAR, UNREFINED.

Quantity of increase ... 14,218 mds.
Percentage of do. ... 252·81

The increase in this case occurred in the despatches from the North-Western Provinces to Calcutta, which imported 13,699 maunds more than in the corresponding year of 1888.

Staples showing a decrease on the returns of the quarter ending the 30th June, 1888.

LINSEED.

Quantity of decrease ... 25,588 mds.
Percentage of do. ... 1·94

MUSTARD SEED.

Quantity of decrease ... 4,07,609 mds.
Percentage of do. ... 59·25

POPPY SEED.

Quantity of decrease ... 47,489 mds.
Percentage of do. ... 31·06

In the early part of April the demand in Europe for linseed was limited, and sea freights were unusually high, while up-country sellers held back for better prices than Calcutta offered. About the middle of the month the regular liners suddenly lowered their freights, and this brought about an immediate reaction in prices, followed to some extent by an improved supply. The Calcutta price-current reports after this state that "wild excitement" prevailed, and that so much as Rs. 4-9-6 per maund were paid for ready parcels, and exceptionally high prices were offered for early delivery lots; but even with this substantial rise sellers did not respond freely, and inferior crops and an anticipated scarcity prompted them to hold out for better prices.

During May, prices for linseed in Calcutta continued to rise, and so much as Rs. 5-1 per maund was reported to have been paid. In his report for June, 1889, the Traffic Manager, East Indian Railway, wrote as follows:—

"Throughout the month the prices in the Calcutta market for linseed were unusually high, rising from Rs. 4-14 to Rs. 5-4 per maund in sympathy with the home market, and at the same time steamer freights declined in favour of shippers from £1 6*s.* to £1 2*s.* 6*d.* in comparison with the freight at the same time last year, which never went below £1 5*s.*, and was generally quoted at from £1 6*s.* to £1 10*s.* In the previous month stocks were held back for better prices, and from the beginning of the month great excitement prevailed in Calcutta."

As regards mustard seed, the greatest falling off was in the despatches from *viâ* Mogulserai and Cawnpore and *viâ* Aligarh. The East Indian Railway Traffic report for May, 1889, contains the following remarks on the subject:—

"The demand for rape seed in Calcutta for local consumption also improved, but met with little response owing apparently to the failure of the crops. The demand in Bombay was poor, and stocks of mustard seed at Cawnpore were held back in the hope of a rise in the market."

GHEE.

Quantity of decrease ... 11,926 mds.
Percentage of do. ... 50·60

There was a decline in the despatches from Phaphund and other ghee-manufacturing stations in the North-Western Provinces, which formerly sent ghee in considerable quantities to Howrah. Calcutta now obtains its supply from stations nearer home.

4 In connection with the export trade, the principal items in which fluctuations were most conspicuous are as follows:—

EXPORTS.

Staples showing an increase on the returns of the quarter ending the 30th June, 1888.

GUNNY BAGS AND CLOTH.

Quantity of increase ... 55,793 mds.
Percentage of do. ... 8·19

The increase was principally in the despatches from Calcutta to meet an improved demand up-country for the new season's crops.

COPPER, UNWROUGHT.

Quantity of increase ... 17,636 mds.
Percentage of do. ... 2,332·80

In copper the fall in prices in the European markets resulted in a better traffic. The exports from Calcutta to the North-Western Provinces and Oudh and the Punjab rose from 271 maunds to 12,981 maunds, and from 184 maunds to 4,828 maunds, respectively.

SUGAR, UNREFINED.

Quantity of increase ... 17,859 mds.
Percentage of do. ... 23·90

The consignments of unrefined sugar from Behar to the North-Western Provinces and Oudh and the Central Provinces showed a rise of 14,066 maunds and 9,221 maunds, respectively.

TOBACCO, UNMANUFACTURED.

Quantity of increase ... 51,177 mds.
Percentage of do. ... 34·89

The tobacco crop in Behar was seriously injured by hailstorm in February last, but notwithstanding this fact the exports from that block to the North-Western Provinces increased by 32,569 maunds, and to the Central Provinces by 16,113 maunds.

Staples showing a decrease on the returns of the quarter ending the 30th June, 1888.

COAL AND COKE.

Quantity of decrease ... 86,149 mds.
Percentage of do. ... 4·66

The decrease in despatches of coal up-country was due to a limited demand from railways and mills. In the preceding quarter large supplies were sent upwards to meet the requirements of foreign railways and of the public generally.

RICE NOT IN THE HUSK.

Quantity of decrease ... 2,82,725 mds.
Percentage of do. ... 78·76

Last year the despatches were chiefly from Bengal to the North-West; this year nearly all loop line rice-producing stations failed, and stations from Gushkhara and below on the main line and a few stations on the lower end of the chord line sent their outturn to Calcutta During the quarter under review, the exports from Behar to the Upper Provinces amounted to only 5,078 maunds, against 29,267 maunds in the corresponding period of 1888, and the exports from Western Bengal to only 70,862 maunds, against 3,03,615 maunds.

IRON.

Quantity of decrease ... 63,268 mds.
Percentage of do. ... 34·96

The following remarks in the Report of the Traffic Manager, East Indian Railway, for June explain the cause of fluctuation under this head:—

"This decrease also was confined in a great measure to Howrah and *viâ* Chitpore, Barakár despatches falling considerably in addition. The demand up-country was very poor, and the Calcutta market was dull throughout the month. Last year, it will be remembered, considerable quantities of machinery were sent from Howrah for the cotton mills at Cawnpore, and the demand generally at up-country centres was good; Chitpore despatched machinery to Gwalior, and Agra sent old shot and shell, for which a specially reduced rate was quoted, to and *viâ* Delhi; the decrease is attributed in some degree also to the strike of cartmen in Calcutta."

SALT.

Quantity of decrease ... 24,743 mds.
Percentage of do. ... 21·81

The decrease occurred in the despatches from Calcutta to the North-Western Provinces and Oudh. The different districts which imported salt from Calcutta during the present quarter are named below, their supplies compared with the figures for the quarter ending the 30th June, 1888, being also given:—

Districts to which exported.	Exports from Howrah during the quarter ending the 30th June. 1888. Mds.	1889. Mds.	Districts to which exported.	Exports from Howrah during the quarter ending the 30th June. 1888. Mds.	1889. Mds.
Goruckpore	41,568	49,912	Jounpore	6,830	.....
Busti	31,779	28,459	Fyzabad	3,861	.....
Baraich	2,376	3,310	Other districts in the N.-W. P. and Oudh ...	3,311	2,733
Gonda	10,989	1,504			
Futtehpore	.....	1,203			
Ghazipore	4,158	1,201	Total ...	1,08,139	88,593
Benares	3,267	271			

In his report for June, 1889, the Traffic Manager, East Indian Railway, observes as follows:—

"I have recently reported specially on the traffic in salt from Howrah, particularly in regard to despatches to the Bengal and North-Western Railway which have since improved. In 1888, Howrah recorded an increase over the corresponding periods of the two previous years, and I have not been able to ascertain that the falling off this year is due, in any measure as might have been supposed, to increased importations of Sambhar or Kharagoda salt to districts usually supplied by imported salt. Although we received much larger quantities from Cawnpore, Bombay, Baroda and Central India Railway to *viâ* Cawnpore, Oudh and Rohilkhund Railway, it was booked principally to Oudh and Rohilkhund Railway stations."

SPICES—CHILLIES.

Quantity of decrease ... 19,018 mds.
Percentage of do. ... 67·73

The decrease, which occurred chiefly in despatches of chillies from Tirhoot, Mokameh, and Patna, was owing to a poor crop. Last year there was an exceptionally good traffic under this head.

INTERNAL TRADE OF THE LOWER PROVINCES.

STATEMENT III.

5. The total quantity of the internal trade of Bengal during the quarter ending the 30th June, 1889, showed a rise of 16,71,914 maunds, or 11·35 per cent., in comparison with the corresponding period last year. The subjoined statement shows the net traffic carried both ways, and the proportion of the Calcutta traffic to the total trade:—

	Quarter ending the 30th June.		Calcutta.		Proportion of the Calcutta traffic to the total trade.	
	1888.	1889.	1888.	1889.	1888.	1889.
	Mds.	Mds.	Mds.	Mds.	Per cent.	Per cent.
Downward traffic	1,12,61,187	1,27,21,664	94,15,059	1,09,63,079	83·60	86·17
Upward ,, ...	34,70,242	36,81,679	26,84,922	23,09,444	77·37	62·73
Total ...	1,47,31,429	1,64,03,343	1,20,99,981	1,32,72,523	82·14	80·91

6. The noticeable fluctuations in the principal commodities carried down and up the line are explained below :—

DOWNWARD TRAFFIC.

Articles showing an increase as compared with the quarter ending the 30th June, 1888.

COAL AND COKE.

Quantity of increase ... 12,58,643 mds.
Percentage of do. ... 25·12

The large increase in the despatches of coal was chiefly due to the increased consumption of Indian coal by steamers, and to the despatches of Bengal coal to outports for steamer use in competition with English coal. In his report for June, 1889, the Traffic Manager, East Indian Railway, writes :—

"The increase in our downward coal traffic was due, as previously reported, to the greater consumption of Indian coal by sea-going steamers. We are now doing our utmost to encourage the export of Bengal coal to coast ports, and I trust our endeavours to foster the traffic will lead to still more encouraging results. Large quantities of coal for the Eastern Bengal State Railway and for the Kidderpore Dock works were sent down. Owing to the opening of the coal branch of the Bengal-Nagpore Railway, which we commenced to work on the 12th June, the despatches from Barakár fell off by maunds 65,850, but we received at Asansol from the Bengal-Nagpore Railway during the same period maunds 1,52,000."

TURMERIC.

Quantity of increase ... 10,023 mds.
Percentage of do. ... 57·46

An increase of 8,070 maunds is shown in the consignments to Calcutta from Eastern Bengal, and of 2,276 maunds in those from the Northern Bengal block.

RICE IN THE HUSK.

Quantity of increase ... 1,78,995 mds.
Percentage of do. ... 53·69

RICE NOT IN THE HUSK.

Quantity of increase ... 1,18,813 mds.
Percentage of do. ... 20·69

Last year stations on the loop line exported large supplies of rice to the North-West, where the demand for cheap food-grains was very strong. This year large quantities were despatched from the Hooghly and Burdwan districts to Calcutta. From Northern Bengal also Calcutta drew more largely than in the corresponding period of 1888.

OTHER FOOD-GRAINS.

Quantity of increase ... 35,652 mds.
Percentage of do. ... 44·08

As regards other food-grains, the increase was principally in the despatches of oats and other grains from Bhagulpore, Patna, and some adjacent stations in Behar to meet a demand in Calcutta.

HIDES OF CATTLE.

Quantity of increase ... 19,816 mds.
Percentage of do. ... 31·76

The increase was mainly in the importation into Calcutta from Behar (12,386 maunds) and Dacca (5,085 maunds).

JUTE, RAW.

Quantity of increase ... 48,816 mds.
Percentage of do. ... 19·34

The supplies carried to Calcutta from Northern Bengal and Dacca were in excess of the quantities sent in the corresponding quarter of last year by 67,122 maunds and 34,412 maunds, respectively.

LINSEED.

Quantity of increase ... 2,70,516 mds.
Percentage of do. ... 18·44

RAPE AND MUSTARD SEED.

Quantity of increase... 3,43,289 mds.
Percentage of do. ... 276·19

CASTOR SEED.

Quantity of increase ... 1,41,517 mds.
Percentage of do. ... 255·72

The increases were due to a good demand for these staples in the Calcutta market. In the case of linseed, Calcutta received more from Behar (43,371 maunds), Western Bengal (34,084 maunds), Eastern Bengal (1,82,144 maunds), and Northern Bengal (13,087 maunds) than in the corresponding quarter last year. Similar increases are also shown in the imports of mustard seed into Calcutta from those blocks, but as regards castor seed the supplies were largest from Behar alone.

SALTPETRE.

Quantity of increase ... 7,702 mds.
Percentage of do. ... 8·05

The increase occurred in the despatches from Tirhoot *viâ* Mokameh Ghât and Patna to meet a demand in Calcutta.

SUGAR, UNREFINED.

Quantity of increase ... 1,15,942 mds.
Percentage of do. ... 87·83

The increase was principally in despatches from Arrah and *viâ* Digha, whence considerable quantities of jaggree were sent to Calcutta.

STONE AND LIME.

Quantity of increase ... 81,291 mds.
Percentage of do. ... 34·97

During the quarter under review, Calcutta drew 35,495 maunds and 15,567 maunds more from Behar and Western Bengal, respectively, while the imports into Eastern Bengal from Behar showed a rise of 26,674 maunds.

Articles showing a decrease as compared with the quarter ending the 30th June, 1888.

WHEAT.

Quantity of decrease ... 8,45,376 mds.
Percentage of do. ... 69·95

The despatches of wheat from Behar and Eastern Bengal to Calcutta showed a falling off of 72·39 per cent. and 59·02 per cent., respectively. The fluctuations were due to poor crops during the season.

GRAM AND PULSES.

Quantity of decrease ... 2,62,602 mds.
Percentage of do. ... 36·91

Indifferent harvests also affected the despatches of gram and pulses to Calcutta and Western Bengal from the Behar block, the exports from which showed a decrease of 91,650 maunds and 62,620 maunds, respectively, in comparison with the figures for the corresponding period of 1888.

GUNNY BAGS.

Quantity of decrease ... 17,920 mds.
Percentage of do. ... 21·06

The falling off under this head occurred in the imports into Calcutta from Northern Bengal.

POPPY SEED.

Quantity of decrease ... 44,994 mds.
Percentage of do. ... 34·67

The importation into Calcutta from the Behar block showed a falling off of 45,681 maunds in comparison with the trade of the corresponding quarter last year.

UPWARD TRAFFIC.

Articles showing an increase as compared with the quarter ending the 30th June, 1888.

COAL AND COKE.

Quantity of increase ... 2,07,829 mds.
Percentage of do. ... 91·33

The chief increase occurred in the quantities carried to Northern Bengal and Behar from the Western Bengal block.

COTTON TWIST AND YARN, EUROPEAN. Quantity of increase ... 9,087 mds. Percentage of do. ... 46·50	The increase occurred in the exports from Calcutta to the Eastern Bengal, Northern Bengal, and Dacca blocks.
RICE IN THE HUSK. Quantity of increase ... 56,912 mds. Percentage of do. ... 253·86 **RICE NOT IN THE HUSK.** Quantity of increase ... 3,27,610 mds. Percentage of do. ... 75·77	Large supplies of rice and paddy went to Behar from the Western Bengal block for local consumption, in consequence of a scarcity of food-grains in that tract of country.
IRON. Quantity of increase ... 15,432 mds. Percentage of do. ... 13·41	An increase occurred in the consignments from Calcutta to almost all the blocks.
BETEL-NUTS. Quantity of increase ... 7,525 mds. Percentage of do. ... 41·15	The above remarks apply to this case also.

Articles showing a decrease as compared with the quarter ending the 30th June, 1888.

COTTON PIECE-GOODS, EUROPEAN. Quantity of decrease ... 7,039 mds. Percentage of do. ... 2·24	The decrease was principally in the consignments to Behar from Calcutta.
KEROSINE OIL. Quantity of decrease ... 21,412 mds. Percentage of do. ... 21·93	The falling off in the imports into Behar from Calcutta was 13,369 maunds, and into Northern Bengal, 8,622 maunds.
SALT. Quantity of decrease ... 2,34,095 mds. Percentage of do. ... 16·99	The exports of salt from Calcutta to Behar fell off by 27·71 per cent., to Eastern Bengal by 19·01 per cent., and to the Dacca block by 56·65 per cent.

APPENDIX.

Statement showing the average wholesale prices of articles of trade during the quarter ending the 30th June, 1889, as well as the rates of deduction made from the gross weight to obtain net weight.

Reg. No. 2551J—500—19-10-89.

BY ORDER OF THE GOVERNOR OF BENGAL

RETURNS

OF THE

RAIL-BORNE TRADE OF BENGAL

For the quarter ending the 30th September 1889.

Calcutta:

PRINTED AT THE BENGAL SECRETARIAT PRESS.

1890.

RETURNS

OF THE

RAIL-BORNE TRADE OF BENGAL

During the quarter ending the 30th September, 1889.

RAILWAY FREIGHTS.

THE changes made by the East Indian Railway during the past quarter, as compared with the corresponding period in 1888, affected the following articles:—

1. Coal.
2. Cotton piece-goods.
3. Dyes and tans.
4. Jute, raw.
5. Gunny bags and cloth.
6. Metals.
7. Paper and pasteboard.
8. Salt.
9. Stone.

Coal.—During the quarter under report, this article was despatched in full truck loads from the Calcutta Coal Association siding and west Ghoosick siding to Howrah and all stations up to Memari inclusive, and to Ahmadpore and Nalhati, at the rate of Rs. 13-4 per 100 maunds. The rate on consignments to Naihati for through-booking with stations on the Eastern Bengal State Railway, except Sealdah, Chitpore, and the Port Trust Railway stations, was Rs. 11-4 per 100 maunds. No rate was quoted for this article in the quarter ending the 30th September, 1888. No change was made in rate of freight on coke.

Cotton piece-goods.—The charge on European and Indian goods carried from, and *viâ*, Cawnpore to Howrah, was reduced from Rs. 180 in August, 1888, to Rs. 178 per 100 maunds in August, 1889. This rate is exclusive of the Hooghly Bridge toll.

Dyes and tans.—During August and September, 1889, *Al* root, which is included under the head "other" dyes and tans, was carried from Cawnpore and Aligarh to, and from, the following stations at the rates given below:—

		For traffic from, or to, Ujiarpore and stations below.		For traffic from, or to, Somastipore and stations above, including Sonepore and stations on the Mozufferpore branch.	
Viâ Digha Ghât.		Per 100 mds.		Per 100 mds.	
		Rs.	A.	Rs.	A.
From, and to, and *viâ*, Cawnpore	1888	46	0	46	0
	1889	42	0	42	0
Ditto ditto Aligarh	1888	68	0	68	0

Discount was allowed (on the above rates) on pressed Jute, as follows:—

"Pucca" bales, averaging 5 maunds each ... . 30 per cent.
"Kutcha" bales, averaging 3½ maunds each, and measuring not more than 13½ cubic feet ... ... 25 do.
"Kutcha" bales, averaging 3 maunds each, and measuring not more than 13½ cubic feet ... ... 20 do.

The above rates were inclusive of the Hooghly Bridge toll: those quoted to Shalimar included the Port Trust Railway charge.

Gunny bags and cloth.—During the quarter under report, gunnies were charged at the special class B rate, viz., ¼ of a pie per maund per mile, subject to a minimum weight of 250 maunds per wagon. In the corresponding quarter in 1889, the charge on these articles was according to the actual weight carried.

Metals.—The rate of freight from Howrah to Delhi on machinery for cotton mills was reduced from Rs. 164-2 per 100 maunds in September, 1888, to Rs. 130 per 100 maunds in September, 1889.

Paper and pasteboard.—During August and September, 1889, pasteboard valued at less than Rs. 10 per maund, was carried from Howrah to, and *viâ*, Delhi at first class rates, viz., ⅓ of a pie per maund per mile on actual weight. In the corresponding months in 1888, second class rates were charged, viz., ½ a pie per maund per mile.

Salt.—During August, 1888 and 1889, salt was carried from Kheora *viâ* Ghaziabad to the undermentioned stations at the rates specified below:—

To	1888. Per 100 maunds.		1889. Per 100 maunds.	
	Rs.	A.	Rs.	A.
Patna	35	3	53	0
Gya	39	3	57	0
Bucktearpore	60	0	57	0
Jehanabad	60	0	59	0
Bela	61	0	59	0
Bhita	57	0	50	3

During September, 1888 and 1889, the following rates were charged:—

To	1888. Per 100 maunds.		1889. Per 100 maunds.	
	Rs.	A.	Rs.	A.
Tari Ghât ... ... / Gahmar	50	6	32	3
Mirzapore	44	0	30	3
Buxar	52	6	35	3
Chausa	51	6	34	3

Stone.—During August and September, 1889, stone was carried from Vindhyachal in the Central Provinces to the following places at the rates given below, at the risk of the owners. In the corresponding months in 1888, no rate was quoted:—

To	Per wagon load. Rs.
Howrah / Balliaghatta / Chitpore *viâ* Naihati	101
Munihari Ghât	83
Sahebgunge	68
Semaria Ghât	56
Mokameh Ghât	45
Digha Ghât	38
Patna Ghât	40
Sainthia	86

Loading and unloading at destination was affected by senders and consignees with the following exceptions, viz:—

The rates to Semaria Ghât included ferry and transhipment, but not unloading, charges, while the Munihari Ghât rate included unloading charges.

Any excess over 325 maunds loaded in the same wagon was charged in proportion to the wagon rate.

2. No changes in the rates of freight were made by any other railways in Bengal.

EXTERNAL TRADE OF THE LOWER PROVINCES.

STATEMENT II.

3. The total traffic carried during the quarter ending the 30th September, 1889, showed an advance of 2,37,778 maunds, or 5·27 per cent., in comparison with the corresponding period of 1887-88. The increase occurred chiefly under imports, which rose from 20,06,100 maunds to 22,96,925 maunds. As regards exports, there was a falling off of 53,047 maunds, or 2·14 per cent. In his report for July, 1889, the Traffic Manager, East Indian Railway, wrote as follows:—

"An increase in our goods traffic also, occurring at a time when we generally expect to see a falling off, was most satisfactory. With the exception of a serious decline in wheat, the increase extended to nearly all staples of importance, being especially noticeable under the heads of coal and coke, gram and pulses, minerals and seeds."

In respect of the traffic lifted during August, 1889, he made the remarks extracted below :—

"Although there was an increase in the weight carried, a small decrease is recorded in our earnings. Except the serious falling off in the two important staples "wheat" and "seeds," we have, in my opinion, little to complain of. The expectations of a brisk traffic, raised in the early part of the year, by report of bumper crops and consequent prosperity, have been dissipated by a poor outturn of oilseeds, and an inferior and deficient wheat harvest throughout the chief producing districts in the North-Western Provinces and Oudh. Our coal and stone traffic were particularly good, but unfortunately these staples do not yield such large returns as wheat and seeds."

The report for September, 1889, shows that the decrease under the head "Merchandise" was caused principally by a serious falling off in the principal items of produce traffic, viz., wheat, rice and seeds. In articles of import, the traffic generally was good.

4. The following important fluctuations in the imports occurred during the quarter under report :—

IMPORTS.

Percentage of do. ... 5,121·27

JOWAR AND BAJRA.

Quantity of increase ... 20,681 mds.
Percentage of do. ... 5,442·37

GRAM AND PULSES.

Quantity of increase ... 4,48,599 mds.
Percentage of do. ... 507·40

OTHER FOOD-GRAINS.

Quantity of increase ... 60,254 mds.
Percentage of do. ... 32·85

These advances are in continuation of the increased traffic in food-grains referred to in the previous quarter's report. Concerning gram and pulses, the following account is given in the Traffic Manager's Report for July, 1889 :—

"This large increase consisted chiefly of gram and the description of *dall* known as *arhar* consigned from stations in the Delhi, Aligarh, and Agra districts to Calcutta, where the demand for local consumption, referred to in my last monthly report, continued. The pulse crops in the districts named are reported to have been good: a demand also sprung up in Tirhoot, where there is a scarcity, and several stations commenced consigning to Mozufferpore and other Tirhoot State Railway stations in response."

As regards "other" or miscellaneous food-grains, the increase was chiefly in oats and barley carried over longer leads to Calcutta and Tirhoot *viâ* Moghulsarai, the former importing from the North-Western Provinces and Oudh and the Punjab, and the latter from the North-Western Provinces and Oudh alone.

LINSEED.

Quantity of increase ... 1,19,320 mds.
Percentage of do. ... 25·50

Notwithstanding the poor outturn of oilseeds in the Upper Provinces, the high prices for linseed in the Calcutta market and the high steamer freights referred to in the report of the previous quarter, continued during the preceding three months, which stimulated the imports of this article into Calcutta from the North-Western Provinces and the Punjab. In the report for July, 1889, the Traffic Manager, East Indian Railway, writes :—

"At the beginning of the month exceptionally high prices were paid in Calcutta for linseed, but these were not maintained, although on the 27th July it was reported that there was 'a strong market with indications of a further advance.' Between the 29th of June and the 27th of July, the freight on linseed for shipment *viâ* the Canal rose from £1 3*s.* 9*d.* to £1 15*s.* 6*d.*"

In the following month it was reported that linseed was selling in Calcutta at nearly 25 per cent. above its normal value in times of abundance. In September, 1889, the Calcutta prices were better than in the corresponding period of 1888, as will be seen from the following comparison of prices :—

Linseed, small to medium, 4 per cent. to 6 per cent. refraction.

	1888.		1889.	
	Rs.	A.	Rs.	A.
Week ended 7th September	4	4	5	2
" 17th "	4	5	5	0
" 24th "	4	6	5	2

GHEE.

Quantity of increase ... 7,236 mds.
Percentage of do. ... 43·24

The increase for the most part occurred in September, 1889, when the demand for ghee in Calcutta was good in anticipation of the Doorga Poojah holidays, and supplies were drawn to a greater extent than in the corresponding period of 1888 from the ghee-producing districts in the North-Western Provinces. It was stated that Etawa, with a decrease of 500 maunds in weight despatched, showed larger earnings by Rs. 1,000, the Calcutta consignments having increased at the expense of Bombay.

STONE AND LIME.

Quantity of increase ... 20,295 mds.
Percentage of do. ... 19·85

The increase under this head is due to Behar, having imported 18,801 maunds more from the North-Western Provinces than in the corresponding period last year, and 6,270 maunds more from the Central Provinces.

In connection with the lime trade, the Traffic Manager, East Indian Railway, wrote in August last as follows :—

"From Katni, lime is also sent in large quantities to Calcutta, and to wherever there is a demand. The traffic has improved generally, the Katni lime being considered superior to other kinds is now consigned over long distances in all directions."

SUGAR, UNREFINED.

Quantity of increase ... 23,212 mds.
Percentage of do. ... 471·92

Calcutta received a large supply of the cheaper quality of sugar despatched from the North-Western Provinces *viâ* Moghulsarai for export to England, and Behar also drew largely from the same source.

Staples showing a decrease on the returns of the quarter ending the 30th September 1888.

COTTON, RAW.

Quantity of decrease ... 4,484 mds.
Percentage of do. ... 13·17

This is an ordinary fluctuation, the exports from the North-Western Provinces and Oudh showing the largest decrease. The East Indian Railway Traffic Report for September, 1889, states that there was little or no cotton of the old crop available for despatch, and the new crop had not been picked before the close of the month.

WHEAT.

Quantity of decrease ... 1,65,692 mds.
Percentage of do. ... 27·94

The decrease is attributable to the failure of the wheat crops in the season 1888-89. The falling off occurred in the supplies sent from the North-Western Provinces and Oudh to Calcutta, where prices offered in July last were almost nominal, and there was practically no demand. There was no improvement in the following month, as will be seen from the extract given below from the Traffic Manager's report for August, 1889 :—

"The continued decrease in wheat can only be ascribed to the indifferent crops, the high prices prevailing up-country, and the absence of demand for Indian wheat in the European markets. The *Englishman* of the 13th September reports 'the price of wheat has remained at a level which has reduced exports to very small proportions.' From Bombay we hear that a dull tone has characterized the market there. In England the prospects of the harvest were reported good.

"The following, an extract from the *Economist* of the 7th September last, is interesting as bearing on the subject of wheat exports from India :—

'Exports of wheat from India.

'For some time past the imports of wheat into the United Kingdom from India have been declining, and as the following official figures show there has also been a diminution in the exports of wheat from India to nearly all other countries, but especially to France :—

Exports of wheat from India in the quarter ended June 30th.

	1889.	1888.	1887.
	Cwts.	Cwts.	Cwts.
United Kingdom ...	1,807,057	2,797,145	3,959,863

Total ...	3,646,590	6,785,636	8,537,342

HEAT—*concld.*

"The decline in the case of the United Kingdom is small as compared with that shown in the case of France and Belgium, to which countries an exceptionally large amount of wheat was exported in 1888. There is also a heavy falling off in the exports to Italy, but in the case of Italy, last year's totals were comparatively small, 1887 having been the 'bumper' export year to that country. Although in many respects Indian wheat, like the better class Russian grain, is especially well suited for many consumptive purposes on the Continent, it is evident that its use depends, to a large extent upon prices, which are determined by the character of the crops.'"

In September, 1889, however, the despatches to Calcutta from Delhi and the North-Western Railway "were 75,475 maunds as compared with 1,000 maunds in September, 1888, but the imports were principally for local consumption, the total exports having been 2,350 tons (63,972 maunds) only."

MUSTARD SEED.

Quantity of decrease ... 1,41,219 mds.
Percentage of do. ... 64·99

POPPY SEED.

Quantity of decrease ... 11,488 mds.
Percentage of do. ... 17·00

CASTOR SEED.

Quantity of decrease ... 18,559 mds.
Percentage of do. ... 53·22

OTHER OILSEEDS.

Quantity of decrease ... 70,985 mds.
Percentage of do. ... 95·54

Owing to poor crops, the exports of mustard seed from the North-Western Provinces fell off by 1,35,371 maunds, viz. by 75,057 maunds to Calcutta, by 56,816 maunds to Western Bengal, and by 3,498 maunds to Behar.

The falling off in the case of poppy, castor, and other oilseeds also occurred in the supplies drawn from the North-Western Provinces.

5. The following were the more important fluctuations in connection with the export trade during the quarter under review :—

EXPORTS.

Staples showing an increase on the returns of the quarter ending the 30th September, 1888.

COAL AND COKE.

Quantity of increase ... 1,20,066 mds.
Percentage of do. ... 8·06

A good business was done in coal during July and August, but there were smaller despatches in September last. The following remarks made by the Traffic Manager, East India Railway, in his report for July, 1889, is worthy of notice :—

"Our coal traffic in both directions was good. The increase in upwards despatches was chiefly from Asansol to Moghalsarai for the Oudh and Rohilkhand Railway and from Giridih to Agra for the Bombay, Baroda, and Central India Railway, to Ghaziabad, *viâ* East Indian Railway for the North-Western Railway, and to Saharanpur *viâ* Moghalsarai for the same Railway.

"During the period under review it was noticed that coal for the North-Western Railway was being consigned *viâ* Moghalsarai instead of *viâ* Ghaziabad, the charge by the former route being less owing to the slight difference in distance, the rate at which State Railway coal is charged now is the same over this, the Oudh and Rohilkhand and North-Western Railways and *viâ* the two routes compares as under:—

	Rs.	A.	P.
Giridih to Ghaziabad at $\frac{1}{10}$ pie per maund per mile ...	41	0	0
Ghaziabad to Saharanpur at $\frac{1}{10}$ pie per maund per mile ...	5	2	0
Total ...	46	2	0
Giridih to Moghal Sarai at $\frac{1}{10}$ pie per maund per mile ...	16	0	0
Moghal Sarai to Saharanpur at $\frac{1}{10}$ pie per maund per mile ...	28	0	0
Total ...	44	0	0

As reported at the time, despatches *viâ* the new route commenced from the 14th of July, and up to the 27th idem over 45,000 maunds had been invoiced by Giridih to *viâ* Moghalsarai. Our loss on each 100 maunds carried being equal to Rs 25.

"In coal for the public consigned *viâ* Digha and to Cawnpore there was also an increase."

In his report for September, 1889, however, the Traffic Manager wrote as follows :—

"In the upward traffic the decrease was due to smaller despatches than in 1888 on account of foreign railways, notably the Oudh and Rohilkhand, the Indian Midland, and the Bombay, Baroda, and Central India Railways. The Bengal and North-Western Railway also sent limited orders on account of poor traffic. The takings of Umaria coal by the Indian Midland Railway increased at the expense of the Bengal coal fields.

"The following statement shows the despatches of Umaria coal during the corresponding periods of 1888 and 1889:—

	1888. Mds.	1889. Mds.
For Jubbulpore and beyond chiefly for the Great Indian Peninsula and Indian Midland Railways	64,230	75,993
For Manikpur and *viâ* for the Indian Midland Railway ...	.....	5,445
For other stations	816	8,059

COPPER, UNWROUGHT.

Quantity of increase ... 17,864 mds.
Percentage of do. ... 998·54

The demand for copper was at the principal trade centres of the North-Western Provinces and the Punjab, and was met by Calcutta. In the East Indian Railway Traffic Report for August, 1889, it was stated that "the demand up-country was good, and in Calcutta prices were reasonable, and a fair business was done." The copper trade has been steadily reviving since the previous quarter under the decline of prices in England.

IRON.

Quantity of increase ... 26,128 mds.
Percentage of do. ... 21·39

A large quantity of tramway materials were sent to Shahjahanpore from Howrah, and iron pipes and machinery also were sent in August last for the Agra Water-works, as the following extract will show—

"A Calcutta firm assisted by the special rates we quoted was happily able to secure the contract for supplying the iron pipes and machinery required for the Agra Water-works scheme, and to this circumstance the increase in despatches from Howrah was due."

KEROSINE OIL.

Quantity of increase ... 20,818 mds.
Percentage of do. ... 42·08

The increase occurred in the exports from Calcutta to the North-Western Provinces and Oudh. The condition of this trade is thus described by the Traffic Manager, East Indian Railway, in his report for July, 1889.

"The traffic in kerosine oil from Howrah and Calcutta which has latterly been in a somewhat abnormal state, improved by nearly 10,000 maunds, although there was at the same time an increase of over 6,000 maunds in despatches by river steamer to Patna, the difference in rates being equal to Rs. 11-8-0 per 100 maunds in favour of the steamer companies. It will be remembered that last year also in the corresponding period there was an increase over the previous year's despatches, and it is satisfactory to note the gradual development of this traffic owing to the favourable rates quoted by us and to the circumstance that kerosine is, by reason of its cheapness and the better light it affords, steadily replacing castor oil, even in the most remote villages."

SUGAR, REFINED.

Quantity of increase ... 10,377 mds.
Percentage of do. .. 149·85

The *jaggree* season commenced in September, 1889, and will last up to April, 1890. In the present case the increase occurred in the despatches from Howrah to the North-Western Provinces.

TOBACCO.

Quantity of increase ... 12,749 mds.
Percentage of do. ... 48·42

The increase was principally in despatches from Mokameh, Barh, Patna, and the Tirhoot State Railway to Hathras, and the Great Indian Peninsula Railway.

Staples showing a decrease on the Returns of the quarter ending the 30th September, 1888.

PADDY.

Quantity of decrease ... 7,513 mds.
Percentage of do. ... 77·84

RICE.

Quantity of decrease ... 2,16,128 mds
Percentage of do. ... 81·33

GRAM AND PULSES.

Quantity of decrease ... 17,316 mds.
Percentage of do. ... 97·13

The large decrease shown under rice need cause no apprehension, as the traffic under this head last year was stimulated by abnormal causes, which did not exist in the present quarter. The falling off under gram and pulses occurred in the despatches from Behar to the North-Western Provinces.

GUNNY BAGS AND CLOTH.

Quantity of decrease ... 27,500 mds.
Percentage of do. ... 32·68

The decrease may be attributed to the poor business in wheat and seeds. The fluctuations were principally in despatches from Howrah and Bhuddressur to Cawnpore City, Delhi and stations in the Punjab. As regards the latter stations, it is stated that there was a brisk traffic in September 1888 in wheat for Bombay, the demand for bags being met from Howrah.

SUGAR, UNREFINED.

Quantity of decrease ... 12,627 mds.
Percentage of do. ... 64·73

The supply carried to the North-Western Provinces and Oudh from Behar showed a falling off of 8,955 maunds, and from Calcutta of 2,116 maunds.

INTERNAL TRADE OF THE LOWER PROVINCES.

STATEMENT III.

6. The gross traffic registered during the quarter ending the 30th September, 1889, was 2,08,533 maunds, or 1·32 per cent. in excess of the figures for the corresponding period of 1888, the increase being observable both in the downward and upward trade. The net quantity carried both ways, and the proportion of the Calcutta trade to the total traffic, are shown in the subjoined statement:—

	Quarter ending 30th September.		Calcutta traffic.		Proportion of Calcutta traffic to the total trade.	
	1888.	1889.	1888.	1889.	1888.	1889.
	Mds.	Mds.	Mds.	Mds.	Per cent.	Per cent.
Downward traffic	1,31,69,504	1,32,73,566	1,16,23,952	1,17,99,928	88·26	88·83
Upward	26,67,461	27,71,933	19,35,861	19,47,909	72·57	70·27
Total ...	1,58,36,965	1,60,45,498	1,35,59,813	1,37,38,837	85·62	85·62

7. It will be seen that the proportion of the Calcutta trade to the total traffic was exactly the same as in the quarter ending the 30th September, 1888. The causes of the fluctuations in the principal articles of traffic are given in the statements below:—

DOWNWARD TRAFFIC.

Articles showing an increase as compared with the quarter ending the 30th September, 1888.

COAL AND COKE.

Quantity of increase ... 1,85,034 mds.
Percentage of do. ... 3·30

As explained in previous returns, the increase in downward despatches was due to the continued demand for Bengal coal for shipment to coast ports.

RICE.

Quantity of increase ... 94,220 mds.
Percentage of do. ... 32·10

PADDY.

Quantity of increase ... 1,72,758 mds.
Percentage of do. ... 452·49

In the case of the East Indian Railway the increase under rice and paddy was almost entirely confined to short lead traffic from the districts between Raneegunge and Hooghly to Calcutta. The better kind of rice grown in Eastern Bengal was exported from Calcutta in large quantities to the West Indies, Jedda and other coast ports, and this resulted in a demand for the poorer description of rice for local consumption, which was met principally by Burdwan, Raneegunge and adjacent stations.

On the Eastern Bengal State Railway, however, the figures under rice showed a decrease of 90,964 maunds in the consignments to Calcutta from the Eastern and Northern Bengal block, while in the case of paddy, there was an increase of 53,457 maunds in the despatches from Northern to Eastern Bengal.

HIDES.

Quantity of increase ... 16,858 mds.
Percentage of do. ... 34·49

As in the preceding quarter, the increase occurred in the consignments sent to Calcutta from Behar and Dacca.

MUSTARD SEED.

Quantity of increase ... 3,27,477 mds.
Percentage of do. ... 311·52

CASTOR SEED.

Quantity of increase ... 95,029 mds.
Percentage of do. ... 390·42

Large quantities of mustard seed were sent to Calcutta from all parts of the Lower Provinces. On this subject, the Traffic Manager, East Indian Railway, in his report for July, 1889, writes—

"In the mustard and rape seed the net increase amounted to maunds 1,35,660 and Rs. 15,640. The month opened with a very excited market in Calcutta, and the excitement continued throughout the period under review. An extensive business in rape seed passed, but steamer freights were abnormally high, and this coupled with poor supplies checked what otherwise would have been an exceptionally heavy traffic. The steamer freights *viâ* Canal rose to as much as from £1 15*s.* to £2. *Viâ* Mokameh and *viâ* Digha contributed most towards the increase in despatches to Calcutta.

"In other seeds there was a considerable advance, chiefly in castor and poppy seed received from the Tirhoot State Railway at Mokameh Ghât and from the Bengal and North-Western Railway at Digha."

STONE AND LIME.

Quantity of increase ... 2,15,967 mds.
Percentage of do. ... 146·63

The lime traffic showed a substantial advance: it consists for the most part of ghooting lime consigned from Ondal and Ranigunge. This lime is used largely in connection with the Kidderpore Dock Works.

As regards stone, there were large despatches for municipal purposes from Pakur to Calcutta. Formerly, this article used to be carried by river, but it has recently been attracted to the railway in consequence of a special reduction of freight.

TOBACCO, UNMANUFACTURED.

Quantity of increase ... 35,162 mds.
Percentage of do. ... 27·56

The increase in the imports into Calcutta from Northern Bengal was 31,161 maunds, and from Behar 198 maunds. In his report for August, 1889, the Traffic Manager, East Indian Railway, observes as follows:—

"The bulk of the traffic was in Tirhoot tobacco received *viâ* Mokameh Ghât, but there was also a substantial increase in Purneah tobacco received *viâ* Sahebgunge, and in Maldah tobacco received *viâ* Rajmehal. The rates for tobacco from Purneah are now having attention, as the extension of the Assam-Behar State Railway has opened an alternative route to Calcutta, although present rates are somewhat in favour of the Eastern Bengal State Railway route. Enquiry shows that merchants have hitherto preferred consigning *viâ* the East Indian Railway, which is the shorter and, therefore, in our view the legitimate route for the traffic to follow. It is doubtful whether any reduction in our rates is needed at present, but I will shortly report specially on this subject."

Articles showing a decrease as compared with the quarter ending the 30th September, 1889.

COTTON, RAW.

Quantity of decrease ... 10,520 mds.
Percentage of do. ... 75·32

The cotton crop in the Chittagong Hill Tracts was very poor owing to the unusual distribution of the rainfall in 1888-89, and hence the decline in the imports into Calcutta from Dacca during the quarter under review.

WHEAT.

Quantity of decrease ... 5,55,493 mds.
Percentage of do. ... 80·00

The wheat harvest in the Patna and Bhagulpore Divisions was very poor, the average outturn being 10 annas in each. In his report for July, 1889, the Traffic Manager observed that "the falling off was general throughout the system, but especially at Digha Ghât, where nearly a third of the total decreased weight was registered." The condition of the Calcutta trade in this staple has already been explained in the section reviewing the external trade of these provinces.

GRAM AND PULSES.

Quantity of decrease ... 2,04,218 mds.
Percentage of do. ... 56 96

The decrease occurred in the despatches to Calcutta from Behar and Eastern Bengal. Pulses yielded a good outturn in Bengal, but not in Behar. The East Indian Railway traffic report for September, 1889, showed that—

"The despatches from stations in the Sahebgunge and Dinapore districts showed a falling off, partly owing to poor crops, and partly because surplus stocks were in demand in the Tirhoot districts on the opposite side of the Ganges and were despatched there by country boats."

IRON.

Quantity of decrease ... 14,576 mds.
Percentage of do. ... 38·15

The decrease is attributable to a falling off in despatches to Calcutta from the Government Iron Works at Barakar.

LINSEED.

Quantity of decrease ... 2,19,210 mds.
Percentage of do. ... 17·93

TIL OR JINGILI.

Quantity of decrease ... 33,722 mds.
Percentage of do. ... 80·78

POPPY.

Quantity of decrease ... 56,642 mds
Percentage of do. ... 59·03

The outturn of oilseeds generally fell short of the average. As regards linseed, the Calcutta imports fell off by 1,84,283 maunds from Behar, and by 34,662 maunds from Eastern Bengal. The traffic report for August last shows that the falling off in seeds was chiefly from Patna, from which station, in consequence of the dulness of the Calcutta market, dealers despatched some consignments by river steamers, the speedier transit by rail being under the circumstances of no avail.

The decrease under til seed occurred in the consignments to Calcutta from Eastern and Northern Bengal, and that under poppy seed from Behar alone.

UPWARD TRAFFIC.

Articles showing an increase as compared with the quarter ending the 30th September, 1888.

COAL AND COKE.

Quantity of increase ... 69,879 mds.
Percentage of do. ... 73·59

Increases were shown in the traffic from Ondál in the Burdwan district, owing to despatches by the Bengal Coal Company to Sahebgunge for the Assam-Behar State Railway.

COTTON TWIST AND YARN, EUROPEAN.

Quantity of increase ... 10,421 mds.
Percentage of do. ... 54·15

In the previous quarter there was a substantial increase under this head, but in the present quarter the quantities carried to Northern Bengal from Calcutta showed an advance of 2,922 maunds, and to Dacca of 4,686 maunds.

IRON.

Quantity of increase ... 16,060 mds.
Percentage of do. ... 16·59

There were increases in the consignments to Behar and Western Bengal from Calcutta. The Traffic Manager, East Indian Railway, reported in September last that, in competition with the steamer company, specially reduced rates were quoted for these materials between Howrah and Patna, and to this may be attributed the increased imports into Behar.

SALT.

Quantity of increase ... 23,027 mds.
Percentage of do. ... 2·76

The exports of salt from Calcutta to Behar showed an advance of 34,635 maunds or 7·35 per cent., to Western Bengal of 14,126 maunds or 12·78 per cent., and to Eastern Bengal of 4,530 maunds or 5·31 per cent. The bulk of the Behar supply went principally to stations below Patna, to *viâ* Digha Ghât, and *viâ* Mokameh Ghât.

Articles showing a decrease as compared with the quarter ending the 30th September, 1888.

COTTON PIECE-GOODS, EUROPEAN.

Quantity of decrease ... 6,544 mds.
Percentage of do. ... 2·38

There were decreases in the exports to Behar and Eastern Bengal from Calcutta against an increase in the supplies carried to the Dacca Block. In Calcutta, the business done is reported to have been but small, the demand for piece-goods being affected by the poor outturn of the grain crop.

PADDY.

Quantity of decrease ... 12,218 mds.
Percentage of do ... 18·67

RICE.

Quantity of decrease ... 42,319 mds.
Percentage of do. ... 7·34

There was a considerable movement of rice last year from Howrah and from Loop-line stations to the Dinapore district to meet demands owing to local scarcity. There being no such demand this year, the exports from Calcutta to Behar showed a falling off of 72,428 maunds. On the other hand, large supplies of rice were sent to Behar from Western Bengal to meet the demands of the North Gangetic districts of Behar.

GUNNY BAGS AND CLOTH.

Quantity of decrease .. 13,356 mds.
Percentage of do. ... 22·45

The decrease occurred in the exports from Calcutta to Behar, owing to poor business being done in the wheat and seed trade.

KEROSINE OIL.

Quantity of decrease ... 11,261 mds.
Percentage of do. ... 10·41

The decrease occurred in the despatches from Calcutta to Behar, but there were increases shown in the consignments to the Western, Eastern, and Northern Bengal Blocks.

APPENDIX.

Statement showing the average wholesale prices of articles of trade during the quarter ending the 30th September, 1889, as well as the rates of deduction made from the gross weight to obtain net weight.

RETURNS

FORWARDED BY ORDER OF THE LIEUTENANT GOVERNOR OF BENGAL

OF THE

RAIL-BORNE TRADE OF BENGAL

For the quarter ending the 31st December 1889.

Calcutta:
PRINTED AT THE BENGAL SECRETARIAT PRESS.
1890.

RETURNS

OF THE

RAIL-BORNE TRADE OF BENGAL

During the quarter ending the 31st December, 1889.

RAILWAY FREIGHTS.

For the purposes of these returns, the articles of which the rates of freig were changed by the East Indian Railway during the quarter under review, as compared with the corresponding period in 1888-89, are specified below :—

1. Coal.	8. Iron.
2. Cotton, raw.	9. Kerosine oil.
3. Cotton manufactured.	10. Ghee.
4. Myrabolams.	11. Salt.
5. Food-grains and oil-seeds.	12. Spices.
6. Hides.	13. Stone.
7. Jute, raw.	14. Tobacco.

Coal.—This article was carried in full truck loads during the quarter from the Damooda coal siding to Howrah and all stations up to Memari, inclusive and to Ahmadpore and Nalhati, at the rate of Rs. 13-4 per 100 maunds. For consignments to Nalhati for through-booking to all stations on the Eastern Bengal State Railway, except Sealdah, Chitpore and the Port Trust Railway stations at Ruthtollah, Armenian Ghât, Cossipore, and the Jetties, the charge was Rs. 11-4 per 100 maunds. No rates were quoted in the corresponding quarter in 1888-89. No alteration was made during the present quarter in the rate of freight on coke.

Cotton, raw.—During November and December, 1889, raw cotton in bales weighing 400lbs. booked from, and *viâ*, Ghaziabad to Howrah for traffic from Saharunpore and stations above, was carried at the rate of Rs. 5-2, against Rs. 5-8-4 per 100 maunds in the corresponding months in the third quarter of 1888-89.

Cotton, manufactured.—The charge per 100 maunds on European cotton piece-goods and twist and yarn in bales (pressed and bound) or in boxes, from Howrah to and *viâ* Hathras, was reduced from Rs. 225 in December, 1888, to Rs. 219 in December, 1889. This charge was exclusive of the Hooghly Bridge toll. The freight on piece-goods carried between Howrah and Delhi and *viâ* Delhi was Rs. 238-9-4 against Rs. 241 per 100 maunds.

Dyes and tans.—During December, 1889, myrabolams when booked for distances of not less than 400 miles to Cawnpore in wagon loads of 270 maunds were charged at the special class B rate, viz., $\frac{1}{4}$ of a pie per maund per mile; against the 1st class rate of $\frac{1}{3}$ of a pie per maund per mile in December, 1888, the differential * rule applying.

Food-grains and oil-seeds.—During October, 1889, these staples were conveyed the through-distance from Saharunpore to Howrah *viâ* Moghalserai at the rate of Rs. 68 per 100 maunds. From Ghaziabad to Howrah for traffic from Saharunpore and stations above, the charge was Rs. 53-6-8 against Rs. 53 in the quarter ending the 31st December, 1888. In the case of consignments to Howrah, the special class condition, requiring bags not to exceed 2 maunds 22 seers in gross weight, was removed during November, 1889. Grain and seeds from and *viâ* Sahebgunge to Howrah for traffic from Raiganj and from Barsoe were charged respectively at the rate of Rs. 16-4-4 and Rs. 18-6-4 in

* *Differential rule.*—"When goods of the same description are charged at different rates according to distance or weight to be carried, the charge for the lesser distance or weight should never exceed the charge for the greater distance or weight, the lesser being included in the greater, except when otherwise provided."

December, 1889, against Rs. 21 per 100 maunds in December, 1888. The special class conditions relating to the maximum weight per bag, &c., were removed on consignments booked at these rates which were charged on the actual weight.

Hides.—During December, 1889, dry hides in bundles booked at owner's risk, from Khandwa and beyond to Howrah *viâ* Jubbulpore, were charged over the East Indian Railway at 3 annas per wagon per mile, irrespective of the quantity loaded, against Rs. 102 per 100 maunds for the entire distance in December, 1888.

Jute, raw.—The following rates were charged for raw jute booked from and *viâ* Sahebgunge to the under-mentioned stations during December, 1888, and December, 1889:—

To	December 1888.						December 1889.					
	Pressed.			Unpressed.			Pressed.			Unpressed.		
	Per 100 maunds.			Per 100 maunds.			Per 100 maunds.			Per 100 maunds.		
	Rs.	A.	P.	Rs.	A.	P.	Rs.	A.	P.	Rs.	A.	P.
Howrah ...	23	0	0	30	10	8	18	0	0	31	0	0
Bhadreswar ...	26	0	0	30	0	0	17	0	0	30	0	0
Patna Ghât ...	24	0	0	24	10	8	14	0	0	25	0	0
Cawnpore ...	53	0	0	73	5	4	42	0	0	73	0	0

Iron.—The rate of freight on iron or earthenware pipes for water-works despatched from Howrah to Allahabad during the quarter under report was reduced from Rs. 73 to Rs. 70 per 100 maunds. This charge was exclusive of the Hooghly Bridge toll. On unwrought iron booked from Howrah to Raiganj the charge in December, 1889, between Howrah and Sahebganj Ghât, was Rs. 36-1-8, against Rs. 40 per 100 maunds in December, 1888. Iron and steel of different descriptions were carried from Howrah to and *viâ* Hathras at Rs. 77-8, against Rs. 79 per 100 maunds in December, 1888. Iron beams, wrought iron, girders and joists, nails, plates and sheets, bolts and fastenings were charged at Rs. 73-5 4, against Rs. 79 per 100 maunds. These charges were exclusive of the Hooghly Bridge toll.

Oils.—During the quarter under review, kerosine oil in consignments of 300 maunds or multiples thereof from Howrah to Sahebgunge was charged at the rate of Rs. 22 per 100 maunds, and at Rs. 24-3 per 100 maunds when the consignments consisted of less than 300 maunds. In the corresponding quarter in 1888-89, the rates were Rs. 25 and Rs. 40 per 100 maunds, respectively. This oil re-booked from Sahebgunge for stations on the East Indian Railway, and when booked from stations between Sahebgunge and Luckeeserai and between Jamtara and Buxar, including the Gya line, was charged at 5th class rates, viz., 1 pie per maund per mile in local booking only, against ½ a pie per maund per mile in the quarter ending 31st December, 1888. In November, 1889, oil flashing at and above 73° (Fahrenheit) Abel's test, securely packed at owner's risk and despatched from Howrah to the following places was charged at the rates mentioned below, which are exclusive of the Hooghly Bridge toll:—

	1888.				1889.			
	To Shahebgunge. Per 100 maunds.		To Hathras. Per 100 maunds.		To and *viâ* Shahebgunge. Per 100 maunds.		To and *viâ* Hathras. Per 100 maunds.	
	Rs.	A.	Rs.	A.	Rs.	A.	Rs.	A.
In consignments under 300 maunds ...	40	0	115	8	24	3	117	8
Ditto in multiples of 300 maunds or over	25	0	110	0	22	0	107	0

Any quantity in excess of 300 maunds loaded in the same wagon was charged at the lower rate. In December, 1889, the charge on despatches from Howrah to and *viâ* Hathras, exclusive of the Hooghly Bridge toll, was Rs. 103-14-4 per 100 maunds. The rates in force in December, 1888, were the same as those shown above for November, 1888.

Ghee.—The following rates were charged during the quarters ending 31st December, 1888, and 31st December, 1889, on:—

During the quarter ending 31st December, 1889.	*During the quarter ending 31st December, 1888.*
In barrels, tubs, iron drums, and tins with secure outer cases, at railway risk, at 3rd class rates, viz., ⅓ of a pie per maund per mile.	In barrels, tubs, iron drums and secure outer cases ... 2nd class rates.
In barrels, tubs, iron drums, and tins with or without outer cases, carried distances under 150 miles, at owner's risk, at 2nd class rates, viz., ½ a pie per maund per mile.	In barrels, tubs, iron drums and secure outer cases when carried 150 miles and under, at owner's risk ... 1st ditto.
In barrels, tubs, iron drums, and tins with or without outer cases, carried 150 miles and over, at owner's risk, at 1st class rates, viz., ⅓ of a pie per maund per mile.	In tins for distances of 150 miles and over, at owner's risk ... ... 1st ditto.
In coopahs, at railway risk, at 3rd class rates.	In coopahs at owner's risk ... 2nd ditto.
Ditto at owner's risk, at 2nd ditto.	Ditto in tins at railway risk ... ... 3rd ditto.

Salt.—During December, 1889, salt was carried between Howrah and Sahebganj Ghât at Rs. 16-12-8, against Rs. 17-3 per 100 maunds in December, 1888.

Spices.—Cloves and pepper despatched from Howrah to Delhi were charged during December, 1889, at Rs. 279-3-4, against Rs. 333 per 100 maunds in December, 1888. Cloves, pepper and peepul (or long pepper) and spices not otherwise specified were carried from Howrah to and *viâ* Hathras, exclusive of the Hooghly Bridge toll, at Rs. 251-10-4 against Rs. 300 per 100 maunds in December, 1888.

Stone.—Stone ballast from Assansol to Howrah and from Pakur to Boinchee, Pandooah, Magra, Hooghly and Singhur was carried at owner's risk during the quarter under report at 3 annas per wagon load per mile. During December, stone when carried at owner's risk for distances exceeding 100 miles was charged at 3 annas per wagon per mile. Loading and unloading was effected by senders and consignees. During November, 1889, slates, packed or unpacked, and conveyed at owner's risk from Dharhara to Howrah, were charged on actual weight at 1st class mineral rates. During December, 1889, the charge was as follows:—

Stone of any description (including kunker and ballast) not packed, carried at owner's risk, subject to a minimum of 250 maunds per wagon.	Under 150 miles, 25 pies per 100 maunds per mile. Over 150 and under 300 miles, 20 pies per 100 maunds per mile. Over 300 miles, 16·66 pies per 100 maunds per mile.

Tobacco.—Native unmanufactured tobacco was carried in December, 1889, from and *viâ* Sahebgunge to Howrah for traffic from the under-mentioned stations at the rates given below, against a uniform rate of Rs. 59 per 100 maunds in December, 1888:—

	Rs.	A.	P.		Rs.	A.	P.
To Forbesgunge ...	43	7	0	To Kusba	51	4	0
„ Arrareah	46	9	0	„ Purneah	52	4	8
„ Kusbyargaon ...	48	10	4	„ Rautara	54	6	0

2. No changes were made by any other Railways in Bengal in the rates of freight during the 3rd quarter of 1889-90.

EXTERNAL TRADE OF THE LOWER PROVINCES.

STATEMENT II.

3. During the quarter under report, the import trade was 1,33,936 maunds, or 6·19 per cent. below the figures for the corresponding period of 1888, and the export trade 2,25,882 maunds, or 7·82 per cent., the total traffic lifted, indicating a decrease of 3,59,818 maunds, or 14·01 per cent.

4. The following were the most important fluctuations in the import trade :—

IMPORTS.

Staples showing an increase on the returns of the quarter ending the 31st December, 1888.

COTTON, RAW.

Quantity of increase ... 69,449 mds.
Percentage of do. ... 32·49

The increase is due principally to the circumstance that in 1888 cotton had not come into the market before the close of October to the same extent that it did in 1889. In addition to the season being earlier than in 1888, the outturn is reported to be better. In his report for November 1889, the Traffic Manager, East Indian Railway, wrote as follows :—

"Bombay is now competing very seriously with Calcutta, even at Cawnpore, where railway charges are 11 annas per maund in favour of Calcutta. From this station the despatches during the month to Bombay *viâ* Jubbulpore from our own depôt were more than twice as great as to Calcutta, and there were also numerous consignments by the Indian Midland Railway. In addition to its requirements in cotton for local manufacture, Bombay exported largely to Genoa, Triesto, and other continental ports."

The report for December, 1889, contains the following further information on the subject :—

"There was a heavy demand in Bombay for local consumption, buyers for manufacture being able to pay higher prices than exporters. To Calcutta, the traffic is principally for export, and exporters were at the same disadvantage as in Bombay.

"In the direction of Calcutta, the principal increase was from Cawnpore, which, however, sent largely to Bombay also. The question of the cotton rates to Calcutta and to Bombay from our stations received attention during the month, but it was agreed that no reduction which we could make, even if not followed by corresponding action by our competitors in Bombay, would influence the direction of the traffic."

INDIGO.

Quantity of increase ... 14,528 mds.
Percentage of do. ... 40·77

The increase occurred in the despatches to Calcutta from stations in the Tundla district. The indigo season was earlier in 1889 than in the previous year. The Traffic Manager, East Indian Railway, states that "it is not clear whether the total outturn will be appreciably greater, though improvement is reported in the North-West"

GRAM AND PULSES.

Quantity of increase ... 47,359 mds.
Percentage of do. ... 19·39

Owing to favourable rates obtaining in the Calcutta market, considerable increases are shown in despatches thereto from the Oudh and Rohilkund Railway *viâ* Moghulserai and stations between Allahabad and Agra. The supplies carried to Calcutta from the Punjab, however, showed a decrease of 54,504 maunds which is due to the fact that there were exceptional exports last year from Delhi to Howrah for despatch to the East Coast, where a famine was apprehended.

CASTOR SEED.

Quantity of increase ... 25,541 mds
Percentage of do. ... 113·70

There was a good demand for castor seed in Calcutta, which stimulated exports from the North-Western Provinces.

OPIUM.

Quantity of increase ... 6,491 mds.
Percentage of do. ... 18·41

There were increased despatches to Calcutta from the North-Western Provinces. The East Indian Railway traffic report for December, 1889, shows that the consignments of opium from the Government factories had been kept back during the previous month, owing to unsettled weather.

GHEE.

Quantity of increase ... 13,237 mds.
Percentage of do. ... 96·26

The largest supplies were sent to Western Bengal and Calcutta from the North-Western Provinces. The Traffic Manager, East Indian Railway, in his report for December 1889 remarked as follows:—

"From our traffic of the last four months it would appear that ghee from the North-Western Provinces is again coming into favour in Calcutta."

Staples showing a decrease on the returns of the quarter ending the 31st December, 1888.

WHEAT.

Quantity of decrease ... 42,425 mds.
Percentage of do. ... 10·12

Owing to causes explained in the previous quarter's report, supplies of wheat into Bengal from the North-Western Provinces showed a decline of 6,992 maunds in comparison with the figures for the corresponding quarter of 1888. The condition of the Calcutta wheat market is thus summarized in the East Indian Railway Traffic Report for October, 1889 :—

The total quantity of wheat carried to Howrah and Calcutta by this Company during the four weeks under review was 1,19,544 maunds. The total exports by sea during October were 53,920 cwt., say 2,700 tons, all for Great Britain. Sea freights gradually rose during the period to £1-7-6 per ton, but were still below last year's quotations, which varied between £1-10-0 and £1-12-6. Of the total quantity of wheat carried to Howrah, 57,254 maunds, or one-half, were from stations 700 miles distant and over. There were many decreases in the traffic from the Oudh and Rohilkhund, Bengal and North-Western Railways.

"The comparative average price of wheat in England during the period was 32*s*. in 1888 and 29*s*. 8*d*. in 1889.

The following extract is taken from the report for November, 1889.

"This year we have earned one rupee for every three maunds of wheat carried, while in 1888 the quantity was four maunds. During the month wheat was not of great importance as an export commodity, and the quality of stocks in the Calcutta market was reported to be bad."

OTHER FOOD-GRAINS.

Quantity of decrease ... 40,982 mds.
Percentage of do. ... 29·75

The decrease is observable in the importation into Behar from the North-Western Provinces and Oudh.

HIDES, DRESSED.

Quantity of decrease ... 28,511 mds.
Percentage of do. ... 53·93

Supplies are reported to be scarce, and there is little demand from Europe. The principal receiving station affected was Howrah, and the despatching stations, Cawnpore, Delhi and the Oudh and Rohilkhand Railway.

LINSEED.

Quantity of decrease ... 1,36,403 mds.
Percentage of do. ... 42·23

The decrease was principally in the consignments to Howrah from the North-Western Provinces where stocks were low. The Traffic Manager, East Indian Railway, furnishes the following particulars regarding the transactions in October, 1889 :—

"To the exporter as compared with 1888, Indian rates were much higher, while home prices were lower. The following is a comparison of Calcutta prices for the week ended 26th October 1889 and corresponding week of 1888 :—

Linseed, small to medium, 4 to 6 per cent. refraction per maund.

1889.	1888.
Rs. A. P.	Rs. A. P.
5 2 6	4 11 0

the difference being Rs. 2-6 per quarter of 410lbs. Home quotations were 9*d*. per quarter lower in 1889 than 1888."

In the following month *i.e.* in November 1889, it was stated that "the position was much the same as reported for October; the exhaustion of stocks has driven up Indian prices, while English quotations are on much the same level as in 1888, and exchange has gone up; so that a large traffic cannot be expected in this season's crops, and the new outturn must be awaited." In December, 1889, there was no improvement, the traffic being less than half that in December 1888 owing to depletion of stocks, and all important despatching stations were affected.

MUSTARD SEED.

Quantity of decrease ... 66,952 mds.
Percentage of do. ... 63·91

POPPY SEED.

Quantity of decrease ... 6,751 mds.
Percentage of do. ... 72·02

In both cases there were decreases in the despatches to Western Bengal and Calcutta from the North-Western Provinces. In mustard seed, the East Indian Railway Traffic Report shows that in consequence of small stocks there was a large falling off in consignments from Cawnpore and the neighbouring places, and from the Oudh and Rohilkhund Railway stations *viâ* Moghulserai.

SALT.

Quantity of decrease ... 13,087 mds.
Percentage of do. ... 41·47

The decrease occurred in the importation of indigenous salt into Behar from the Punjab.

TEA, INDIAN.

Quantity of decrease ... 4,909 mds.
Percentage of do. ... 56·09

The supplies carried to Calcutta from the North-Western Provinces and the Punjab showed a a falling off of 70·65 per cent. and 34·04 per cent. respectively.

5. The following were the important fluctuations in connection with the export trade during the period under review:—

EXPORTS.

Staples showing an increase on the returns of the quarter ending the 31st December, 1888.

COPPER, UNWROUGHT.

Quantity of increase ... 13,489 mds.
Percentage of do. ... 703·28

The increase was principally in despatches from Calcutta owing to prices being lower than in 1888.

IRON.

Quantity of increase ... 21,438 mds.
Percentage of do. ... 14·19

There were increased despatches from Calcutta to Agra and Allahabad for the new water-works.

KEROSINE OIL.

Quantity of increase ... 71,269 mds.
Percentage of do. ... 107·61

The consignments to the North-Western Provinces, the Punjab, and the Central Provinces from Calcutta, showed an advance of 60,401 maunds, 5,940 maunds, and 3,959 maunds, respectively, as compared with the figures for the corresponding quarter last year.

SUGAR, UNREFINED.

Quantity of increase ... 15,827 mds.
Percentage of do. ... 19·75

The largest increase was from the Gya line stations, which despatched principally to the Great Indian Peninsula Railway over long loads *viâ* Jubbulpore. The despatches generally from the sugar exporting stations in the Dinapore district were better than in 1888, during which year the crops had been injured by unseasonable weather.

TOBACCO, UNMANUFACTURED.

Quantity of increase ... 8,038 mds.
Percentage of do. ... 33·97

Large quantities were despatched by the Tirhoot State Railway and from Patna and Barh to the Great Indian Peninsula Railway and to the North-West.

Staples showing a decrease on the returns of the quarter ending the 31st December, 1888.

COAL AND COKE.

Quantity of decrease ... 2,21,933 mds.
Percentage of do. ... 13·90

The following explanation of the decrease is furnished by the Traffic Manager, East Indian Railway, in his report for December 1889:—

"In *upwards* traffic, the decrease was almost entirely at Giridih, and was in despatches for the Bombay, Baroda and Central India Railway, and for the Indian Midland Railway. The former Railway took unusually large quantities of coal at Agra in 1888, and the Indian Midland Railway, who were in December 1888 stacking coal with a view to take over the working of the line through from Cawnpore to Itársi from the 1st January 1889, are now using Umaria coal instead of Bengal coal. Karmatar also shows a heavy falling off, there having been a very limited traffic, while last year the North-Western Railway was taking largely from Mooduncutta."

PIECE-GOODS, EUROPEAN.

Quantity of decrease ... 13,335 mds.
Percentage of do. ... 5·40

The total supply carried to the Punjab from Calcutta showed a decline of 20,686 maunds, or 30·09 per cent., while the imports to the North-Western Provinces and Oudh from Calcutta rose by 72,23 maunds, or 4·15 per cent.

RICE NOT IN THE HUSK.

Quantity of decrease ... 1,07,566 mds.
Percentage of do. ... 62·61

The diminution in traffic is said to be due to the fact that in 1888 there was an exceptional demand up-country in consequence of scarcity, while in 1889 no such cause operated. The decline, was chiefly in the exports from the Western Bengal block.

GRAM AND PULSES.

Quantity of decrease ... 10,927 mds.
Percentage of do ... 95 81

The falling off occurred in the quantities sent to the North-Western Provinces from Behar, and is ascribed to the same cause as that explained above.

INTERNAL TRADE OF THE LOWER PROVINCES.

STATEMENT III.

6. THERE was a falling off of 15,15,125 maunds, or 8·33 per cent. in the gross weight carried, the decrease being both in the downward and upward traffic. In the down traffic the largest increase was in rice, mustard seed, and stone and lime, while very considerable decreases are shown in coal and linseed. As regards the up traffic, the figures showed an improvement in salt and kerosine oil, against a heavy falling off in rice. The net quantity carried both ways, and the proportion of the Calcutta traffic to the total trade, are given below :—

	Quarter ending the 31st December		Calcutta traffic.		Proportion of Calcutta traffic to the total trade.	
	1888.	1889.	1888.	1889.	1888.	1889.
	Mds.	Mds.	Mds.	Mds.	Per cent.	Per cent.
Downward traffic	1,51,71,137	1,40,09,927	1,33,16,725	1,23,57,273	87·78	88·20
Upward	30,09,255	26,55,340	21,39,140	23,01,171	71·09	86·67
Total ...	1,81,80,392	1,66,65,267	1,54,55,865	1,46,58,444	85·01	87·96

7. Notwithstanding the decrease in the traffic generally, a larger business was done with Calcutta, which showed an increase of 2·95 per cent. in comparison with the transactions of 1888. The following fluctuations deserve notice.

DOWNWARD TRAFFIC.

Articles showing an increase as compared with the quarter ending the 31st December, 1888.

RICE NOT IN THE HUSK.

Quantity of increase ... 4,47,020 mds.
Percentage of do. ... 95·37

The increase is in continuation of the large traffic carried to Calcutta for local consumption during the previous quarter. By far the largest quantity was consigned in December last, the East Indian Railway Traffic Report for which month showed that "under a very good demand for rice for export, the deliveries at Howrah increased, being more than 3,00,000 maunds.

JUTE, RAW.

Quantity of increase ... 64,917 mds.
Percentage of do. ... 1·63

There was an increase of 4,64,060 maunds in the consignments to Calcutta from Dacca, but the supplies from Eastern and Northern Bengal fell off by 1,30,882 maunds and 95,096 maunds, respectively. The supplies carried from the latter block to Western and Eastern Bengal also diminished. The Traffic Manager, East Indian Railway, writes as follows :—

"The decrease was principally in consignments from the Assam-Behar State Railway *viâ* Sahebgunge. The jute raw crop in the Purneah district was late, and the outturn less than in 1888 owing to floods, while the purchasers in this district were not so numerous as in 1888."

RAPE AND MUSTARD.

Quantity of increase ... 2,01,013 mds.
Percentage of do. ... 144·67

The increase occurred in the despatches to Calcutta from Behar and Northern and Western Bengal blocks. It is explained that the Calcutta rate hardened during November last, and there was a steady traffic for local consumption.

STONE AND LIME.

Quantity of increase ... 1,63,646 mds.
Percentage of do. ... 144·39

The increases under stone were principally in road metal from Assansol and Pakur, for the Calcutta and other Municipalities, while lime was consigned in large quantities for Calcutta from Rajbandh, Durgapur, Raneegunge, and Asansol on the chord line.

SUGAR, UNREFINED.

Quantity of increase ... 76,644 mds.
Percentage of do. ... 167·90

The East Indian Railway Traffic Report for December last shows that the principal increase was in the despatches from stations on the Gya line, where last year the crops were late as well as poor. The consignments from these stations were principally to Howrah, to meet a demand in Calcutta owing to smaller supplies being received from Mauritius. A general increase was also shown in the sugar despatching stations in the Dinapore district.

TEA, INDIAN.

Quantity of increase ... 26,131 mds.
Percentage of do. ... 24·75

The advance was mainly in the importation into Calcutta from the Northern Bengal block.

Articles showing a decrease as compared with the quarter ending the 31st December, 1888.

COAL AND COKE.

Quantity of decrease ... 11,77,486 mds.
Percentage of do. ... 16·93

The decrease was principally in export coal, the large transactions in the previous quarters having caused a reaction. In the East Indian Railway Traffic Report for November 1889, the following particulars are given :—

"In downwards coal the weight carried was much the same as in the corresponding period of 1887. Last year the traffic was exceptionally heavy, but we should have retained a considerable proportion of the increase then recorded, had not consignment for export been held back owing to a difficulty in obtaining steamers in which to ship the coal. Out of about 10,00,000 maunds coal brought to Howrah during the month under review, about 1,00,000 maunds were invoiced for shipment.

"The Makum (Assam) coal mines in competition with our downwards traffic are reported to be extending their operations and to be securing high rates for their coal, owing to its fine steaming qualities."

WHEAT.

Quantity of decrease ... 78,965 mds.
Percentage of do. ... 33·67

The falling off was in the despatches of wheat to Calcutta from Behar. There were heavy decreases in the traffic from Arrah, Patna, and loop line stations of the East Indian Railway. The quality of the wheat carried was inferior.

RICE IN THE HUSK.

Quantity of decrease ... 1,70,623 mds.
Percentage of do. .. 53·20

The decrease was in the despatches to Calcutta from Eastern and Northern Bengal, and was in sympathy with the state of the Calcutta rice market.

OTHER FOOD-GRAINS.

Quantity of decrease ... 20,170 mds.
Percentage of do. ... 40·78

Under this head, the Traffic Manager, East Indian Railway, remarks that there was a decrease in the short distance traffic generally, noticeable principally at Bhagulpore on the loop line.

GUNNY BAGS AND CLOTH.

Quantity of decrease ... 27,805 mds.
Percentage of do. ... 20·98

This decrease occurred in the consignments to Calcutta from the Northern Bengal block.

LINSEED.

Quantity of decrease ...6,86,948 mds.
Percentage of do. ... 65 37

As stated in the previous quarter's returns, the falling off occurred in the consignments to Calcutta from Behar and Eastern Bengal. An account of the linseed traffic has already been given above in connection with the external trade.

SALTPETRE.

Quantity of decrease ... 24,741 mds.
Percentage of do. ... 15·17

In his report for October, 1889, the Traffic Manager, East Indian Railway, observed as follows:—

"The decrease was principally in consignments from the Tirhoot State and Bengal and North-Western Railways, and may be ascribed to manufacture having been closed during the Doorga Poojah holidays."

TOBACCO, UNMANUFACTURED.

Quantity of decrease ... 21,988 mds.
Percentage of do. ... 25·50

During the previous quarter a large quantity of tobacco was sent to Calcutta from Northern Bengal, and this fact may perhaps account for the falling off in the supplies from the latter block, during the quarter under review; the exports amounted to 36,656 maunds only against 60,818 maunds in the corresponding quarter of 1888.

UPWARD TRAFFIC.

Articles showing an increase as compared with the quarter ending the 31st December, 1888.

KEROSINE OIL.

Quantity of increase ... 34,875 mds.
Percentage of do. ... 43·69

The increase was in the despatches from Calcutta to Behar and Eastern Bengal. In his report for November, 1889, the Traffic Manager, East Indian Railway, writes as follows—

"During the month a steamer left Howrah with 12,500 cases of kerosine oil for Patna, and another steamer was loading when the month closed, the greater portion of the cargo obtained by the steamers being oil. The oil had never been carried to Patna in such quantities before, and, as has since become known, the object has been to make Patna into a centre of distribution, principally by means of country boats."

In the report for December 1889, the following extract from the Goods Superintendent's report on the subject is given :—

"The large despatches during December, 1889 beat the record since the commencement of the kerosine business. The following figures show despatches made in—

	Mds.
December 1887	46,221
Ditto 1888	79,455
Ditto 1889	1,31,899

"During December, 25,721 maunds were despatched to Patna at the reduced rate of four annas per mile per waggon in competition with the steamer traffic.

"This reduced rate gave great satisfaction to the principal traders in kerosine oil, but if we deduct this quantity from our total despatch, we still have a considerable increase to other stations. Thirteen thousand and five hundred maunds were despatched by river during this period, but these consignments were loaded on the flats prior to the reduced rate being sanctioned.

SALT.

Quantity of increase ... 62,119 mds.
Percentage of do. ... 6·21

There were increases in the consignments to Northern and Eastern Bengal from Calcutta against a decrease of 1·15 per cent. in those to Behar, the fluctuation at receiving districts being as follows :—

To	Exports from Calcutta. 1888.	1889.
	Mds.	Mds.
Sonthal Pergunnahs	68,164	55,807
Purneah	899	25,346
Bhagulpore	38,367	59,295
Monghyr	21.026	24,066
Patna	3,609	80,250
Shahabad	56,149	53 829
Gya	33,620	39,696
Durbhunga	1,28,864	1,22,060
Mozufferpore	29,924	28,884
Champarun	50,283	57,345
Sarun	45,046	60,506
Total ...	4,75,951	6,07,084

In his report for November, 1889, the Traffic Manager, East Indian Railway, remarked as follows :—

"The price of imported salt varied during the month between the high figures of Rs. 100 and Rs. 108 per 100 maunds. Native dealers in Tirhoot are turning their attention to Faraknagar salt, which costs at depôt Rs. 28 per 100 maunds, and for which the Railway freight charge to Patna is Rs. 66-13 per 100 maunds."

SUGAR, UNREFINED.

Quantity of increase .. 24,461 mds.
Percentage of do. ... 88·98

The increases occurred in the despatches to Western and Eastern Bengal from Calcutta. The consignments were probably made up of Mauritius sugar, of which large quantities are now imported into Calcutta.

Articles showing a decrease as compared with the quarter ending the 31st December, 1888.

COAL AND COKE.

Quantity of decrease ... 20,940 mds.
Percentage of do. ... 18·07

In the previous quarter there was a large increase of 73·59 per cent. under this head, but in the present quarter the quantities carried to Northern Bengal and Behar from Western Bengal showed a decline of 15,496 maunds and 7,237 maunds respectively. The East Indian Railway Traffic Report for October 1889 contains the following information on this point :—

"During the month the despatches from the Sanctoria Branch of the Bengal-Nagpore Railway were 3,40,000 maunds approximately. The despatches were almost entirely at the expense of our stations Barakar and Sitarampore."

PIECE-GOODS, EUROPEAN.

Quantity of decrease ... 7,572 mds.
Percentage of do. ... 2·08

The decrease is nearly as much as it was in the previous quarter. The East Indian Railway Traffic Report for November 1889 showed that "the outward traffic at Howrah was interfered with during the period by stormy weather. The large traffic in connection with the Dewali festival was carried last year in November, and this year in October, when it contributed to the increase reported in the figures for that month."

RICE IN THE HUSK.		The decreases shown were for the most part in the imports into the Behar block, where there had been an exceptional demand for rice last year. This year the demand did not recur, there being plentiful supplies at stations where there was scarcity last year.
Quantity of decrease ...	49,298 mds.	
Percentage of do. ...	83·46	
RICE NOT IN THE HUSK.		
Quantity of decrease ..	4,91,537 mds.	
Percentage of do. ..	77·02	
IRON.		This decrease is due to a smaller demand in Behar and Western Bengal which imported largely from Calcutta, during the preceding quarter.
Quantity of decrease ...	20,867 mds.	
Percentage of do. ...	15·84	

APPENDIX.

Statement showing the average wholesale prices of articles of trade during the quarter ending the 31st December, 1889, as well as the rates of deduction made from the gross weight to obtain net weight.

Articles.		Rates of deduction.	Rates of value per maund.
